Supplement dated May 18, 2020
To
Prospectus dated May 18, 2020

This Supplement should be read in conjunction with the current Prospectus for your Annuity and should be retained for future reference. This Supplement is intended to update certain information in the Prospectus for the Annuity you own and is not intended to be a prospectus or offer for any other annuity that you do not own. Defined terms used herein and not otherwise defined herein shall have the meanings given to them in the Prospectus and Statement of Additional Information.

This Supplement contains information about the Annualized Insurance Fees/Charges for the Prudential FlexGuard Index-Linked and Variable Annuity ("B Series"). Effective on May 18, 2020, the Mortality & Expense Risk Charges and the Administration Charge in the “Summary of Fees and Expenses” section of the Prospectus will be waived for Account Value allocated to the PSF Government Money Market Portfolio – Class III (also referred to as the Holding Account). This waiver may be withdrawn at any time including without advance notice.

If you would like another copy of the current Annuity Prospectus, please call us at 1-888-PRU-2888.

THIS SUPPLEMENT SHOULD BE READ AND RETAINED FOR FUTURE REFERENCE.

RILABSUP1
Flexible Premium Deferred Index-Linked and Variable Annuity (“B SERIES”)

PROSPECTUS: MAY 18, 2020

This prospectus describes the B Series of a flexible premium deferred index-linked and variable annuity (“Annuity”) offered by Prudential Annuities Life Assurance Corporation (“Prudential Annuities”, “PALAC”, “we”, “our”, or “us”). The Annuity provides for the potential accumulation of retirement savings and retirement income through annuitization. The Annuity is intended for retirement or other long-term investment purposes. This prospectus describes all material rights and obligations of Annuity purchasers under the Annuity contracts. This prospectus is being provided for informational or educational purposes only and does not take into account the investment objectives or financial situation of any client(s) or prospective client(s). The information is not intended as investment advice and is not a recommendation about managing or investing your retirement savings. Clients seeking information regarding their particular investment needs should contact a Financial Professional. The Annuity is offered as an individual annuity contract and has features and benefits that may be appropriate for you based on your financial situation, your age and how you intend to use the Annuity. The Annuity or certain of its Index Strategies, Variable Investment Subaccounts and/or features may not be available in all states.

Financial Professionals may be compensated for the sale of the B Series. Selling broker-dealer firms through which the Annuity is sold may decline to recommend to their customers certain features, Index Strategies and Variable Investment Subaccounts offered generally under the Annuity or may impose restrictions (e.g., a lower maximum issue age for certain Annuity). Selling broker-dealer firms may not make available or may not recommend the B Series of the Annuity and/or features described in this prospectus. Please speak to your Financial Professional for further details.

We hold the assets for each Variable Investment Subaccount in a corresponding Subaccount of PALAC Separate Account B. Each Subaccount, in turn, invests in one of the following Portfolios:

- MFS® International Growth Portfolio – Service Class
- MFS® Total Return Bond Series – Service Class
- MFS® Total Return Series – Service Class
- MFS® Value Series – Service Class
- PSF Government Money Market Portfolio – Class III

We hold the assets for each Index Strategy in a non-insulated, non-utiilized separate account we have established to support our obligations with respect to the Index Strategies.

The Index Strategies currently available are:

The guarantees provided by the Annuity contracts and payments PALAC makes under the Annuity contracts are the obligations of, and subject to the creditworthiness and claims paying ability of, PALAC. Certain terms are capitalized in this prospectus. Those terms are defined either in the Special Terms section or in the context of the particular section.

Flexible premium deferred index-linked and variable annuity contracts are complex insurance and investment vehicles. There is a risk of substantial loss of your principal. The risk of loss may be greater in the case of an early withdrawal due to any charges and adjustments applied to such withdrawals. These charges and adjustments may result in loss even when the value of an Index has increased. Refer to the Risk Factors section beginning on page 11 of this prospectus for more information. Investors should speak with a Financial Professional about the Annuity’s features, benefits, risks and fees, and whether the Annuity is appropriate for the investor based upon his or her financial situation and objectives.
IMPORTANT INFORMATION

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the annual and semi-annual shareholder reports for Portfolios available under your Annuity will no longer be sent by mail, unless you specifically request paper copies of the reports from us. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from us electronically anytime at our website www.prudential.com. You may elect to receive all future shareholder reports in paper free of charge by calling 1-888-779-2888. Your election to receive reports in paper will apply to all Portfolios available under your contract.

PLEASE READ THIS PROSPECTUS

This prospectus sets forth information about the Annuity that you should know before investing. Please read this prospectus and keep it for future reference. If you are purchasing the Annuity as a replacement for an existing variable annuity, variable life insurance policy, fixed annuity or fixed life insurance policy, you should consider any surrender or penalty charges you may incur and any benefits you may also be forfeiting when replacing your existing coverage and that the Annuity may be subject to a Contingent Deferred Sales Charge if you elect to surrender the Annuity or take a partial withdrawal. You should consider your need to access the Annuity’s Account Value and whether the Annuity’s liquidity features will satisfy that need. Please note that if you purchase the Annuity within a tax advantaged retirement plan, such as an IRA, SEP-IRA or Roth IRA, you will get no additional tax advantage through the Annuity itself. Because there is no additional tax advantage when an Annuity is purchased through one of these plans, the reasons for purchasing the Annuity inside a qualified plan are limited to the ability to allocate to the various Index Strategies and Variable Investment Subaccounts, and the opportunity to annuitize the contract, which might make the Annuity an appropriate investment for you. You should consult your tax and Financial Professional regarding such features and benefits prior to purchasing the Annuity for use with a tax-qualified plan.

For currently available Index Strategies, please refer to our website at www.prudential.com.

OTHER CONTRACTS

We offer a variety of annuity contracts. They may offer features, including investment options, and have fees and charges, that are different from the Annuity offered by this prospectus. Not every annuity contract we issue is offered through every selling broker-dealer firm. Upon request, your Financial Professional can show you information regarding other PALAC annuity contracts that he or she sells. You can also contact us to find out more about the availability of any of the PALAC annuity contracts. You should work with your Financial Professional to decide whether the Annuity contract is appropriate for you based on a thorough analysis of your particular needs, financial objectives, investment goals, time horizons and risk tolerance.

AVAILABLE INFORMATION

We have also filed a Statement of Additional Information dated the same date as this prospectus that is available from us, without charge, upon your request. The contents of the Statement of Additional Information are described at the end of this prospectus – see Table of Contents. The Statement of Additional Information is incorporated by reference into this prospectus. This prospectus is part of the registration statement we filed with the SEC regarding this offering. Additional information on us and this offering is available in the registration statement and the exhibits thereto. You may review and obtain copies of these materials at no cost to you by contacting us. These documents, as well as documents incorporated by reference, which means it is legally part of this prospectus may also be obtained through the SEC’s Internet Website (www.sec.gov) for this registration statement as well as for other registrants that file electronically with the SEC. Please see “How to Contact Us” later in this prospectus for our Service Office address.

In compliance with U.S. law, PALAC delivers this prospectus to current Owners that reside outside of the United States. However, we may not market or offer benefits, features or enhancements to prospective or current Owners while outside of the United States.

The Annuity is NOT a deposit or obligation of, or issued, guaranteed or endorsed by, any bank, and is NOT insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation (FDIC), the Federal Reserve Board or any other agency. An investment in an annuity involves investment risks, including possible loss of value, even with respect to amounts allocated to the PSF Government Money Market Subaccount.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

PRUDENTIAL, PRUDENTIAL FINANCIAL, PRUDENTIAL ANNUITIES AND THE ROCK LOGO ARE SERVICEMARKS OF THE PRUDENTIAL INSURANCE COMPANY OF AMERICA AND ITS AFFILIATES. OTHER PROPRIETARY PRUDENTIAL MARKS MAY BE DESIGNATED AS SUCH THROUGH USE OF THE ™ OR ® SYMBOLS.

# APPENDIX A - INTERIM VALUE OF INDEX STRATEGIES

# APPENDIX B - IMPORTANT INFORMATION ABOUT INDICES

# APPENDIX C - NET INVESTMENT FACTOR

# APPENDIX D - SPECIAL CONTRACT PROVISIONS FOR ANNUITIES ISSUED IN CERTAIN STATES
SPECIAL TERMS

We set forth here definitions of some of the key terms used throughout this prospectus. In addition to the definitions here, we also define certain terms in the section of the prospectus that uses such terms.

Account Value: The Interim Value for each Index Strategy plus the total value of any allocations in the Variable Investment Subaccounts on any Valuation Day other than the Index Strategy Start Date and Index Strategy End Date. The Interim Value does not apply to an Index Strategy on the Index Strategy Start Date and the Index Strategy End Date. On an Index Strategy Start Date, the Index Strategy Base applicable to that Index Strategy would be used instead of the Interim Value. On an Index Strategy End Date, the Index Strategy Base plus the Index Credit applicable to that Index Strategy would be used instead of the Interim Value.

Accumulation Period: The period of time from the Issue Date through the last Valuation Day immediately preceding the Annuity Date.

Allocation Option: A Variable Investment Subaccount, Index Strategy or other option we make available as of any given time to which Account Value may be allocated.

Annuitant/Joint Annuitant: The natural person upon whose life annuity payments made to the Owner are based.

Annuitization: The process by which you direct us to apply the Account Value to one of the available annuity options to begin making periodic payments to the Owner.

Annuity Date: The date on which we apply your Account Value to the applicable annuity option and begin the Payout Period. As discussed in the “Annuity Options” section, there is a date by which you must begin receiving annuity payments, which we call the “Maximum Annuity Date.”

Annuity Year: The twelve-month period beginning on the Issue Date and continuing through and including the day immediately preceding the first anniversary of the Issue Date. Subsequent Annuity Years begin on the anniversary of the Issue Date and continue through and include the day immediately preceding the next anniversary of the Issue Date.

Beneficiary(ies): The natural person(s) or entity(ies) designated as the recipient(s) of the Death Benefit or to whom any remaining period certain payments may be paid in accordance with the “Annuity Payout Options” section of the Annuity.

Beneficiary Annuity: An Annuity purchased by a Beneficiary with the Beneficiary’s share of an account owned by a decedent to continue receiving the distributions that are required by the tax laws.

Buffer: The amount of protected negative Index Return applied to the Account Value allocated to an Index Strategy at the end of an Index Strategy Term. Any negative Index Return in excess of the Buffer reduces the Account Value.

Cap Rate: The maximum rate that may be credited to the Point-to-Point with Cap Index Strategy for any given Index Strategy Term. A different Cap Rate may be declared for different Indices, Buffers, and different Index Strategy Terms.

Code: The Internal Revenue Code of 1986, as amended from time to time and the regulations promulgated thereunder.

Contingent Annuitant: The natural person named to become the Annuitant upon the death of Annuitant prior to the Annuity Date.

Contingent Deferred Sales Charge (“CDSC”): This is a sales charge that may be deducted when you make a surrender or take a partial withdrawal from your Annuity. We refer to this as a “contingent” charge because it is imposed only if you surrender or take a withdrawal from your Annuity. The charge is a percentage of each applicable Purchase Payment that is being surrendered or withdrawn.

Due Proof of Death: Due Proof of Death is satisfied when we receive all of the following in Good Order: (a) a death certificate or similar documentation acceptable to us; (b) all representations we require or which are mandated by applicable law or regulation in relation to the death claim and the payment of death proceeds (representations may include, but are not limited to, trust or estate paperwork (if needed); consent forms (if applicable); and claims forms from at least one beneficiary); and (c) any applicable election of the method of payment of the death benefit, if not previously elected by the Owner, by at least one Beneficiary.

Free Look: The right to examine your Annuity, during a limited period of time, to decide if you want to keep it or cancel it. The length of this time period, and the amount of refund, depends on applicable law and thus may vary by state. In addition, there is a different Free Look period that applies if your Annuity was sold to you as a replacement of a life insurance policy or another annuity contract. In your Annuity contract, your Free Look right is referred to as your “Right to Cancel.”

Good Order: Good Order is the standard that we apply when we determine whether an instruction is satisfactory. An instruction will be considered in Good Order if it is received at our Service Office: (a) in a manner that is satisfactory to us such that it is sufficiently complete and clear that we do not need to exercise any discretion to follow such instruction and complies with all relevant laws and regulations; (b) on specific forms, or by other means we then permit (such as via telephone or electronic submission); and/or (c) with any signatures and dates as we may require. We will notify you if an instruction is not in Good Order.

Holding Account: A Variable Investment Subaccount we make available and designate as such. The Holding Account is used for the first 30 days of the contract to hold any Purchase Payments that are to be allocated to an Index Strategy should you elect to delay the initial Index Strategy Start Date. The Holding Account will also be used for additional Purchase Payments received between Index Anniversaries so long as you provided no other instructions for the Purchase Payment in any other available Variable Investment Subaccount.
Index (Indices): The underlying Index associated with an Index Strategy and used to determine the Index Return in determining the Index Credit. You do not directly participate in an Index.

Index Anniversary Date: The same day, each calendar year, as the day of the initial allocation to an Index Strategy (Index Effective Date). You may allocate available Account Value to a new Index Strategy(ies) or to the Variable Subaccounts or other options we make available on this date. You may allocate available Account Value to the same Index Strategy(ies) on this date once the Index Strategy(ies) has reached the Index Strategy End Date.

Index Credit: The amount you receive on an Index Strategy End Date based on the Index Return and the Index Strategy. The Index Credit can be negative, meaning you can lose principal and prior earnings.

Index Effective Date: The first day of the first Index Strategy allocation.

Index Return: The percentage change in the Index Value from the Index Strategy Start Date to the Index Strategy End Date, which is used to determine the Index Credit for an Index Strategy. An Index Return is calculated by taking the Index Value on the Index Strategy End Date, minus the Index Value on the Index Strategy Start Date, and then dividing the result by the Index Value on the Index Strategy Start Date.

Index Strategy(ies): Any index linked Allocation Option we make available in the Annuity for crediting interest based on the underlying Index associated with the Index Strategy, Buffer, and Index Strategy Term. We may offer other Index Strategies from time to time, subject to our rules.

Index Strategy Base: The amount of Account Value allocated to an Index Strategy on an Index Strategy Start Date. The Index Strategy Base is used in the calculation of any Index Credit and in the calculation of the Interim Value. The Index Strategy Base is reduced for any transfers or withdrawals that occur between an Index Strategy Start Date and Index Strategy End Date in the same proportion that the total withdrawal or transfer amount reduced the Interim Value.

Index Strategy End Date: The last day of an Index Strategy Term. This is the day any applicable Index Credit would be credited to the Index Strategy.

Index Strategy Start Date: The first day of an Index Strategy Term.

Index Strategy Term: The time period allocated to each Index Strategy. The term begins on the Index Strategy Start Date and ends on the Index Strategy End Date.

Index Value: The value of the Index that is published by the Index provider at the close of each day that the Index is calculated. If an Index Value is not published for a particular V

Interim Value: The value of an Index Strategy on any Valuation Day during an Index Strategy Term other than the Index Strategy Start Date and Index Strategy End Date. It is a calculated value (as described in the Interim Value section) and is used when a withdrawal, death benefit payment, transfer, annuitization, or surrender occurs between an Index Strategy Start Date and Index Strategy End Date. During an Index Strategy Term, the Interim Value is included in the Account Value and Surrender Value.

Issue Date: The effective date of your Annuity.

Key Life: Under the Beneficiary Annuity, the person whose life expectancy is used to determine the required distributions.

Maximum Annuity Date: The Maximum Annuity Date is equal to the first day of the calendar month following the oldest of the Owner(s)’ and Annuitant(s)’ 95th birthday. You may not reallocate to any Index Strategy where the Index Strategy End Date is after your Maximum Annuity Date.

Owner: The Owner is either an eligible entity or person named as having ownership rights in relation to the Annuity.

Payout Period: The period starting on the Annuity Date and during which annuity payments are made.

Participation Rate: The percentage of any Index increase that will be used in calculating the Index Credit at the end of an Index Strategy Term for applicable Index Strategies. A different Participation Rate may be declared for different Index Strategies, Indices and Buffers.

Portfolio: An underlying mutual fund, or series thereof, in which a Subaccount of the Separate Account invests. A Portfolio also may be referred to in the prospectus as an Underlying Portfolio.

Purchase Payment: A cash consideration in currency of the United States of America given to us in exchange for the rights, privileges, and benefits of the Annuity. We will deduct any fees, charges or Tax Charges prior to allocation to the Allocation Options you select or the Holding Account for Purchase Payments received between Index Anniversary Dates.

Separate Accounts: Refers to PALAC Separate Account B and the Index Strategies Separate Account, which hold assets associated with the Annuity issued by PALAC. Separate Account B assets held in support of the Variable Investment Subaccounts and are kept separate from all of our other assets and may not be charged with liabilities arising out of any other business we may conduct, while the assets in the Index Strategies Separate Account are not insulated from the creditors of PALAC.

Service Office: The place to which all requests and payments regarding the Annuity are to be sent. We may change the address of the Service Office at any time and will notify you in advance of any such change of address. Please see “How to Contact Us” later in this prospectus for the Service Office address.
**Step Rate:** The Step Rate is the declared rate that may be credited to amounts allocated to the applicable Index Strategies for any given Index Strategy Term if the Index Return is between zero and the declared Step Rate. A different Step Rate may be declared for different Indices and Buffers.

**Surrender Value:** The Account Value less any applicable Contingent Deferred Sales Charge, any applicable Tax Charges, and any other applicable charges assessable as a deduction from the Account Value.

**Tier Level:** The declared Index Return that is used to determine which Participation Rate tier applies in the calculation of Index Credit in the Tiered Participation Rate Index Strategy.

**Unit:** A share of participation in a Variable Investment Subaccount used to calculate your Account Value prior to the Annuity Date.

**Unit Price:** The value of each Unit of a Variable Investment Subaccount on a Valuation Day.

**Valuation Day:** Every day the New York Stock Exchange is open for trading or any other day the Securities and Exchange Commission requires mutual funds or unit investment trusts to be valued, and an Index Strategy Index Value is published, not including any day: (1) trading on the NYSE is restricted; (2) an emergency, as determined by the SEC, exists making redemption or valuation of securities held in the Separate Account impractical; or (3) the SEC, by order, permits the suspension or postponement for the protection of security holders.

**Variable Investment Subaccount:** A division of the Variable Separate Account. A Variable Investment Subaccount also may be referred to in this prospectus and the Annuity as a Variable Subaccount or Subaccount.
SUMMARY

This Summary describes key features of the Annuity offered in this prospectus. It is intended to give you an overview, and to point you to sections of the prospectus that provide greater detail. You should not rely on the Summary alone for all the information you need to know before purchasing an Annuity. You should read the entire prospectus for a complete description of the Annuity. Your Financial Professional can also help you if you have questions.

The Annuity: The Prudential FlexGuard index-linked and variable annuity contract issued by PALAC is a contract between you, the Owner, and Prudential Annuities Life Assurance Corporation, an insurance company. It is designed for retirement purposes, or other long-term investing, to help you save money for retirement, on a tax deferred basis, and provide income during your retirement. Although this prospectus describes key features of the Annuity contract, the prospectus is a distinct document, and is not part of the contract.

The Annuity offers various Variable Investment Subaccounts and Index Strategy Allocation Options.

Variable Investment Subaccounts. Each Variable Subaccount invests in a Portfolio whose share price generally fluctuates each day. The Variable Investment Subaccounts do not provide any level of protection against negative returns. You are at risk of losing principal and any earnings if you allocate funds to the Variable Investment Subaccounts, which could result in a significant amount of loss. The assets that are held in support of the Variable Subaccounts are kept separate from all our other assets and may not be chargeable with liabilities arising out of any other business we may conduct.

Index Strategies. The Index Strategies provide an Index Credit based on the Index Return of the underlying Index associated with the Index Strategy. The Index Strategies provide a level of protection against negative Index Returns; however, negative Index Returns in excess of the Buffer will result in a loss of principal and any prior earnings, which could also result in a significant amount of loss. Assets supporting the Index Strategies are held in a non-insulated, non-registered separate account and are subject to the claims of the creditors of PALAC and the benefits provided are subject to the claims paying ability of PALAC.

With the help of your Financial Professional, you choose how to allocate your money within your Annuity (subject to certain restrictions; see “Index Strategies” and “Variable Investment Subaccounts”). Investing in Index Strategies and Variable Investment Subaccounts involves risk and you can lose your money. On the other hand, investing in the Annuity can provide you with the opportunity to grow your money through participation in Index Strategies and Variable Investment Subaccounts.

GENERALLY SPEAKING, INDEX-LINKED AND VARIABLE ANNUITIES ARE INVESTMENTS DESIGNED TO BE HELD FOR THE LONG TERM. WORKING WITH YOUR FINANCIAL PROFESSIONAL, YOU SHOULD CAREFULLY CONSIDER WHETHER AN INDEXED-LINKED AND VARIABLE ANNUITY IS APPROPRIATE FOR YOU GIVEN YOUR LIFE EXPECTANCY, NEED FOR INCOME, AND OTHER PERTINENT FACTORS.

You and your Financial Professional may want to discuss and consider the following factors when deciding whether the Annuity is appropriate for your individual needs: your age; the amount of your initial Purchase Payment and any planned future Purchase Payments into the Annuity; how long you intend to hold the Annuity (also referred to as “investment time horizon”); your desire to make withdrawals from the Annuity and the timing of those withdrawals; your investment objectives; and your desire to minimize costs and/or maximize returns associated with the Annuity.

Risks: Index-linked and variable annuity contracts are complex insurance and investment vehicles. There is a risk of substantial loss of your principal. The risk of loss can be greater in the case of an early withdrawal due to any surrender charges and the Interim Value associated with such withdrawals. Please see “Risk Factors” for additional information.

Purchase: In order to purchase an Annuity, you must be no older than age 85. Also, we require a minimum initial Purchase Payment of $25,000. See your Financial Professional to complete an application.

The Maximum Age for Initial Purchase applies to the oldest Owner as of the day we would issue the Annuity. If the Annuity is to be owned by an entity, the maximum age applies to the oldest Annuitant as of the day we would issue the Annuity. For an Annuity purchased as a Beneficiary Annuity, the maximum issue age is 85 and applies to the Key Life.

After you purchase your Annuity, you will have a limited period of time during which you may cancel (or “Free Look”) the purchase of your Annuity. Your request for a Free Look must be received in Good Order within the applicable time period.

You may allocate your initial Purchase Payment to the Index Strategies and/or the Variable Investment Subaccounts. Please see “Purchasing Your Annuity” for additional information.

Index Strategies: The Annuity offers multiple Index Strategies which provide an Index Credit based on the Index Return of the Index associated with the Index Strategy. The Index Credit is the amount credited on an Index Strategy End Date based on the Index Return and the type of Index Strategy.

The Index Credit may be positive or negative, which means you can lose principal and prior earnings. You may allocate all or a portion of your Purchase Payments into one or more Index Strategies. We currently offer the following Index Strategies: Point-to-Point with Cap, Tiered Participation Rate and Step Rate Plus.

The Point-to-Point with Cap Index Strategy provides an Index Credit equal to the Index Return up to a Cap.

• If the Index Return is positive and equal to or greater than the Cap Rate, then the Index Credit is equal to the Cap Rate. If the Index Return is positive, but less than the Cap Rate, the Index Credit is equal to the Index Return.
• If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

• Offers the greatest level of protection with the most options for term lengths, but limited upside potential.

The Tiered Participation Rate Index Strategy provides an Index Credit equal to the Index Return multiplied by one or two Participation Rates.

• If the Index Return is between zero and the declared Tier Level, then the Index Credit is equal to the Index Return multiplied by the Participation Rate for the 1st tier. If the Index Return is greater than or equal to the declared Tier Level, the Index Credit is the sum of the Tier Level Index Return multiplied by the Participation Rate for the 1st tier and the remaining Index Return multiplied by the Participation Rate for the 2nd tier.

• If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

• Offers an upside potential with no maximum or limitations, but only available in longer term lengths.

The Step Rate Plus Index Strategy provides an Index Credit equal to the greater of the Index Return multiplied by a Participation Rate or the Step Rate.

• If the Index Return is between zero (including zero) and the declared Step Rate, then the Index Credit is equal to the Step Rate. If the Index Return is greater than the Step Rate, the Index Credit is equal to the greater of the Index Return multiplied by the Participation Rate or the Step Rate.

• If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

• Offers the smallest level of protection, but no maximum on the upside potential. Available only in shorter term lengths.

Not all Index Strategies will be available with all Indices, in all available Index Strategy Terms, and in all available Buffers. As a result of economic market conditions, or utilization of the Index Strategies, we reserve the right to add and remove Index Strategies at any time. For currently available Index Strategies, please refer to our website at www.prudential.com. New Cap Rates will be set for Index Strategy Terms upon Index Anniversary Dates. These Cap Rates will be set based upon the current interest rate and market environment. New Buffers may be offered as new Index Strategy Options. We currently offer one-year, three-year and six-year Index Strategy Terms. We currently offer Index Strategies based on the S&P 500 Index and the MSCI EAFE Index. The Annuity offers Index Strategies with 5%, 10%, 20%, and 100% Buffers. The Buffer is the amount of protected negative return. Any loss beyond the Buffer level reduces the Account Value allocated to the Index Strategy. Please see “Index Strategies” for more information.

Indices: We reserve the right to add and remove an Index at any time. If an Index is discontinued or changed in a manner that results in a material change in the formula or method of calculating the Index, we reserve the right to substitute it with an alternative Index and will notify you of any such substitution. Upon substitution of an Index, we will calculate your Index Return on the replaced Index up until the date of substitution and the substitute Index from the date of substitution to the Index Strategy End Date. An Index substitution will not change your Index Strategy. A substitution of an Index between the Index Strategy Start Date and Index Strategy End Date may impact the calculation of your Index Credit on the Index Strategy End Date. When we notify you of any substitution of an Index, we will also inform you of the potential impacts to your Index Credit. You may transfer your allocation in the impacted Index Strategy, at Interim Value, to the Variable Investment Subaccounts, where you may then use the funds to start a new Index Strategy on the next Index Anniversary Date.

Variable Investment Subaccounts: You may allocate to a variety of Variable Investment Subaccounts. The Portfolio in which each Variable Investment Subaccount invests is described in its own summary prospectus, which you should read before selecting your Variable Investment Subaccounts. You can obtain the summary prospectuses and prospectuses for the Portfolios by calling 1-888-PRU-2888 or at www.prudential.com. There is no assurance that any Variable Investment Subaccount will meet its investment objective. Please see “Variable Investment Subaccounts” for more information.

Interim Value: If you take a withdrawal (including partial withdrawals, systematic withdrawals and full surrenders), transfer out of, annuitize, or we pay a death claim between an Index Strategy Start Date and Index Strategy End Date, we will use an Interim Value to determine the fair market value of each Index Strategy at the time of the transaction. The Interim Value is also used to determine how much the Index Strategy Base will be reduced after a transfer or withdrawal. If you withdraw Account Value allocated to an Index Strategy, the withdrawal will cause an immediate reduction to your Index Strategy Base in a proportion equal to the reduction in your Interim Value. A proportional reduction could be larger than the dollar amount of your withdrawal. Reductions to your Index Strategy Base will negatively impact your Interim Value for the remainder of the Index Strategy Term and will result in a lower Index Credit on the Index Strategy End Date. Once your Index Strategy Base is reduced due to a withdrawal during any Index Strategy Term, it will not increase for the remainder of the Index Strategy Term.

The Interim Value is designed to represent the fair value of the Index Strategy on each Valuation Day, taking into account the potential gain or loss of the applicable Index at the end of the Index Strategy Term. The Interim Value reflects the change in fair value due to economic factors of the investment instruments (including derivatives) supporting the Index Strategies. This will also be compared to the potential Index Credit based upon the portion of time the customer has been invested in the Index Strategy (pro-rata). The Interim Value utilizes the lesser of this fair market value calculation and the pro-rata calculation. The Interim Value may result in a loss even if the Index Value at the time the Interim Value is calculated is higher than the Index Value on the Index Strategy Start Date. See “Interim Value” and “Access to Account Value” for more information.
Access To Your Money: You can receive access to your money by taking withdrawals or electing annuity payments. Please note that withdrawals may be subject to tax and may be subject to a Contingent Deferred Sales Charge. Withdrawals taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. Please see “Interim Value” for more information. In addition, any time a partial withdrawal occurs before the Index Strategy End Date, the Index Strategy Base will be reduced in the same proportion that the total withdrawal reduced the Interim Value. Please see “Access to Account Value” for more information. You may withdraw up to 10% of your Purchase Payments each year as further defined in Section “Free Withdrawal Amounts” without being subject to a Contingent Deferred Sales Charge.

You may elect to receive income through fixed annuity payments over your lifetime, also called “Annuitization”. If you elect to receive annuity payments, you convert your Account Value into a stream of future payments. This means in most cases you no longer have an Account Value and therefore cannot make withdrawals. We offer different types of annuity options to meet your needs. Please see “Annuity Options” for more information.

You may transfer Account Value between Variable Investment Subaccounts or from Index Strategies to Variable Investment Subaccounts at any time. On each Index Anniversary Date, you may reallocate Account Value allocated to Variable Investment Subaccounts and any Index Strategy(ies) that has reached an Index Strategy End Date into any available Index Strategy. There is no charge for such transfers. Please see “Managing Your Account Value” for more information. You must provide instructions for reallocation at least 2 days prior to the Index Anniversary Date. Failure to provide timely instructions may result in amounts being transferred into the Holding Account, which is allocated to the PSF Government Money Market Portfolio and could remain in that Account for up to a year until your next Index Anniversary Date.

Death Benefits: You may name a Beneficiary to receive the proceeds of your Annuity upon your death. Your death benefit must be distributed within the time period required by the tax laws. The Death Benefit is the Return of Purchase Payments Death Benefit. Please see “Death Benefits” for more information.

Fees and Charges: The Annuity is subject to certain fees and charges, as discussed in the “Summary of Contract Fees and Charges” table in this prospectus. In addition, there are fees and expenses of the Portfolios of the Variable Investment Subaccounts. While no fees or charges are deducted from the amounts held in the Index Strategies, the available Cap Rates, Participation Rates, Tier Levels, and Step Rates reflect the expenses related to the Index Strategies.

What does it mean that my Annuity is “tax deferred”? The Annuity is “tax deferred”, meaning you pay no taxes on any earnings from your Annuity until you withdraw the money. You may also transfer among the Index Strategies and the Variable Investment Subaccounts without paying a tax at the time of the transfer. When you take your money out of the Annuity, however, you will be taxed on the earnings at ordinary income tax rates. If you withdraw money before you reach age 59½, you also may be subject to a 10% federal tax penalty.

Please note that if you purchase the Annuity within a tax advantaged retirement plan, such as an IRA, SEP-IRA, Roth IRA, you will get no additional tax advantage through the Annuity itself. Because there is no additional tax advantage when an index-linked and variable annuity is purchased through one of these plans, the reasons for purchasing the Annuity inside a tax-qualified plan are limited to the ability to allocate to the various Index Strategies and Variable Investment Subaccounts, and the opportunity to annuitize the contract, which might make the Annuity an appropriate investment for you. You should consult your tax and Financial Professional regarding such features and benefits prior to purchasing the Annuity for use with a tax-qualified plan.

Other Information: Please see “Information About the Insurance Company and Separate Accounts” and “Additional Information” for more information about the Annuity, including legal information about PALAC, Separate Account B and the Index Strategies Separate Account.
Summary of Fees and Expenses

The following tables describe the fees and expenses that you will pay when buying, owning and surrendering the Annuity. The first table describes the fees and expenses that you will pay at the time you buy the Annuity, surrender the Annuity, or transfer cash value between the Variable Investment Subaccounts. State premium taxes may also be deducted. Important additional information about these fees and expenses is contained in “Fees, Charges and Deductions” later in this prospectus.

### ANNUITY OWNER TRANSACTION EXPENSES

<table>
<thead>
<tr>
<th>Age of Purchase Payment Being Withdrawn</th>
<th>Percentage Applied Against Purchase Payment being Withdrawn</th>

<td>4.0%</td>
</tr>
<tr>
<td>6 years old or older</td>
<td>3.0%</td>
</tr>
<tr>
<td></td>
<td>0.0%</td>
</tr>
</tbody>
</table>

The years referenced in the CDSC table above refer to the length of time since a Purchase Payment was made (i.e. the age of the Purchase Payment). CDSCs are applied against the Purchase Payment(s) being withdrawn. The appropriate percentage is multiplied by the Purchase Payment(s) being withdrawn. Purchase Payments are withdrawn on a “first-in, first-out” basis.

**Tax Charge:** 0% - 3.5%

The Tax Charge is designed to approximate the taxes that we are required to pay and is assessed as a percentage of Purchase Payments, Surrender Value, or Account Value as applicable. The Tax Charge currently ranges up to 3.5%. These taxes apply only in certain states.

The following table describes the periodic fees and charges you will pay when you allocate to the Variable Investment Subaccounts, not including the underlying Portfolio fees and expenses.

### ANNUALIZED INSURANCE FEES/CHARGES

<table>
<thead>
<tr>
<th>(as a percentage of the net assets of the Variable Subaccounts)</th>

<td>1.05%</td>
</tr>
<tr>
<td>Administration Charge</td>
<td>0.15%</td>
</tr>
<tr>
<td><strong>Total Annualized Insurance Fees and Charges²</strong></td>
<td>1.30%</td>
</tr>
</tbody>
</table>

¹ Any transactions that impact Purchase Payments and cause a change in the applicable Insurance Charge level will cause that change in level on the Valuation Day(s) on which the transactions occur.

² The Insurance Charge is a combination of the Mortality & Expense Risk Charge and the Administration Charge. The Total Annualized Fees and Charges shown above is based on the Mortality & Expense Risk Charge for Level 1. If Purchase Payments were in a different level at any time during an Annuity Year, the total would be lower.

The following table provides the range (minimum and maximum) of the total operating expenses charged by the Portfolios before any contractual waivers and expense reimbursements. Each figure is stated as a percentage of the Portfolio’s average daily net assets.

### TOTAL ANNUAL UNDERLYING PORTFOLIO OPERATING EXPENSES

*See notes immediately below for important information about this fund.

**MFS® International Growth Portfolio – Service Class**
Massachusetts Financial Services Company has agreed in writing to bear the fund's expenses, excluding interest, taxes, extraordinary expenses, brokerage and transaction costs, and investment-related expenses (such as interest and borrowing expenses incurred in connection with the fund's investment activity), such that "Total Annual Fund Operating Expenses" do not exceed 0.88% of the class' average daily net assets annually for Initial Class shares and 1.13% of the class' average daily net assets annually for Service Class shares. This written agreement will continue until modified by the fund’s Board of Trustees, but such agreement will continue until at least April 30, 2021.

**MFS® Total Return Series - Service Class**
Massachusetts Financial Services Company has agreed in writing to bear the fund's expenses, excluding interest, taxes, extraordinary expenses, brokerage and transaction costs, and investment-related expenses (such as interest and borrowing expenses incurred in connection with the fund's investment activity), such that "Total Annual Fund Operating Expenses" do not exceed 0.61% of the class' average daily net assets annually for Initial Class shares and 0.86% of the class' average daily net assets annually for Service Class shares. This written agreement will continue until modified by the fund’s Board of Trustees, but such agreement will continue until at least April 30, 2021.

**MFS® Value Series - Service Class**
Massachusetts Financial Services Company has agreed in writing to bear the fund's expenses, excluding interest, taxes, extraordinary expenses, brokerage and transaction costs, and investment-related expenses (such as interest and borrowing expenses incurred in connection with the fund's investment activity), such that "Total Annual Fund Operating Expenses" do not exceed 0.71% of the class' average daily net assets annually for Initial Class shares and 0.96% of the class' average daily net assets annually for Service Class shares. This written agreement will continue until modified by the fund’s Board of Trustees, but such agreement will continue until at least April 30, 2021.
Expense Examples

These examples are intended to help you compare the cost of investing in the Annuity with the cost of investing in other PALAC annuities and/or other variable annuities. These costs include Annuity Owner transaction expenses, Insurance Charge annual expenses, and underlying Portfolio fees and expenses.

These examples assume that you invest $10,000 in the Annuity for the time periods indicated. One set of examples also assume that your investment has a 5% return each year, assumes the maximum fees and expenses of any of the Underlying Portfolios, and assumes that no Account Value was allocated to the Index Strategies. The other set of examples assumes that your investment has a 5% return each year, assumes the minimum fees and expenses of any of the Underlying Portfolios, and assumes that no Account Value was allocated to the Index Strategies. Although your actual costs may be higher or lower, based on these assumptions, your cost for B Series would be:

<table>
<thead>
<tr>
<th></th>
<th>Assuming Maximum Fees and Expenses of any of the Portfolios Available</th>
<th>Assuming Minimum Fees and Expenses of any of the Portfolios Available</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1 Year</td>
<td>3 Years</td>
</tr>
<tr>
<td>If you surrender your annuity at the end of the applicable time period:</td>
<td>$965</td>
<td>$1,414</td>
</tr>
<tr>
<td>If you annuitize your annuity at the end of the applicable time period:</td>
<td>$265</td>
<td>$814</td>
</tr>
<tr>
<td>If you do not surrender your annuity at the end of the applicable time period:</td>
<td>$265</td>
<td>$814</td>
</tr>
</tbody>
</table>

THE EXAMPLES ARE FOR ILLUSTRATIVE PURPOSES ONLY. THEY SHOULD NOT BE CONSIDERED A REPRESENTATION OF PAST OR FUTURE EXPENSES. ACTUAL EXPENSES MAY BE GREATER OR LESS THAN THOSE SHOWN. ACTUAL EXPENSES WILL BE DIFFERENT THAN THOSE SHOWN DEPENDING ON A NUMBER OF FACTORS, INCLUDING (1) WHETHER YOU Decide TO ALLOCATE ACCOUNT VALUE TO VARIABLE SUB-ACCOUNTS OTHER THAN THOSE WITH THE MAXIMUM TOTAL ANNUAL PORTFOLIO OPERATING EXPENSES; AND (2) THE IMPACT OF ANY CONTRACTUAL FEE WAIvers OR EXPENSE REIMBURSEMENTS APPLICABLE TO UNDERLYING PORTFOLIOS.
Condensed Financial Information

Because the Annuity is new, we have no condensed Variable Subaccount financial information to report. In the future, we will provide a table that shows selected information concerning Units for each Subaccount. A Unit is the share of participation that we use to calculate the value of your interest in a Subaccount.
RISK FACTORS

Risks of Investing in the Variable Investment Subaccounts

You take all the investment risk for amounts allocated to one or more of the Variable Investment Subaccounts, which invest in Portfolios. If the Variable Investment Subaccounts you select increase in value, then your Account Value goes up; if they decrease in value, your Account Value goes down. How much your Account Value goes up or down depends on the performance of the Portfolios in which your Variable Investment Subaccounts invest.

Risk of Loss – Index Strategies

You take the investment risk for amounts allocated to one or more Index Strategies since the Index Credit is based upon the performance of the associated Index. You bear the risk of the negative Index Return in excess of the Buffer you choose except for any 100% Buffer Index Strategy where there is no risk of loss to you, should you stay allocated to the end of the Index Strategy Term. In the case of a multi-year Index Strategy Term, losses are measured over the entire Index Strategy Term from the Index Strategy Start Date to the Index Strategy End Date and may exceed the Buffer levels associated with the Index Strategy.

Risks Associated with the Indices

Because the S&P 500 ® Index, and the MSCI EAFE Index are each comprised of a collection of equity securities, in each case the value of the component securities is subject to market risk, or the risk that market fluctuations may cause the value of the component securities to go up or down, sometimes rapidly and unpredictably. Market fluctuations can result from disasters and other events, such as storms, earthquakes, fires, outbreaks of infectious diseases (such as COVID -19), utility failures, terrorist acts, political and social developments, and military and governmental actions. In addition, the value of equity securities may increase or decline for reasons directly related to the issuers of the securities. Equity markets are subject to the risk that the value of the securities may fall due to general market and economic conditions. Market volatility may exist with these indices, which means that the value of the indices can change dramatically over a short period of time in either direction. These Indices are not funds and are not available for direct investment.

With respect to the MSCI EAFE Index, international investing involves special risks not found in domestic investing, including political and social differences and currency fluctuations due to economic decisions. Emerging markets can be riskier than investing in well established foreign markets. The risks associated with investing on a worldwide basis include differences in the regulation of financial data and reporting, currency exchange differences, as well as economic and political systems differences.

Effect of Interim Value

To determine the Interim Value, we apply a formula which does not reflect the actual performance of the applicable Index, but rather a determination of the value of hypothetical underlying investments at the time of the Interim Value calculation. This amount could be more or less than if you had held the Index Strategy for the full Index Strategy Term. It also means that you could have a negative performance, even if the value of the Index has increased at the time of the calculation. All withdrawals from an Index Strategy, including death benefit payments, transfers, annuitization and surrenders paid before the Index Strategy End Date will be based on the Interim Value. Withdrawals before an Index Strategy End Date could have adverse impacts even if the value of the Index has increased at the time of the calculation because an early withdrawal will not allow you to participate in the Index Return for the Index Strategy Term with your entire Index Strategy Base. If you withdraw Account Value allocated to an Index Strategy, the withdrawal will cause an immediate reduction to your Index Strategy Base in a proportion equal to the reduction in your Interim Value. A proportional reduction may be larger than the dollar amount of your withdrawal even if the value of the Index has increased. See “Impact of Withdrawals” below for additional information.

Impact of Withdrawals

If you withdraw Account Value allocated to an Index Strategy, the withdrawal will cause an immediate reduction to your Index Strategy Base in a proportion equal to the reduction in your Interim Value. A proportional reduction could be larger than the dollar amount of your withdrawal. Reductions to your Index Strategy Base will negatively impact your Interim Value for the remainder of the Index Strategy Term and will result in a lower Index Credit on the Index Strategy End Date. Once your Index Strategy Base is reduced due to a withdrawal during any Index Strategy Term, it will not increase for the remainder of the Index Strategy Term.

Availability of Index Strategies will vary over time

Before allocating to an Index Strategy, you should determine the Index Strategies, Buffers, Cap Rates, Participation Rates and Step Rates available to you. We reserve the right to change Cap Rates and Buffers at any time. There is no guarantee that an Index Strategy will be available in the future. You should make sure the Index Strategies you select are appropriate for your investment goals. A change in Cap Rates may limit the Index Credit you receive. A change in Buffers may impact the amount of negative Index Credit applied to your Account Value.

Reallocation of Index Strategies

At the end of an Index Strategy Term for an Index Strategy, the amount allocated to that Index Strategy will be reallocated based upon your instructions we received in Good Order, or if none has been received in Good Order, automatically renew into the same Index Strategy unless the Index Strategy End Date would be after the Maximum Annuity Date. If the same Index Strategy is no longer available, the amount will be transferred into the Holding Account, and the amount may be transferred among the Variable Investment Subaccounts at any time or into another Index Strategy on the next Index Anniversary Date. You must provide instructions for reallocation at least 2 days prior to the Index Anniversary Date. Failure to
provide timely instructions may result in amounts being transferred into the Holding Account (if the existing Index Strategy no longer is available) which is allocated to the PSF Government Money Market Portfolio, and could remain in that Account for up to a year until your next Index Anniversary Date.

Limitation on Index Strategy Returns - Cap Rate

If you elect an Index Strategy with a Cap Rate, the Index Credit is limited by any applicable Cap Rate, which means that your Index Credit could be lower than if you had invested directly in a fund based on the applicable Index. The Cap Rate exists for the full term of the Index Strategy.

Substitution of an Index

We have the right to substitute a comparable index prior to the Index Strategy End Date if any Index is discontinued or if the calculation of an Index is substantially changed (such as a material change in the formula or method of calculating the Index). We would attempt to choose a substitute index that has a similar investment objective and risk profile to the replaced index and would notify you of any such substitutions. Upon substitution of an Index, we will calculate your Index Return on the replaced Index up until the date of substitution and the substitute Index from the date of substitution to the Index Strategy End Date. An Index substitution will not change your Index Strategy. The performance of the new Index may not be as good as the one that it substituted and as a result your Index Return may have been better if there had been no substitution. When we notify you of any substitution of an Index, we will also inform you of the potential impacts to your Index Credit. You may transfer your allocation in the impacted Index Strategy, at Interim Value, to the Variable Investment Subaccounts, where you may then use the funds to start a new Index Strategy on the next Index Anniversary Date.

Issuing Company

No company other than PALAC has any legal responsibility to pay amounts that PALAC owes under the Annuity. You should look to the financial strength of PALAC for its claims-paying ability. Amounts allocated to the Index Strategies are held in a non-registered, non-insulated separate account. These assets are subject to the claims of the creditors of PALAC and the benefits provided under the Index Strategies are subject to the claims paying ability of PALAC.

The Company is also subject to risks related to disasters and other events, such as storms, earthquakes, fires, outbreaks of infectious diseases (such as COVID-19), utility failures, terrorist acts, political and social developments, and military and governmental actions. These risks are often collectively referred to as “business continuity” risks. These events could adversely affect the Company and our ability to conduct business and process transactions. Although the Company has business continuity plans, it is possible that the plans may not operate as intended or required and that the Company may not be able to provide required services, process transactions, deliver documents or calculate values. It is also possible that service levels may decline as a result of such events.
INDEX STRATEGIES

The Annuity offers multiple Index Strategies which provide an Index Credit based on the Index Return of the underlying Index associated with the Index Strategy. The Index Credit is the amount you receive on an Index Strategy End Date based on the Index Return and the type of Index Strategy. The Index Credit may be positive or negative, which means you can lose Purchase Payments and prior earnings. You may allocate all or a portion of your Purchase Payments into one or more Index Strategies. The Index Strategies are not invested in any underlying Index. We do not guarantee the Index Credits for the Index Strategies. There is a risk of loss of your investment because the Index Strategy will be credited the negative Index Return in excess of the level of protection you selected through the Buffers.

We currently offer the following Index Strategies: Point-to-Point with Cap, Tiered Participation Rate and Step Rate Plus. These Index Strategies are explained below. Not all Index Strategies will be available with all Indices, Buffers, and in all available Index Strategy Terms. As a result of economic market conditions, or utilization of the Index Strategies, we reserve the right to add and remove Index Strategies at any time. Additions or removals would be effective with any newly issued contracts or upon reallocation for any existing contract holders. Removals would not impact existing contract holders currently allocated to an Index Strategy prior to the Index Strategy End Date. You will receive a Reallocation Notice 30 days prior to your Index Anniversary Date. You must provide instructions for reallocation (by any method allowable) at least 2 days prior to the Index Anniversary Date. The reallocation will be processed on the Index Anniversary Date. You will be able to make reallocation selections via mail, phone, or through online access. For currently available Options please see our website at www.prudential.com.

The minimum amount required to allocate to any Index Strategy is $2,000. There is no maximum amount that can be allocated to an Index Strategy. If you are allocating to an Index Strategy with an additional Purchase Payment, please note that we reserve the right to limit, suspend or reject any additional Purchase Payment at any time, but would do so only on a non-discriminatory basis.

Index Strategy Term

The Index Strategy Term is the time period allocated to each Index Strategy. The term begins on the Index Strategy Start Date and ends on the Index Strategy End Date. Index Strategy Terms of 1, 3, and 6 years are available and may vary based on the Index Strategy. The Index Strategy Start Date begins on the day you allocate funds to any Index Strategy, known as the Index Effective Date. The annual anniversary of this date is the Index Anniversary Date and will not change for the life of your contract. You may only allocate to an Index Strategy on an Index Anniversary Date.

Indices

Each Index Strategy references an Index that determines the Index Return used to compute the Index Credit. These Indices are not funds and are not available for direct investment. We currently offer Index Strategies based on the following securities indices:

- S&P 500® Index (SPX). The S&P 500® Index is comprised of 500 stocks considered representative of the overall market. An index is unmanaged and not available for direct investment.

- MSCI EAFE Index (MXEA). The MSCI EAFE Index measures the equity market performance of 22 developed market country indices located in Europe, Australasia and the Far East. An index is unmanaged and not available for direct investment.

If an Index is discontinued or substantially changes, we reserve the right to select an alternative Index and we will notify you of any such changes. For these purposes, an Index would be substantially changed if an index sponsor announces that it will make a material change in the formula for the Index or the method of calculating the Index or in any other way materially modifies the Index. We would attempt to choose a substitute Index that has a similar investment objective and risk profile to the replaced Index. Upon substitution of an Index, we will calculate your Index Return on the replaced Index up until the date of substitution and the substitute Index from the date of substitution to the Index Strategy End Date. An Index substitution will not change your Index Strategy. The performance of the new Index may not be as good as the one that it substituted and as a result your Index Return may have been better if there had been no substitution. When we notify you of any substitution of an Index, we will also inform you of the potential impacts to your Index Credit. You may transfer your allocation in the impacted Index Strategy, at Interim Value, to the Variable Investment Subaccounts, where you may then use the funds to start a new Index Strategy on the next Index Anniversary Date.

See Appendix B for important information about the Indices.

Withdrawals may be subject to tax charges and to a Contingent Deferred Sales Charge. Withdrawals taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. In the case of a partial withdrawal before the Index Strategy End Date, the Index Strategy Base will be reduced in the same proportion that the total withdrawal reduced the Interim Value.

NOTE REGARDING EXAMPLES

The Examples set forth below, as well as other Examples found throughout this prospectus, are intended to illustrate how various features of the Annuity work. These Examples should not be considered a representation of past or future performance of any Index Strategies. Actual performance may be greater or less than those shown in the Examples. Similarly, the Index Returns in the Examples are not an estimate or guarantee of future Index performance. The Caps, Participation Rates, Step Rates, and Buffers for the Index Strategies shown in the following Examples are for illustrative purposes only and may not reflect actual declared rates. In addition, values may be rounded for display purposes only.

BUFFERS
The Buffer limits the amount of negative Index Credit that may be applied to the Account Value allocated to an Index Strategy. We will declare Buffers that will be available on the Index Strategy Start Date for each Index Strategy.

The Annuity offers Index Strategies with 5%, 10%, 20%, and 100% Buffers. The Buffer is the amount of the protected negative return. Any negative Index Credits in excess of the Buffer reduces the Account Value allocated to the Index Strategy.

EXAMPLE

Index Strategy Start Date = 1/8/2020
Index Strategy = 1-Year Point-to-Point with Cap and a 10% Buffer
Index Value at Index Strategy Start Date = 1569
Index Strategy Base = $100,000

Index Strategy End Date = 1/8/2021
Index Value at Index Strategy End Date = 1333
Index Return = -15% ((1333-1569)/1569)
Index Strategy Base upon Index Strategy End Date = $95,000 ($100,000-$5,000)

Because the Buffer protects the first 10% of the loss, the Index Strategy only experiences a 5% loss (-15% Index Return + 10% Buffer = -5% Loss) or $100,000*-5.00% = -$5,000.

The following year, assuming the same Index Strategy:

Index Strategy End Date = 1/8/2022
Index Value at Index Strategy End Date = 1298

Index Return = -3%
Index Strategy Base upon Index Strategy End Date = $95,000

Because the Buffer protects against the first 10% of the loss, the Index Strategy experiences no loss of Account Value because the loss in the Index Return was less than the 10% Buffer.

POINT-TO-POINT WITH CAP INDEX STRATEGY

The Cap Rate is the maximum rate that may be credited to an Index Strategy for any given Index Strategy Term. A different Cap Rate may be declared for different Indices, Buffers and Index Strategy Terms. The Point-to-Point with Cap Index Strategy is available in 1, 3, and 6-year Terms.

If the Index Return is positive and equal to or greater than the Cap Rate, then the Index Credit is equal to the Cap Rate. If the Index Return is positive, but less than the Cap Rate, the Index Credit is equal to the Index Return.

If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

EXAMPLES 1 AND 2

Cap: 12%; Buffer: 10%

- **Upside potential** equals 100% of the Index Return up to a Cap of 12%
  - Example 1: if the Index increased by 4%, an amount that is less than the Cap, the Index Credit would be 4%.
  - Example 2: if the Index increased by 20%, which is greater than the Cap, the Index Credit would be 12%, which is equal to the Cap Rate.

- **Partial downside protection** is provided through the Buffer where Index losses within the Buffer are protected. Index losses that exceed the Buffer will result in a loss of Account Value.
  - Example 1: if the Index decreased by 4%, an amount within the Buffer, the Index Credit would be 0%, with no loss of Account Value.
  - Example 2: if the Index decreased by 12%, which is greater than the 10% Buffer, there would be a loss of Account Value because the Index Credit would be -2%.

The initial Cap Rate applies to the initial Index Strategy Term. We will declare a Cap Rate for each subsequent Index Strategy Term. In some cases we may declare a Cap Rate for an Index Strategy as “uncapped” in which case the maximum Index Credit you may receive is equal to the Index Return, subject to the Buffer.
Subsequent Cap Rates may be higher or lower than the initial Cap Rate but will never be less than the Guaranteed Minimum Cap Rate. Subsequent Cap Rates may differ from the Cap Rates used for new contracts or for other contracts issued at different times. We will determine new Cap Rates on a basis that does not discriminate unfairly within any class of contracts. The Guaranteed Minimum Cap Rate may vary by Index Strategy Term. The Guaranteed Minimum Cap Rate equals 1.00% for a one-year Index Strategy Term, 5.00% for a three-year Index Strategy Term and 10.00% for a six-year Index Strategy Term.

**STEP RATE PLUS INDEX STRATEGY**

The Step Rate is the declared rate that will be credited to an Index Strategy for any given Index Strategy Term if the Index Return is between zero (including zero) and the declared Step Rate. When the Index Return is zero or positive, the Step Rate is the minimum amount of Index Credit that would be applied. The Participation Rate used in the Step Rate Plus Index Strategy is the percentage of an Index Return that may be credited if the Index Return exceeds the Step Rate. A Participation Rate only applies when the Index Return is positive and greater than the Step Rate.

If the Index Return is between zero (including zero) and the declared Step Rate, then the Index Credit is equal to the Step Rate. If the Index Return is greater than the Step Rate, the Index Credit is equal to the greater of the Index Return multiplied by the Participation Rate or the Step Rate. If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

A different Step Rate and Participation Rate may be declared for different Indices, Buffers, and Index Strategy Terms.

**EXAMPLES 1, 2 AND 3**

Step Rate: 6%; Participation Rate: 90%; Buffer: 5%

- **Upside potential** equals the Step Rate if the Index Return is between 0% and the Step Rate. If greater than the Step Rate, the Index Credit is equal to the greater of the Index Return multiplied by the Participation Rate or the Step Rate.
  - Example 1: if the Index increased by 4%, an amount that is less than the Step Rate, the Index Credit would be 6% (the Step Rate).
  - Example 2: if the Index increased by 20%, which is greater than the Step Rate, the Index Credit would be the greater of 90% (the Participation Rate) of 20%, which is 18% or the Step Rate. In this Example, the Index Credit would be 18% as it is the greater value.
  - Example 3: if the Index increased by 6.50%, which is greater than the Step Rate, the Index Credit would be the greater of 90% (the Participation Rate) of 6.50%, which is 5.85% or the Step Rate. In this Example, the Index Credit would be the Step Rate of 6% as it is the greater value.

- **Partial downside** is provided through the Buffer where Index losses within the Buffer are protected. Index losses that exceed the Buffer will result in a loss of Account Value.
  - Example 1: if the Index decreased by 4%, an amount within the Buffer, the Index Credit would be 0%, with no loss of Account Value.
  - Example 2: if the Index decreased by 12%, which is greater than the 5% Buffer, there would be a loss of Account Value because the Index Credit would be -7%.

There is no maximum amount of Index Credit with the Step Rate Plus Index Strategy.

The initial Step Rate and Participation Rate applies to the initial Index Strategy Term. We will declare new Step Rate and Participation Rate for each subsequent Index Strategy Term.

Subsequent Step Rates and Participation Rates may be higher or lower than the initial Step Rate and Participation Rate but will never be less than the Guaranteed Minimum Step Rate and Guaranteed Minimum Participation Rate. The Guaranteed Minimum Step Rate equals 1.00%. The Guaranteed Minimum Participation Rate equals 70.00%. Subsequent Step Rates and Participation Rates may differ from the Step Rates and Participation Rates used for new contracts or for other contracts issued at different times. We will determine new Step Rates and Participation Rates on a basis that does not discriminate unfairly within any class of contracts.

**TIERED PARTICIPATION RATE INDEX STRATEGY**

The Participation Rate is the percentage of an Index Return that may be credited to an Index Strategy for any given Index Strategy Term. We will declare a 1st Tier Participation Rate, 2nd Tier Participation Rate, and a Tier Level at the start of each Index Strategy Term. The 1st Tier Participation Rate is used to calculate the Index Credit associated with any Index Return less than or equal to the declared Tier Level. The 2nd Tier Participation Rate is used to calculate the Index Credit associated with any Index Return greater than the declared Tier Level. A different Participation Rate and Tier Level may be declared for different Indices, Buffers, and Index Strategy Terms. Participation Rates only apply when the Index Return is positive.

If the Index Return is between zero and the declared Tier Level, then the Index Credit is equal to the Index Return multiplied by the Participation Rate for the 1st tier. If the Index Return is greater than or equal to the declared Tier Level, the Index Credit is the sum of the Tier Level Index Return
multiplied by the Participation Rate for the 1st tier and the remaining Index Return multiplied by the Participation Rate for the 2nd tier. If the Index Return is negative, but less than or equal to the Buffer, the Index Credit is zero. Otherwise, the Index Credit is equal to the negative Index Return in excess of the Buffer.

EXAMPLES 1 AND 2

1st Tier Participation Rate: 100%; 2nd Tier Participation Rate: 140%; Tier Level: 30%; Buffer: 10%

- **Upside potential** equals the Index Return multiplied by the Participation Rate associated with the Tier Level of 30%.
  - Example 1: if the Index increased by 28%, which is less than the Tier Level, the Index Credit would be 100% of the 28% increase, which would be 28%.
  - Example 2: if the Index increased by 68%, which is above the Tier Level, the Index Credit would be 100% of the first 30% increase plus 140% of the remaining 38% increase, which equals 83.2%.

- **Partial downside protection** is provided through the Buffer where index losses within the Buffer are protected. Index losses that exceed the Buffer will result in a loss of Account Value.
  - Example 1: if the Index decreased by 4%, an amount within the Buffer, the Index Credit would be 0%, with no loss of Account Value.
  - Example 2: if the Index decreased by 12%, which is greater than the 10% Buffer, there would be a loss of Account Value because the Index Credit would be -2%.

There is no maximum amount of Index Credit with a Tiered Participation Rate Index Strategy.

The initial Participation Rates and Tier Levels apply to the initial Index Strategy Term. We will declare new Participation Rates and Tier Levels for each subsequent Index Strategy Term.

Subsequent Participation Rates may be higher or lower than the initial Participation Rates but will never be less than the Guaranteed Minimum Participation Rate. The Guaranteed Minimum Participation Rate equals 100%. Subsequent Tier Levels may be higher or lower than the initial Tier Level but will never exceed the Guaranteed Maximum Tier Level. The Guaranteed Maximum Tier Level equals 35%.

Subsequent Participation Rates and Tier Levels may differ from the Participation Rates and Tier Levels used for new contracts or for other contracts issued at different times. We will determine new Participation Rates and Tier Levels on a basis that does not discriminate unfairly within any class of contracts.
VARIABLE INVESTMENT SUBACCOUNTS

In this section, we describe the Portfolios in which the Variable Subaccounts invest. Each Variable Subaccount invests in a Portfolio whose share price generally fluctuates each Valuation Day. The Portfolios that you select are your choice – we do not provide investment advice, nor do we recommend any particular Portfolio. Please consult with your Financial Professional if you wish to obtain investment advice. You bear the investment risk for amounts allocated to the Portfolios.

VARIABLE INVESTMENT SUBACCOUNTS

Each Variable Subaccount is a subaccount of PALAC Separate Account B (see “Information About the Insurance Company and Separate Accounts” for more detailed information). Each Subaccount invests exclusively in one Portfolio. You should carefully read the prospectus for any Portfolio in which you are interested. The chart below provides a description of each Portfolio’s investment objective to assist you in determining which Portfolios may be of interest to you.

The Portfolios are not publicly traded mutual funds. They are only available as investment options in variable annuity contracts and variable life insurance policies issued by insurance companies, or in some cases, to participants in certain qualified retirement plans. However, some of the Portfolios available as Subaccounts under the Annuity are managed by the same Portfolio adviser or subadviser as a retail mutual fund of the same or similar name that the Portfolio may have been modeled after at its inception. While the investment objective and policies of the retail mutual funds and the Portfolios may be substantially similar, the actual investments will differ to varying degrees. Differences in the performance of the funds and Portfolios can be expected, and in some cases could be substantial. You should not compare the performance of a publicly traded mutual fund with the performance of any similarly named Portfolio offered as a Subaccount. Details about the investment objectives, policies, risks, costs and management of the Portfolios are found in the prospectuses for the Portfolios. There is no guarantee that any Portfolio will meet its investment objective. The current prospectus and statement of additional information for the underlying Portfolio can be obtained by calling 1-888-PRU-2888 or at www.prudential.com.

This Annuity offers a Portfolio managed by PGIM Investments LLC, an affiliated company of PALAC ("Affiliated Portfolio") and Portfolios managed by companies not affiliated with PALAC ("Unaffiliated Portfolio"). PALAC and its affiliates ("Prudential Companies") receive fees and payments from both the Affiliated Portfolio and the Unaffiliated Portfolios. Prudential Companies may receive revenue sharing payments from the Unaffiliated Portfolios. We consider the amount of these fees and payments when determining which Portfolios to offer through the Annuity. As indicated next to each Portfolio's description in the table that follows, each Portfolio has one or more investment advisers or subadvisers that conduct day to day management. We have an incentive to offer Portfolios with certain investment advisers or subadvisers, either because the subadviser is a Prudential Company or because the investment adviser or subadviser provides payments or support, including distribution and marketing support, to the Prudential Companies. We may consider those financial incentive factors in determining which Portfolios to offer under the Annuity. PALAC has selected the Portfolios for inclusion as investment options under this Annuity in PALAC’s role as the issuer of this Annuity, and PALAC does not provide investment advice or recommend any particular Portfolio. Please see "Additional Information" under the heading concerning "Fees and Payments Received by PALAC" for more information about fees and payments we may receive from underlying Portfolios and/or their affiliates. In addition, we may consider the potential risk to us of offering a Portfolio in light of the benefits provided by the Annuity.

We may substitute one or more of the Subaccounts or terminate the availability of a Subaccount at any time. We would not do this without any necessary SEC and/or state regulatory approval. We will provide you specific notice in advance of any substitution we intend to make and the Subaccount(s) to which your affected Account Value would be transferred on the substitution date unless you made a different election before the substitution. We will also notify you if a Subaccount will no longer be available. Additionally, the Portfolios could undertake transactions that could limit or terminate their availability as investment options, including transactions to merge with another investment, or to liquidate. Any such transactions would be subject to applicable regulatory and/or shareholder approval. You will receive specific notice in advance of the merger or liquidation of a Portfolio, and we will explain how we will allocate future Purchase Payments directed to such a Portfolio in the absence of different allocation instructions from you. Any allocation we make in the absence of different allocation instructions from you would be subject to applicable regulatory guidance or approval.

The following table contains limited information about the Portfolios. Before selecting a Variable Subaccount, you should carefully review the summary prospectuses and/or prospectuses for the Portfolios, which contain details about the investment objectives, policies, risks, costs and management of the Portfolios. You can obtain the summary prospectuses and prospectuses for the Portfolios by calling 1-888-PRU-2888 or at www.prudential.com.

PGIM Investments LLC manages the PSF Government Money Market Portfolio of the Prudential Series Fund (PSF).
INFORMATION ABOUT THE INSURANCE COMPANY AND SEPARATE ACCOUNTS

PRUDENTIAL ANNUITIES LIFE ASSURANCE CORPORATION

Prudential Annuities Life Assurance Corporation, a Prudential Financial Company, ("Prudential Annuities" or "PALAC") is a stock life insurance company incorporated under the laws of Arizona as of August 31, 2013, formerly incorporated in Connecticut, and is domiciled in Arizona. It is licensed to sell life insurance and annuities in the District of Columbia, Puerto Rico and in all states except New York. Prudential Annuities Life Assurance Corporation is a wholly-owned subsidiary of Prudential Annuities, Inc., whose ultimate parent is Prudential Financial, Inc. Prudential Annuities markets through and in conjunction with registered broker-dealers.

PALAC has developed long-term savings and retirement products, which were distributed through its affiliated broker-dealer company, Prudential Annuities Distributors, Inc. ("PAD"). PALAC issued variable and fixed deferred and immediate annuities for individuals and groups in the United States of America and Puerto Rico. In addition, PALAC has relatively small in force block of variable life insurance policies. PALAC stopped actively selling annuity products in March 2010. In March 2010, PALAC ceased offering its variable annuity products (and where offered, the companion market value adjustment option) to new investors upon the launch of a new product line by each of Pruco Life Insurance Company and its wholly-owned subsidiary Pruco Life Insurance Company of New Jersey (which are affiliates of PALAC). These initiatives were implemented to create operational and administrative efficiencies by offering a single product line of annuity products from a more limited group of legal entities. During 2012, PALAC suspended additional customer deposits for variable annuities with certain living benefit guarantees. However, PALAC continues to accept additional customer deposits on certain in-force contracts, subject to applicable contract provisions and administrative rules.

PALAC resumed offering annuity products to new investors (except in New York) when it launched new fixed indexed annuities and a new deferred income annuity in 2018.

No company other than Prudential Annuities has any legal responsibility to pay amounts that it owes under its annuity contracts. Among other things, this means that where you participate in an optional living benefit or death benefit and the value of that benefit exceeds your current Account Value, you would rely solely on the ability of the issuing insurance company to make payments under the benefit out of its own assets. Prudential Financial, however, exercises significant influence over the operations and capital structure of Prudential Annuities.

Pursuant to the delivery obligations under Section 5 of the Securities Act of 1933 ("Securities Act") and Rule 159 thereunder, Prudential Annuities delivers this prospectus to current Owners that reside outside of the United States. In addition, we may not market or offer benefits, features or enhancements to prospective or current Owners while outside of the United States.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

Prudential Annuities Life Assurance Corporation incorporates by reference into the prospectus its latest annual report on Form 10-K as of December 31, 2019 filed pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 ("Exchange Act") since the end of the fiscal year covered by its latest annual report. In addition, all documents subsequently filed by us pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act also are incorporated into the prospectus by reference. We will provide to each person, including any beneficial owner, to whom a prospectus is delivered, a copy of any or all of the information that has been incorporated by reference into the prospectus but not delivered with the prospectus. Such information will be provided upon written or oral request at no cost to the requester by writing to Prudential Annuities Life Assurance Corporation, One Corporate Drive, Shelton, CT 06484 or by calling 888-PRU-2888. We file periodic reports as required under the Exchange Act. The SEC maintains an Internet site that contains reports, proxy, and information statements, and other information regarding issuers that file electronically with the SEC (see www.sec.gov). Our internet address is www.prudential.com.

FINANCIAL STATEMENTS

The financial statements of the separate accounts and Prudential Annuities Life Assurance Corporation are included in the Statement of Additional Information.

THE SEPARATE ACCOUNTS

The separate accounts are where PALAC sets aside and invests the assets supporting the Annuity. The assets of each separate account are held in the name of Prudential Annuities, and legally belong to us. We will maintain assets in each separate account with a total market value at least equal to the cash surrender value and other liabilities we must maintain related to the Annuity obligations supported by such assets. The obligations under the Annuity are those of Prudential Annuities, which is the issuer of the Annuity and the depositor of the separate accounts. More detailed information about Prudential Annuities, including its audited consolidated financial statements, is provided in the Statement of Additional Information.

Separate Account B

During the Accumulation Period, the assets supporting obligations based on allocations to the Subaccounts are held in Subaccounts of Prudential Annuities Life Assurance Corporation Variable Account B, also referred to as "Separate Account B". Separate Account B assets that are held in support of the Subaccounts are kept separate from all our other assets and may not be chargeable with liabilities arising out of any other business we may conduct. Thus, income, gains and losses from assets allocated to Separate Account B are credited to or charged against Separate Account B, without regard to other income, gains or losses of PALAC or any other of our separate accounts.

Separate Account B was established by us pursuant to Connecticut law on November 25, 1987. Separate Account B also holds assets of other annuities issued by us with values and benefits that vary according to the investment performance of Separate Account B.
Effective August 31, 2013, Prudential Annuities Life Assurance Corporation changed its domicile from Connecticut to Arizona. As a result of this change, the Arizona Department of Insurance is our principal regulatory authority and all of our separate accounts including Separate Account B, will now be operated in accordance with the laws of Arizona.

Separate Account B consists of multiple Subaccounts. Each Subaccount invests only in a single mutual fund or mutual fund portfolio. The name of each Subaccount generally corresponds to the name of the Portfolio. Each Subaccount in Separate Account B may have several different Unit Prices to reflect the Insurance Charge, Distribution Charge (when applicable) and the charges for any optional benefits that are offered under the Annuity issued by us through Separate Account B. Separate Account B is registered with the SEC under the Investment Company Act of 1940 ("Investment Company Act") as a unit investment trust, which is a type of investment company. The SEC does not supervise investment policies, management or practices of Separate Account B. We may offer new Subaccounts, eliminate Subaccounts, or combine Subaccounts at our sole discretion. We may also close Subaccounts to additional Purchase Payments on existing annuities or close Subaccounts for annuities purchased on or after specified dates. We will first notify you and receive any necessary SEC and/or state approval before making such a change. If an underlying mutual fund is liquidated, we will ask you to reallocate any amount in the liquidated fund. If you do not reallocate these amounts, we will reallocate such amounts only in accordance with SEC pronouncements and only after obtaining an order from the SEC, if required. If investment in the Portfolios or a particular Portfolio is no longer possible, or in our discretion becomes inappropriate for purposes of the Annuity, or for any other rationale in our sole judgment, we may substitute another portfolio or investment Portfolios without your consent. The substituted portfolio may have different fees and expenses. Substitution may be made with respect to existing investments or the investment of future Purchase Payments, or both. However, we will not make such substitution without any required approval of the SEC and any applicable state insurance departments. In addition, we may close Portfolios to allocation of Purchase Payments or Account Value, or both, at any time in our sole discretion. We do not control the underlying mutual funds, so we cannot guarantee that any of those funds will always be available.

Values and benefits based on allocations to the Subaccounts will vary with the investment performance of the underlying mutual funds or fund Portfolios, as applicable. We do not guarantee the investment results of any Subaccount. Your Account Value allocated to the Subaccounts may increase or decrease. You bear the entire investment risk. There is no assurance that the Account Value of your Annuity will equal or be greater than the total of the Purchase Payments you make to us.

Index Strategies Separate Account

Assets supporting the Index Strategies are held in a non-insulated, non-unitized separate account established under Arizona law. These assets are subject to the claims of the creditors of PALAC and the benefits provided under the Index Strategies are subject to the claims paying ability of PALAC.

An Owner does not have any interest in or claim on the assets in the Separate Account. In addition, neither an Owner nor amounts allocated to the Index Strategies participate in the performance of the assets held in the Separate Account.

We are not obligated to invest according to specific guidelines or strategies except as may be required by Arizona and other state insurance laws.

The General Account. Our general obligations and any guaranteed benefits under the Annuity are supported by our General Account and are subject to our claims paying ability. In the Payout Period, assets supporting annuity payments are held in the General Account. Assets in the General Account are not segregated for the exclusive benefit of any particular contract or obligation. General Account assets are also available to our general creditors and for conducting routine business activities, such as the payment of salaries, rent and other ordinary business expenses. The General Account is subject to regulation and supervision by the Arizona Department of Insurance and to the insurance laws and regulations of all jurisdictions where we are authorized to do business.
FEES, CHARGES AND DEDUCTIONS

In this section, we provide detail about the charges you incur if you own the Annuity.

The charges under the Annuity are designed to cover, in aggregate, our direct and indirect costs of selling, administering and providing benefits under the Annuity. They are also designed, in aggregate, to compensate us for the risks of loss we assume. If, as we expect, the charges that we collect from the Annuity exceed our total costs in connection with the Annuity, we will earn a profit. Otherwise we will incur a loss. For example, PALAC may make a profit on the Insurance Charge (as described in the "Insurance Charge" subsection of this section) if, over time, the actual costs of providing the guaranteed insurance obligations and other expenses under the Annuity are less than the amount we deduct for the Insurance Charge. To the extent we make a profit on the Insurance Charge, such profit may be used for any other corporate purpose.

The rates of certain of our charges have been set with reference to estimates of the amount of specific types of expenses or risks that we will incur. In general, a given charge under the Annuity compensates us for our costs and risks related to that charge and may provide for a profit. However, it is possible that with respect to a particular obligation we have under the Annuity, we may be compensated not only by the charge specifically tied to that obligation, but also from one or more other charges we impose.

With regard to charges that are assessed as a percentage of the value of the Subaccounts, please note that such charges are assessed through a reduction to the Unit Value of your investment in each Subaccount, and in that way reduce your Account Value. A "Unit" refers to a share of participation in a Subaccount used to calculate your Account Value prior to the Annuity Date. There are no explicit charges for the Index Strategies.

**Contingent Deferred Sales Charge ("CDSC"):** A CDSC reimburses us for expenses related to sales and distribution of the Annuity, including commissions, marketing materials and other promotional expenses. We may deduct a CDSC if you surrender your Annuity or when you make a partial withdrawal. The CDSC is calculated as a percentage of your Purchase Payment being surrendered or withdrawn. The CDSC percentage varies with the number of years that have elapsed since each Purchase Payment being withdrawn was made. The CDSC percentages are shown under “Summary of Contract Fees and Charges” earlier in this prospectus.

With respect to a partial withdrawal, we calculate the CDSC by assuming that any available Free Withdrawal Amount is taken out first (see “Free Withdrawal Amounts” later in this prospectus). If the Free Withdrawal Amount is not sufficient, we then assume that any remaining amount of a partial withdrawal is taken from Purchase Payments on a first-in, first-out basis, and subsequently from any other Account Value in the Annuity (such as gains), as described in the examples below.

**EXAMPLES**

These examples are designed to show you how the CDSC is calculated. They do not take into account any other fees and charges. The examples illustrate how the CDSC would apply to reduce your Account Value based on the timing and amount of your withdrawals. They also illustrate how a certain amount of your withdrawal, the "Free Withdrawal Amount," is not subject to the CDSC. The Free Withdrawal Amount is equal to 10% of all Purchase Payments currently subject to a CDSC in each year and is described in more detail in “Access to Account Value,” later in this prospectus.

Assume you purchase your Annuity with a $75,000 initial Purchase Payment and you make no additional Purchase Payments for the life of your Annuity.

**Example 1**

Assume the following:

- four years after the purchase, your Account Value is $85,000 (your Purchase Payment of $75,000 plus $10,000 of investment gain);
- the Free Withdrawal Amount is $7,500 (10% of $75,000);
- the applicable CDSC is 5%.

If you request a withdrawal of $50,000, $7,500 is not subject to the CDSC because it is the Free Withdrawal Amount. The remaining amount of your withdrawal is subject to the 5% CDSC. The CDSC in this example is 5% of $42,500, or $2,125.

**Gross Withdrawal or Net Withdrawal.** You can request either a gross withdrawal or a net withdrawal. In a gross withdrawal, you request a specific withdrawal amount with the understanding that the amount you actually receive is reduced by any applicable CDSC as well as any applicable tax withholding. In a net withdrawal, you request a withdrawal for an exact dollar amount with the understanding that any applicable deduction for CDSC as well as any applicable tax withholding is taken from your Account Value. This means that an amount greater than the amount of your requested withdrawal will be deducted from your Account Value. To make sure that you receive the full amount requested, we calculate the entire amount, including the amount generated due to the CDSC or tax withholding that will need to be withdrawn. We then apply the CDSC or tax withholding to that entire amount. As a result, for the same dollar amount request for a gross withdrawal or a net withdrawal, you will pay a greater CDSC or have more tax withheld if you elect a net withdrawal.

- If you request a gross withdrawal of $50,000, the amount of the CDSC will reduce the amount of the withdrawal you receive. In this case, the CDSC would equal $2,125 (($50,000 – the Free Withdrawal Amount of $7,500 = $42,500) x 0.05 = $2,125). You would receive $47,875 ($50,000 – $2,125). To determine your remaining Account Value after your withdrawal, we reduce your initial Account Value by the amount of your requested withdrawal. In this case, your Account Value would be $35,000 ($85,000 – $50,000).

- If you request a net withdrawal of $50,000, we first determine the entire amount that will need to be withdrawn in order to provide the requested payment. We do this by first subtracting the Free Withdrawal Amount and dividing the resulting amount by the result of 1 minus
the surrender charge. Here is the calculation: $42,500/(1 – 0.05) = $44,736.84. This is the total amount to which the CDSC will apply. The amount of the CDSC is $2,236.84. Therefore, in order to for you to receive the full $50,000, we will need to deduct $52,236.84 from your Account Value, resulting in remaining Account Value of $32,763.16.

Example 2

Assume the following:

- you took the withdrawal described in Example 1 above as a gross withdrawal;
- two years after the withdrawal described above, the Account Value is $48,500 ($35,000 of remaining Account Value plus $13,500 of investment gain);
- the Free Withdrawal Amount is $7,500; and
- the applicable CDSC in Annuity Year 6 is now 3%.

If you now take a second gross withdrawal of $10,000, $7,500 is not subject to the CDSC because it is the Free Withdrawal Amount for that year. The remaining $2,500 is subject to the 3% CDSC or $75 and you will receive $9,925.

On the day that we process your request for a withdrawal, we calculate a CDSC based on any Purchase Payments not previously withdrawn. If your Account Value has declined in value, or if you had made prior withdrawals that reduced your Account Value, the dollar amount of your requested withdrawal may represent, as a percentage of the Purchase Payments being withdrawn, a dollar amount that is greater than your Account Value.

To determine if CDSC applies to a partial withdrawal, we first determine if all Purchase Payments have been previously withdrawn. If so, no CDSC applies. If not:

1. First determine what, if any, amounts qualify as a Free Withdrawal. These amounts are not subject to CDSC.
2. Next determine what, if any, remaining amounts are in excess of the Free Withdrawal Amount. These amounts will be treated as withdrawals of Purchase Payments. These amounts may be subject to CDSC. Purchase Payments are withdrawn on a first-in, first-out basis.
3. Withdraw any remaining amounts from any other Account Value (including gains). These amounts are not subject to CDSC.

CDSC is waived under the following circumstances, including but not limited to:

- The Free Withdrawal Amount - withdrawals equal to or less than the stated Free Withdrawal Amount
- Beneficiary Continuation Option distributions
- RMD - as calculated by us, even those taken during the first contract year, and distributed through a program/process we support.
- Required distributions from a Beneficiary Annuity that we calculate, even those taken during the first contract year, and distributed through a program/process we support.
- Medically-Related Surrenders (MRS) - based on the Owner meeting the following conditions (or Annuitant if entity owned): a) terminally ill or b) confinement to a medical facility for 90 consecutive days following the Issue Date (State variations may apply).
  - We define a medical facility as a facility recognized as a hospital or a long-term care facility or that is a nursing home facility with a 24-hour RN or LPN who controls all prescribed medications and daily medical records.
  - We define terminal illness as a condition which death results in 2 years for 80% of diagnosed cases.
  - We allow for partial Medically Related Surrenders - we reserve the right in the contract to cap at a cumulative maximum of $500K per life, though this is not currently enforced.
  - There is no cap on total Payments, i.e. the amount of Purchase Payments will not cause an Owner to be eligible for the waiver.

We will not discriminate unfairly between Annuity purchasers with respect to any CDSC waivers.

Tax Charge: Some states and some municipalities charge premium taxes or similar taxes on annuities that we are required to pay. The amount of tax will vary from jurisdiction to jurisdiction and is subject to change. We reserve the right to deduct the tax from Purchase Payments when received, from Surrender Value upon surrender, or from Account Value upon Annuitization. The Tax Charge is designed to approximate the taxes that we are required to pay and is assessed as a percentage of Purchase Payments, Surrender Value, or Account Value as applicable. The Tax Charge currently ranges up to 3.5%. We may assess a charge against the Subaccounts and the Index Strategies equal to any taxes which may be imposed upon the Separate Accounts. "Surrender Value" refers to the Account Value less any applicable CDSC and any applicable Tax Charges.

We will pay company income taxes on the taxable corporate earnings created by the Annuity. While we may consider company income taxes when pricing our products, we do not currently include such income taxes in the Tax Charges you may pay under the Annuity. We will periodically review the
issue of charging for these taxes, and we may charge for these taxes in the future. We reserve the right to impose a charge for federal income taxes if we determine, in our sole discretion, that we will incur a tax as a result of the operation of the Separate Accounts.

In calculating our corporate income tax liability, we may derive certain corporate income tax benefits associated with the investment of company assets, including Separate Account assets, which are treated as company assets under applicable income tax law. These benefits reduce our overall corporate income tax liability. Under current law, such benefits may include foreign tax credits and corporate dividend received deductions. We do not pass these tax benefits through to holders of the Separate Account annuity contracts because (i) the Owners are not the Owners of the assets generating these benefits under applicable income tax law and (ii) we do not currently include company income taxes in the Tax Charges you pay under the Annuity. We reserve the right to change these tax practices.

Insurancen Charge: The Insurance Charge is charged daily based on the annualized rate shown in the “Summary of Contract Fees and Charges” for the amount of Purchase Payments in your Annuity on each Valuation Day allocated to the Variable Investment Subaccounts. On any Valuation Day, your Purchase Payments will equal the sum of all Purchase Payments prior to the application of any fees, charges, or Tax Charges applied to your Annuity less all withdrawals taken from your Annuity, which includes withdrawals you take from the Annuity as Required Minimum Distributions. Currently, we offer two levels of the Insurance Charge depending on whether your Purchase Payments are less than $1,000,000, or equal to or greater than $1,000,000 on any Valuation Day. If your Purchase Payments are less than $1,000,000, you will pay a higher Insurance Charge at that time than you would pay if your Purchase Payments were $1,000,000 or more.

The Insurance Charge is intended to compensate PALAC for providing the insurance benefits under each Annuity and the risk that persons we guarantee annuity payments to will live longer than our assumptions. The charge covers the mortality and expense risk and administration charges. Furthermore, the charge also compensates us for our administrative costs associated with providing the Annuity benefits, including preparation of the contract and prospectus, confirmation statements, quarterly account statements and annual reports, legal and accounting fees as well as various related expenses. Finally, the charge compensates us for the risk that our assumptions about the mortality risks and expenses under each Annuity are incorrect and that we have agreed not to increase these charges over time despite our actual costs. The charge is not applicable to any allocations to the Index Strategy Options.

Fees and Expenses Incurred by the Portfolios: Each Portfolio incurs total annualized operating expenses comprised of an investment management fee, other expenses and any distribution and service (12b-1) fees or short sale expenses that may apply. These fees and expenses are assessed against each Portfolio’s net assets and reflected daily by each Portfolio before it provides PALAC with the net asset value as of the close of business each Valuation Day. More detailed information about fees and expenses can be found in the summary prospectuses and prospectuses for the Portfolios, which can be obtained by calling 1-888-PRU-2888.

ANNUITY PAYMENT OPTION CHARGES

If you select a fixed payment option upon Annuitization, the amount of each fixed payment will depend on the Account Value of your Annuity when you elect to annuitize. There is no specific charge deducted from these payments; however, the amount of each annuity payment reflects assumptions about our insurance expenses. Also, a Tax Charge may apply.

EXCEPTIONS/REDUCTIONS TO FEES AND CHARGES

We may reduce or eliminate certain fees and charges or alter the manner in which the particular fee or charge is deducted. For example, we may reduce the amount of any CDSC or the length of time it applies or reduce the portion of the Insurance Charge that is deducted as an administration charge. We will not discriminate unfairly between Annuity purchasers if and when we reduce any fees and charges.

Under the selling agreements, cash compensation in the form of commissions is paid to firms on sales of the Annuity according to one or more schedules. The registered representative will receive a portion of the compensation, depending on the practice of his or her firm. Commissions are generally based on a percentage of Purchase Payments made. Commissions and other cash compensation paid in relation to your Annuity do not result in any additional charge to you or to the Separate Account(s).
VALUING YOUR INVESTMENT AND INTERIM VALUE OF INDEX STRATEGIES

PROCESSING AND VALUING TRANSACTIONS

PALAC is generally open to process financial transactions on those days that the New York Stock Exchange (NYSE) is open for trading. There may be circumstances where the NYSE does not open on a regularly scheduled date or time or closes at an earlier time than scheduled (normally 4:00 p.m. Eastern Time). Generally, financial transactions received in Good Order before the close of regular trading on the NYSE will be processed according to the value next determined following the close of business. Financial transactions received on a non-business day or after the close of regular trading on the NYSE will be processed based on the value next computed on the next Valuation Day.

We will not process any financial transactions involving purchase or redemption orders on days that the NYSE is closed. PALAC will also not process financial transactions involving purchase or redemption orders or transfers on any day that:

- trading on the NYSE is restricted;
- an emergency, as determined by the SEC, exists making redemption or valuation of securities held in the Separate Account impractical; or
- the SEC, by order, permits the suspension or postponement for the protection of security holders.

In certain circumstances, we may need to correct the processing of an order. In such circumstances, we may incur a loss or receive a gain depending upon the price of the security when the order was executed and the price of the security when the order is corrected. With respect to any gain that may result from such order correction, we will retain any such gain as additional compensation for these correction services.

VALUING THE VARIABLE INVESTMENT SUBACCOUNTS

When you allocate Account Value to a Variable Investment Subaccount, you are purchasing Units of the Variable Investment Subaccount. Each Variable Investment Subaccount invests exclusively in shares of a Portfolio. The value of the Units fluctuates with the market fluctuations of the Portfolios. The value of the Units also reflects the daily accrual for the Insurance Charge.

Each Valuation Day, we determine the price for a Unit of each Variable Investment Subaccount, called the “Unit Price”. The Unit Price is used for determining the value of transactions involving Units of the Variable Investment Subaccounts. The Unit Price for each Variable Subaccount is the net investment factor for that Valuation Period, multiplied by the Unit Price for the immediately preceding Valuation Day. The Unit Price for a Valuation Period applies to each Valuation Day in the Period. The net investment factor is an index that measures the investment performance of and charges assessed against, a Variable Subaccount from one Valuation Period to the next. See Appendix C for calculation of net investment factor. We determine the number of Units involved in any transaction by dividing the dollar value of the transaction by the Unit Price of the Variable Investment Subaccount as of the Valuation Day. There may be several different Unit Prices for each Variable Investment Subaccount to reflect the Insurance Charge. The Unit Price for the Units you purchase will be based on the total charges that apply to your Annuity.

Example

Assume you allocate $5,000 to a Variable Investment Subaccount. On the Valuation Day you make the allocation, the Unit Price is $14.83. Your $5,000 buys 337.154 Units of the Variable Investment Subaccount. Assume that later, you wish to transfer $3,000 of your Account Value out of that Variable Investment Subaccount and into another Variable Investment Subaccount. On the Valuation Day you request the transfer, the Unit Price of the original Variable Investment Subaccount has increased to $16.79 and the Unit Price of the new Variable Investment Subaccount is $17.83. To transfer $3,000, we redeem 178.677 Units at the current Unit Price, leaving you 158.477 Units. We then buy $3,000 of Units of the new Variable Investment Subaccount at the Unit Price of $17.83. You would then have 168.255 Units of the new Variable Investment Subaccount.

INTERIM VALUE OF INDEX STRATEGIES

On each Valuation Day during the year, other than the Index Strategy Start Date and Index Strategy End Date, each Index Strategy is valued using an Interim Value. The Interim Value is used to calculate amounts available for withdrawal (including systematic withdrawals), surrender, transfer, annuitization or payment of a death claim. The Interim Value also is used to determine how much the Index Strategy Base will be reduced after a transfer or withdrawal.

The Interim Value is also included in the Account Value and Surrender Value to reflect the amount in the applicable Index Strategy prior to the Index Strategy End Date. The Interim Value reflects the value of each Index Strategy taking into account the current price of the underlying Index, the time remaining until the Index Strategy End Date, and the current value of the investments we have made to fund our obligations under the Index Strategy. The Interim Value is an estimate of the current value of fixed income and derivative instruments we could purchase to assure our ability to meet our obligations to the Owner at an Index Strategy End Date. We use a portfolio of fixed income instruments and derivatives to replicate our obligations to calculate Index Credit for the Index Strategies. These derivatives are valued using the Black-Scholes Model. There are many external factors that may impact the Interim Value including changes in the Indices, changes in the interest rate environment, and volatility.

The Interim Value assesses the fair value of the assets allocated to the Index Strategy (Index Strategy Base) plus the current value of the portfolio of options utilized to replicate the performance of these Index Strategies and a calculation of your potential Index Credits based upon the amount of time that you have been in these Index Strategies as compared to the Index Term for these Index Strategies (Pro-rata portion). It takes the lesser of these two values as outlined below.
The Interim Value for the applicable Index Strategy is equal to the minimum of [(1) + (2) or (3)], where:

1. The fair value of the Index Strategy Base is meant to represent the market value of the investments supporting each Index Strategy.
   The Market Value Index Rate will apply on a uniform basis for a class of Owners in the same Index Strategy and will be administered in a uniform and non-discriminatory manner.
   The Market Value Index Rate is the Bloomberg Barclays U.S. Intermediate Credit Index rate. The Bloomberg Barclays U.S. Intermediate Credit Index is the rate for the maturity using a set duration. The duration is set to represent the duration of the investments supporting the Index Strategy and may not match the actual length of the Index Strategy.
   If the Bloomberg Barclays U.S. Intermediate Credit Index yield is not published for a particular day, then we will use the yield on the next day it is published. If the Bloomberg Barclays U.S. Intermediate Credit Index yield is no longer published, or is discontinued, then we may substitute another suitable method for determining this component of the Market Value Index Rate.

2. Current value of replicating the portfolio of options – We utilize a fair market value methodology to value replicating the portfolio of options that support this product.
   For each Index Strategy, we solely designate and value options, each of which is tied to the performance of the Index associated with the Index Strategy. We use derivatives to provide an estimate of the gain or loss on the Index Strategy Base that could occur at the end of the Index Strategy Term. This estimate also reflects the impact of the Cap Rate, Participation Rate, Tier Level, Step Rate and Buffer at the end of the Index Strategy Term as well as the estimated cost of exiting the replicating options prior to the Index Strategy End Date. The valuation of the options is based on standard methods for valuing derivatives and based on inputs from third party vendors. The methodology used to value these options is determined solely by us and may vary, higher or lower, from other estimated valuations or the actual selling price of identical derivatives. Any variance between our estimated fair value price and other estimated or actual prices may be different from Index Strategy type to Index Strategy type and may also change from day to day.

3. The pro-rata portion of the potential Index Credit. A calculation based on the Index Return to date, adjusted for the portion of time that you have been invested in the Index Strategy as compared to your Index Strategy Term, as outlined below.

See Appendix A for additional information regarding the Interim Value calculation.

EXAMPLE

Index Effective Date: 12/2/2019
Purchase Payment: $150,000
Allocated to:

- 33% 1-Year Step Rate Plus; S&P 500; Step Rate 5%; Participation Rate 90%; Buffer 5%
- 33% 3-Year Point-to-Point Cap Rate; S&P 500; Cap Rate 75%; Buffer 10%
- 34% 6-Year Tiered Participation Rate; S&P 500; Tier 1 100%; Tier 2 140%; Tier Level 30%; Buffer 10%

Note on examples: months are assumed to have 30 days and years are assumed to have 365 days.

### Index Return is Negative

| Months elapsed since Index Strategy Start Date | 9 | 9 | 9 |
| Time Remaining in Index Strategy Term (in months) | 3 | 27 | 63 |
| Index Value on Calculation Date | 800 |
| Index Return on Calculation Date | -20% |
| Market Index Rate on Calculation Date | 3.00% | 6.00% | 9.00% |

| 1. Fair Value of Index Strategy Base | $48,496.25 | $46,847.82 | $45,813.71 |
| 2. Options value | $(7,401.54) | $(6,166.88) | $(5,753.38) |
| Sum of 1 + 2 | $41,094.71 | $40,680.95 | $40,060.33 |
| 3. Pro-rated portion of the Index Credit | $41,430.82 | $40,820.55 | $41,428.77 |
| **Index Strategy rate** | -16.30% | -17.53% | -18.77% |
| Interim Value for each Strategy (Minimum of 1+2 and 3) | $41,094.71 | $40,680.95 | $40,060.33 |
| **Total Account Value** | $121,835.99 |

The Pro-rated portion of the index credit is calculated by multiplying the Index Strategy Base by an Index Strategy Rate and taking that result multiplied by the portion of time the customer has been in an Index Strategy. The Index Strategy Rate may differ depending on the Index Strategy, which is further outlined in Appendix A.

PURCHASING YOUR ANNUITY

DESIGNATION OF OWNER, ANNUITANT, AND BENEFICIARY

Owner, Annuitant and Beneficiary Designations: We will ask you to name the Owner(s), Annuitant and one or more Beneficiaries for your Annuity.

- **Owner:** Each Owner holds all rights under the Annuity. You may name up to two Owners in which case all ownership rights are held jointly. Generally, joint Owners are required to act jointly; however, if both Owners instruct us in a written form that we find acceptable to allow one Owner to act independently on behalf of both Owners we will permit one Owner to do so. All information and documents that we are required to send you will be sent to the first named Owner. Co-ownership by entity Owners or an entity Owner and an individual is not permitted. Refer to the “Glossary of Terms” for a complete description of the term “Owner.” Prior to Annuitization, there is no right of survivorship (other than any spousal continuity right that may be available to a surviving spouse).

- **Annuitant:** The Annuitant is the person upon whose life we make annuity payments. You must name an Annuitant who is a natural person. In limited circumstances and where allowed by law, we may allow you to name one or more “Contingent Annuitants” with our prior approval. Generally, a Contingent or Joint Annuitant will become the Annuitant if the Annuitant dies before the Annuity Date. For a Beneficiary Annuity, instead of an Annuitant there is a “Key Life” which is used to determine the annual required distributions. If an Annuitant who is not an Owner predeceases any Owner who is a natural person, not an entity: (a) if a Joint Annuitant is designated and alive, the Joint Annuitant becomes the Annuitant; (b) if no Joint Annuitant is designated and alive, the designated Contingent Annuitant becomes the Annuitant; (c) If no Contingent Annuitant is designated or alive, the Owner becomes the Annuitant; or (d) If no Joint Annuitant or Contingent Annuitant is designated or alive and there are multiple Owners who are natural persons, the oldest of such Owners becomes the Annuitant.

- **Beneficiary:** The Beneficiary is the person(s) or entity you name to receive the Death Benefit. Your Beneficiary designation should be the exact name of your Beneficiary, not only a reference to the Beneficiary’s relationship to you. If you use a class designation in lieu of designating individuals (e.g. “surviving children”), we will pay the class of Beneficiaries as determined at the time of your death and not the class of Beneficiaries that existed at the time the designation was made. If the Beneficiary dies after the death of the decedent, but before the Death Benefit proceeds are paid, the Death Benefit proceeds will be payable to the Beneficiary’s estate upon our receipt of Due Proof of Death of the decedent. If no Beneficiary is alive when the Death Benefit proceeds are determined or there is no Beneficiary designation, the Death Benefit proceeds will be paid to you or your estate. For an Annuity that designates a custodian or a plan as Owner, the custodian or plan must also be designated as the Beneficiary. For Beneficiary Annuity, instead of a Beneficiary, the term “Successor” is used. If an Annuity is co-owned by spouses, we do not offer Joint Tenants with Rights of Survivorship (JTWROS). Both owners would need to be listed as the primary beneficiaries for the surviving spouse to maintain the contract, unless you elect an alternative Beneficiary designation.

Your right to make certain designations may be limited if your Annuity is to be used as an IRA, Beneficiary Annuity or other “qualified” investment that is given beneficial tax treatment under the Code. You should seek competent tax advice on the income, estate and gift tax implications of your designations.

**Age Restrictions:** Unless we agree otherwise and subject to our rules, in order to issue the annuity, we must receive the application, in Good Order, before the oldest of the Owner(s) and Annuitant(s) turns 86 years old. If you purchase a Beneficiary Annuity, the maximum issue age is 85 based on the Key Life. The broker-dealer firm through which you are purchasing an Annuity may impose a younger maximum issue age than what is described above – check with the broker-dealer firm for details. The “Annuitant” refers to the natural person upon whose life annuity payments payable to the Owner are based.

**REQUIREMENTS FOR PURCHASING THE ANNUITY**

We may apply certain limitations, restrictions, and/or underwriting standards as a condition of our issuance of an Annuity and/or acceptance of Purchase Payments. The current limitations, restrictions and standards are described below. We may change these limitations, restrictions and standards in the future.

**Initial Purchase Payment:** An Initial Purchase Payment is considered the first Purchase Payment received by us in Good Order and in an amount sufficient to issue your Annuity. This is the payment that issues your Annuity. All subsequent Purchase Payments allocated to the Annuity will be considered Additional Purchase Payments. Unless we agree otherwise and subject to our rules, the Annuity has a required minimum initial Purchase Payment of $25,000.

We must approve any initial and additional Purchase Payments where the total amount of Purchase Payments equals $1,000,000 or more with respect to the Annuity including any other Annuity you are purchasing from us (or that you already own) and/or our affiliates. To the extent allowed by state law, that required approval also will apply to a proposed change of owner of the Annuity, if as a result of the ownership change, total Purchase Payments with respect to the Annuity and all other Annuity owned by the new Owner would equal or exceed that $1,000,000 threshold. We may limit additional Purchase Payments under other circumstances, as explained in “Additional Purchase Payments,” below.

Applicable laws designed to counter terrorists and prevent money laundering might, in certain circumstances, require us to block an Owner’s ability to make certain transactions, and thereby refuse to accept Purchase Payments or requests for transfers, partial withdrawals, surrenders, total withdrawals, death benefits, or Annuity payments until instructions are received from the appropriate regulator. We also may be required to provide additional information about you and your Annuity to government regulators.
Except as noted below, Purchase Payments must be submitted by check drawn on a U.S. bank, in U.S. dollars, and made payable to PALAC. Purchase Payments may also be submitted via 1035 exchange or direct transfer of funds. Under certain circumstances, Purchase Payments may be transmitted to PALAC by wiring funds through your Financial Professional’s broker-dealer firm. Additional Purchase Payments may also be applied to your Annuity under an electronic funds transfer, an arrangement where you authorize us to deduct money directly from your bank account. We may reject any payment if it is received in an unacceptable form. Our acceptance of a check is subject to our ability to collect funds.

Once we accept your application, we allocate your Purchase Payment, upon receipt, in your Annuity according to your instructions. You can allocate Purchase Payments to one or more available Index Strategies and Variable Investment Subaccounts.

We are required to allocate your initial Purchase Payment within two (2) Valuation Days after we receive the Purchase Payment in Good Order at our Service Office. If we do not have all the required information to allow us to issue your Annuity, we may retain the Purchase Payment while we try to reach you or your representative to obtain all of our requirements. If we are unable to obtain all of our required information within five (5) Valuation Days, we are required to return the Purchase Payment to you at that time, unless you specifically consent to our retaining the Purchase Payment while we gather the required information. Once we obtain the required information, we will invest the Purchase Payment and issue an Annuity within two (2) Valuation Days.

With respect to your initial Purchase Payment that is pending investment in our Separate Accounts, we may hold the amount temporarily in a suspense account and we may earn interest on such amount. You will not be credited with interest during that period. The monies held in the suspense account may be subject to claims of our general creditors. Also, the Purchase Payment will not be reduced nor increased due to market fluctuations during that period.

As permitted by applicable law, the broker-dealer firm through which you purchase your Annuity may forward your initial Purchase Payment to us prior to approval of your purchase by a registered principal of the firm. Once your purchase is approved by the firm, we will process your initial Purchase Payment as described above. These arrangements are subject to a number of regulatory requirements, including that customer funds will be deposited in a segregated bank account and held by the insurer until such time that the insurer is notified of the firm’s principal approval and is provided with the application, or is notified of the firm principal’s rejection. In addition, the insurer must promptly return the customer’s funds at the customer’s request prior to the firm’s principal approval or upon the firm’s rejection of the application. The monies held in the bank account will be held in a suspense account within our general account and we may earn interest on amounts held in that suspense account. Owners will not be credited with any interest earned on amounts held in that suspense account. The monies in such suspense account may be subject to claims of our general creditors.

**Allocation of Purchase Payments**

**Initial Purchase Payment(s)**

Issuance of an Annuity represents our acceptance of an initial Purchase Payment. You may allocate your initial Purchase Payment(s) to any combination of Variable Investment Subaccounts and Index Strategies. Allocations must be made in whole percentages and must equal 100%.

You will choose on your application if you wish to start any Index Strategies immediately on the contract effective date or wait for a Holding Account Period, currently 30 days to allow for multiple transfers and 1035 exchange transactions. If you elect to wait the 30 days, the funds designated to Index Strategies will be allocated to the Holding Account and automatically transferred from the Holding Account to your chosen Index Strategies 30 days later. The index rates applicable upon that transfer equal the rates as of the Issue Date. The date money is first applied to an Index Strategy, whether that be at contract issue or 30 days later, will be known as the Index Effective Date. If there is no Account Value allocated to the Holding Account, no transfer to the Index Strategies and/or the Variable Subaccounts will occur.

If the Index Effective Date is not a Valuation Day, the initial index value for the Index Effective Date will be the following Valuation Day that the Index is calculated and published.

An Index Effective Date can be any calendar date except February 29th.

If you choose to only allocate your initial Purchase Payment to Variable Investment Subaccounts and not elect allocation to the Index Strategies (either at contract issue or 30 days after), you can transfer to the Index Strategies at a future date of your choosing, which would then establish the Index Effective Date and subsequent Index Anniversary Date.

**Subsequent Purchase Payment(s)**

Subsequent Purchase Payments received on an Index Anniversary Date may be used to start a new Index Strategy. Subsequent Purchase Payment(s) received between an Index Strategy Start Date and Index Strategy End Date will be allocated to the Variable Investment Subaccounts as instructed by the Owner. If you do not provide any instructions, the subsequent Purchase Payment(s) will be placed in the Holding Account. The Purchase Payment(s) may be transferred to an Index Strategy on the next Index Anniversary Date or may be transferred among the available Variable Investment Subaccounts at any time. See Reallocation/Transfer Guidelines in the “Managing Your Account Value” section below.

**Holding Account.** The Holding Account is the PSF Government Money Market Subaccount. The Holding Account will be used for additional Purchase Payments received between Index Anniversaries if you provided no other instructions for the Purchase Payment in any other available Variable Investment Subaccount. Since you may only allocate to the Index Strategies on Index Anniversaries, additional Purchase Payments will remain in the Holding Account (or Variable Investment Subaccount(s) of your choosing) until an Index Anniversary Date where they may be reallocated to the Index Strategies.
Rate Hold. Cap Rates, Participation Rates, and Step Rates will be held for 30 days from contract issue (or submission date for electronic applications). This rate hold only applies if you chose to wait the 30 days to allocate to the Index Strategies.

Additional Purchase Payments: The minimum amount allocable to any Index Strategy is $2,000, and the minimum amount allocable to any Variable Investment Subaccount is $20. Currently you may make additional Purchase Payments, provided that the payment is at least $100 ($50 minimum for electronic funds transfer ("EFT") purchases).

You may make additional Purchase Payments, at any time before the earlier of (i) the Annuitant's 86th birthday (the Annuitant's 86th birthday, if the Annuity is owned by an entity). We will allow Purchase Payments at least prior to the first anniversary of the Issue Date regardless of the oldest owner's age, unless otherwise required by applicable law or regulation to maintain the tax status of the Annuity. No additional Purchase Payments are allowed if the Annuity is held as a Beneficiary Annuity. We will apply any additional Purchase Payment as of the Valuation Day that we receive it at our Service Office in Good Order. If you have not provided allocation instructions with an additional Purchase Payment, we will allocate the Purchase Payment to the Holding Account. We may limit, restrict, suspend or reject any additional Purchase Payments.

We reserve the right to limit, suspend or reject any additional Purchase Payment at any time, but would do so only on a non-discriminatory basis.

When you purchase the Annuity and determine the amount of your initial Purchase Payment, you should consider the fact that we may suspend, reject or limit additional Purchase Payments at some point in the future. Depending on the tax status of your Annuity (e.g., if you own the Annuity through an IRA), there may be annual contribution limits dictated by applicable law. Please see “Tax Considerations” for additional information on these contribution limits.

Additional Purchase Payments may also be limited if the total Purchase Payments under the Annuity and other Annuity equals or exceeds $1,000,000.00, as described in more detail in the “Initial Purchase Payment” section above. Should you request a transaction that would leave less than the minimum Variable Subaccount amount or the minimum Index Strategy amount, we may, to the extent permitted by law, add the balance of your Account Value in the applicable Allocation Option to the transaction and close out your balance in the Allocation Option.

RIGHT TO CANCEL

You may cancel (or “Free Look”) your Annuity for a refund by notifying us in Good Order or by returning the Annuity to our Service Office or to the representative who sold it to you within 10 days after you receive it (or such other period as may be required by applicable law). The Annuity can be mailed or delivered either to us, at our Service Office, or to the representative who sold it to you. Return of the Annuity by mail is effective on being postmarked, properly addressed and postage prepaid. If the Annuity is a replacement contract, you may cancel your Annuity using the same method within thirty days beginning on the date the contract is received by the owner, or any longer period as may be required by applicable law in the state where the contract is delivered or issued for delivery.

Subject to applicable law, the amount of the refund will equal the Account Value as of the Valuation Day we receive the returned Annuity at our Service Office or the cancellation request in Good Order, plus any fees or Tax Charges deducted from the Purchase Payment upon allocation to the Annuity or imposed under the Annuity, less any applicable federal and state income tax withholding. However, where we are required by applicable law to return Purchase Payments, we will return the greater of Account Value and Purchase Payments.

SCHEDULED PAYMENTS DIRECTLY FROM A BANK ACCOUNT

You can make additional Purchase Payments to your Annuity by authorizing us to deduct money directly from your bank account and applying it to your Annuity, unless the Annuity is held as a Beneficiary Annuity. No additional Purchase Payments are permitted if you have elected the Beneficiary Annuity. We may suspend or cancel electronic fund transfer privileges if sufficient funds are not available from the applicable financial institution on any date that a transaction is scheduled to occur. We may also suspend or cancel electronic fund transfer privileges if we have limited, restricted, suspended or terminated the ability of Owners to submit additional Purchase Payments.

Scheduled Transactions: Scheduled transactions include Systematic Withdrawals, Required Minimum Distributions, substantially equal periodic payments under Section 72(t)/72(q) of the Code, annuity payments and fees that are assessed daily as a percentage of the net assets of the Variable Investment Subaccounts. Scheduled transactions are processed and valued as of the date they are scheduled, unless the scheduled day is not a Valuation Day. In that case, the transaction will be processed and valued on the next Valuation Day, unless (with respect to Required Minimum Distributions, substantially equal periodic payments under Section 72(t)/72(q) of the Code, annuity payments and fees that are assessed daily as a percentage of the net assets of the Variable Investment Subaccounts only), the next Valuation Day falls in the subsequent calendar year, in which case the transaction will be processed and valued on the prior Valuation Day.

Unscheduled Transactions: "Unscheduled" transactions include any other non-scheduled transfers and requests for partial withdrawals or Free Withdrawals or Surrenders. With respect to certain written requests to withdraw Account Value, we may seek to verify the requesting Owner’s signature. Specifically, we reserve the right to perform a signature verification for (a) any withdrawal exceeding a certain dollar amount and (b) a withdrawal exceeding a certain dollar amount if the payee is someone other than the Owner. In addition, we will not honor a withdrawal request in which the requested payee is the Financial Professional or agent of record. We reserve the right to request a signature guarantee with respect to a written withdrawal request. If we do perform a signature verification, we will pay the withdrawal proceeds within 7 days after the withdrawal request was received by us in Good Order, and will process the transaction in accordance with the discussion in “Processing and Valuing Transactions”
**“Beneficiary” Annuity**

You may purchase an Annuity if you are a Beneficiary of an account that was owned by a decedent, subject to the following requirements. You may transfer the proceeds of the decedent’s account into the Annuity described in this prospectus and receive distributions that are required by the tax laws. Upon purchase, the Annuity will be issued in the name of the decedent for your benefit. You must take required distributions at least annually, which we will calculate based on the applicable life expectancy in the year of the decedent’s death, using Table 1 in IRS Publication 590-B. We do not assess a CDSC (if applicable) on distributions from your Annuity if you are required by law to take such distributions from your Annuity at the time it is taken, provided the amount withdrawn is the amount we calculate and is paid out through a program of systematic withdrawals that we make available.

For IRAs and Roth IRAs, distributions must begin by December 31st of the year following the year of the decedent’s death. If you are the surviving spouse Beneficiary, distributions may be deferred until the decedent would have attained age 701/2 (or age 72, for distributions required to be made after December 31, 2019, with respect to individuals who attain 701/2 after such date). However, if you choose to defer distributions, you are responsible for complying with the distribution requirements under the Code, and you must notify us when you would like distributions to begin. For additional information regarding the tax considerations applicable to Beneficiaries of an IRA or Roth IRA, see “Required Distributions Upon Your Death for Qualified Annuity Contracts” in “Tax Considerations”.

For nonqualified Annuities, distributions must begin within one year of the decedent’s death. For additional information regarding the tax considerations applicable to Beneficiaries of a nonqualified Annuity see “Required Distributions Upon Your Death for Nonqualified Annuity Contracts” in “Tax Considerations”.

You may take withdrawals in excess of your required distributions; however such withdrawals may be subject to the Contingent Deferred Sales Charge. Any withdrawals you take count toward the required distribution for the year. All applicable charges will be assessed against your Annuity, such as the Total Insurance Charge.

The Annuity provides a Death Benefit upon death, and you may name “successors” who may receive the Death Benefit as a lump sum. Please note the following additional limitations for a Beneficiary Annuity:

- No additional Purchase Payments are permitted. You may only make a one-time initial Purchase Payment transferred to us directly from another annuity or eligible account. You may not make your Purchase Payment as an indirect rollover or combine multiple assets or death benefits into a single contract as part of this Beneficiary Annuity.

- You may not annuitize the Annuity; no annuity options are available.

- You may participate only in the following programs: Systematic Withdrawals.

- You may not assign or change ownership of the Annuity, and you may not change or designate another life upon which distributions are based. A Beneficiary Annuity may not be co-owned.

- If the Annuity is funded by means of transfer from another Beneficiary Annuity with another company, we require that the sending company or the beneficial Owner provide certain information in order to ensure that applicable required distributions have been made prior to the transfer of the contract proceeds to us. We further require appropriate information to enable us to accurately determine future distributions from the Annuity. Please note we are unable to accept a transfer of another Beneficiary Annuity where taxes are calculated based on an exclusion amount or an exclusion ratio of earnings to original investment. We are also unable to accept a transfer of an annuity that has annuitized.

- The beneficial Owner of the Annuity can be an individual, grantor trust, or, for an IRA or Roth IRA, an estate or a qualified trust. In general, a qualified trust (1) must be valid under state law; (2) must be irrevocable or became irrevocable by its terms upon the death of the IRA or Roth IRA Owner; and (3) the Beneficiaries of the trust who are Beneficiaries with respect to the trust’s interest in the Annuity must be identifiable from the trust instrument and must be individuals. A qualified trust may be required to provide us with a list of all Beneficiaries to the trust (including contingent and remainder Beneficiaries with a description of the conditions on their entitlement), all of whom must be individuals, as of September 30th of the year following the year of death of the IRA or Roth IRA Owner; or date of Annuity application if later. The trustee may also be required to provide a copy of the trust document upon request. If the beneficial Owner of the Annuity is a grantor trust, distributions must be based on the life expectancy of the grantor who is named as the Annuitant. If the beneficial Owner of the Annuity is a qualified trust, distributions must be based on the life expectancy of the oldest Beneficiary under the trust.

- If this Beneficiary Annuity is transferred to another company as a tax-free exchange with the intention of qualifying as a Beneficiary annuity with the receiving company, we may require certifications from the receiving company that required distributions will be made as required by law.

- If you are transferring proceeds as Beneficiary of an annuity that is owned by a decedent, we must receive your transfer request at least 45 days prior to your first or next required distribution. If, for any reason, your transfer request impedes our ability to complete your required distribution by the required date, we will be unable to accept your transfer request.

**Speculative Investing:** Do not purchase the Annuity if you, anyone acting on your behalf, and/or anyone providing advice to you plan to use it for speculation, arbitrage, vication or any other type of collective investment scheme now or at any time prior to termination of the Annuity. Your Annuity may not be traded on any stock exchange or secondary market. By purchasing the Annuity, you represent and warrant that you are not using the Annuity, or any of its riders, for speculation, arbitrage, vication or any other type of collective investment scheme.
Currently, we will not issue an Annuity, permit changes in ownership or allow assignments to certain ownership types, including but not limited to: corporations, partnerships and endowments. Further, we will only issue an Annuity, allow changes of ownership and/or permit assignments to certain ownership types if the Annuity is held exclusively for the benefit of the designated Annuitant. You may name as Owner of the Annuity a grantor trust with one grantor only if the grantor is designated as the Annuitant. You may name as Owner of the Annuity, subject to state availability, a grantor trust with two grantors only if the oldest grantor is designated as the Annuitant. We will not issue Annuity to grantor trusts with more than two grantors.
MANAGING YOUR ANNUITY

CHANGE OF OWNER, ANNUITANT AND BENEFICIARY DESIGNATIONS

In general, you may change the Owner, Annuitant and Beneficiary designations by sending us a request in Good Order which will be effective upon receipt at our Service Office. However, if the Annuity is held as a Beneficiary Annuity, the Owner may not be changed and you may not designate another Key Life upon which distributions are based.

As of the Valuation Day we receive an ownership change, including an assignment, any systematic investment or withdrawal programs will be canceled. The new Owner must submit the applicable program enrollment if they wish to participate in such a program. Where allowed by law, such changes will be subject to our acceptance. Any change we accept is subject to any transactions processed by us before we receive the notice of change at our Service Office. Some of the changes we will not accept include, but are not limited to:

- a new Owner subsequent to the death of the Owner or the first of any co-Owners to die, except where a spouse-Beneficiary has become the Owner as a result of an Owner’s death;
- a new Annuitant subsequent to the Annuity Date if the annuity option includes a life contingency;
- a new Annuitant prior to the Annuity Date if the Owner is an entity;
- a new Owner such that the new Owner is older than the age for which we would then issue the Annuity as of the effective date of such change, unless the change of Owner is the result of Spousal Continuation;
- any permissible designation change if the change request is received at our Service Office after the Annuity Date;
- a new Owner or Annuitant that is a certain ownership type, including but not limited to corporations, partnerships, endowments, or grantor trusts with more than two grantors; and
- a new Annuitant for an Annuity issued to a grantor trust where the new Annuitant is not the oldest grantor of the trust.

If there is a change of Owner or Annuitant, the Latest Annuity Date will be based on the age of the oldest Owner or Annuitant once the change is made. The Annuity Date must: (a) be on or after the Earliest Annuity Date and on or before the new Latest Annuity Date; and (b) must be consistent with applicable laws and regulations at the time.

Unless designated as "irrevocable", you may instruct us to change the Beneficiary. An irrevocable Beneficiary is one whose written consent is needed before you can change the Beneficiary or exercise certain other rights.

In general, you may change the Owner, Annuitant and Beneficiary designations as indicated above, and also may assign the Annuity. We will allow changes of ownership and/or assignments only if the Annuity is held exclusively for the benefit of the Annuitant, Joint Annuitant or Contingent Annuitant. We accept assignments of nonqualified Annuities only.

An Owner may seek to transfer ownership of the Annuity, subject to the interest of any assignee or beneficiary of record. We assume no responsibility for the validity or tax consequences of any change of ownership.

We reserve the right to reject any proposed change of Owner, Annuitant, or Beneficiary, as well as any proposed assignment of the Annuity. We will reject a proposed change where the proposed Owner, Annuitant, Beneficiary or assignee is any of the following:

- a company(ies) that issues or manages viatical or structured settlements;
- an institutional investment company;
- an Owner with no insurable relationship to the Annuitant, Joint Annuitant, or Contingent Annuitant (a “ Stranger-Owned Annuity” or “STOA”); or
- a change in designation(s) that does not comply with or that we cannot administer in compliance with Federal and/or state law.

We will implement this right on a non-discriminatory basis and to the extent allowed by state law but are not obligated to process your request within any particular timeframe.

Death Benefit Upon Change of Owner or Annuitant. If there is a change of Owner or Annuitant, the Return of Purchase Payments Death Benefit will no longer apply to the new Owner or Annuitant and the amount of the Death Benefit will be equal to the Account Value on the date we receive Due Proof of Death unless otherwise specified in the “Death Benefits” section of the prospectus.

Spousal Designations

If an Annuity is co-owned by spouses, we do not offer Joint Tenants with Rights of Survivorship (JTWROS). Both owners would need to be listed as the primary beneficiaries for the surviving spouse to maintain the contract, unless you elect an alternative Beneficiary designation. Note that any division of your Annuity due to divorce will be treated as a withdrawal and CDSC may apply. If CDSC is applicable, it cannot be divided between the Owner and the non-Owner ex-spouse. The non-Owner ex-spouse may decide whether he or she would like to use the withdrawn funds to purchase...
a new Annuity that is then available to new Owners. Please consult with your tax adviser regarding your personal situation if you will be transferring or dividing your Annuity pursuant to a divorce.

Prior to a 2013 Supreme Court decision, and consistent with Section 3 of the federal Defense of Marriage Act ("DOMA"), same sex marriages under state law were not recognized as same sex marriages for purposes of federal law. However, in United States v. Windsor, the U.S. Supreme Court struck down Section 3 of DOMA as unconstitutional, thereby recognizing a valid same sex marriage for federal law purposes. On June 26, 2015, the Supreme Court ruled in Obergefell v. Hodges that same-sex couples have a constitutional right to marry, thus requiring all states to allow same-sex marriage. The Windsor and Obergefell decisions mean that the federal and state tax law provisions applicable to an opposite sex spouse will also apply to a same sex spouse. Please note that a civil union or registered domestic partnership is generally not recognized as a marriage.

Contingent Annuitant

Where the Annuity is held by a Custodial Account, an account established to hold retirement assets for the benefit of the natural person Annuitant pursuant to the provisions of Section 408(a) of the Code (or any successor Code section thereto) ("Custodial Account") the Contingent Annuitant will not automatically become the Annuitant upon the death of the Annuitant. Upon the death of the Annuitant, the Death Benefit will be payable. If the Contingent Annuitant is the spouse, then the spouse may elect to receive the Death Benefit or continue the Annuity. If the Contingent Annuitant spouse elects to continue the Annuity, the Death Benefit payable will equal the Death Benefit described in the Spousal Continuation section of the Death Benefits section of this prospectus. See "Spousal Continuation of Annuity" in "Death Benefits" for more information about how the Annuity can be continued by a Custodial Account, including the amount of the Death Benefit.

Joint Annuitant

Generally, if a Nonqualified Annuity is owned by an entity and the entity has named a Joint Annuitant, the Death Benefit will payable upon the death of the first Annuitant. Unless we agree otherwise, the Annuity is only eligible to have a Joint Annuitant designation if the entity which owns the Annuity is (1) a plan described in Code Section 72(s)(5)(A)(I) (or any successor Code section thereto); or (2) an entity described in Code Section 72(u)(1) (or any successor Code Section thereto).
MANAGING YOUR ACCOUNT VALUE

REALLOCATIONS/TRANSFER GUIDELINES

You may transfer Account Value between Variable Investment Subaccounts at any time, subject to the restrictions outlined below. On each Index Anniversary Date, you may reallocate Account Value allocated to Variable Investment Subaccounts and any Index Strategy(ies) that has reached an Index Strategy End Date into any available Index Strategy.

You will receive a Reallocation Notice 30 days prior to your Index Anniversary Date. You must provide instructions for reallocation (by any method allowable) at least 2 days prior to the Index Anniversary Date. The reallocation will be processed on the Index Anniversary Date. You will be able to make reallocation selections via mail, phone, or through online access.

You may not reallocate to an Index Strategy where the Index Strategy End Date is after your Maximum Annuity Date. If there is less than one year until the Maximum Annuity Date, reallocations can only be made to the Variable Investment Subaccounts. If you have not provided instructions for any Account Value in an Index Strategy that would extend beyond the Maximum Annuity Date, we will transfer that Account Value to the Holding Account using the Interim Value, if applicable.

The minimum required amount allocated to any Index Strategy is $2,000. The minimum required amount allocated to any Variable Investment Subaccount is $20.

You may transfer out of an Index Strategy before the Index Strategy End Date, but you will do so at the Interim Value of the Index Strategy. See “Interim Value” for more information. The funds transferred from an Index Strategy before the Index Strategy End Date may only be transferred to Variable Investment Subaccounts or the Holding Account. If you wish to transfer to another Index Strategy, after transferring to the Variable Investment Subaccounts or the Holding Account, you must wait until the next Index Anniversary Date.

The Interim Value rules do not apply in the following situations:

<table>
<thead>
<tr>
<th>From Account</th>
<th>To Account</th>
<th>Any Time</th>
<th>Index Strategy End Date Only</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

Default Reallocations/Transfers

If you do not respond to the Reallocation Notice, any Index Strategy that has reached an Index Strategy End Date will automatically renew into the same Index Strategy. If the same Index Strategy is no longer available, the funds associated with the closed Index Strategy will be transferred to the Holding Account, where they may be allocated among the Variable Investment Subaccounts or into another Index Strategy on the next Index Anniversary Date.

We reserve the right to stop offering any Index Strategy at any time.

Restrictions on Transfers between Variable Investment Subaccounts

You may transfer Account Value between Variable Investment Subaccounts subject to the restrictions outlined below. Transfers are not subject to taxation on any gain.

Frequent transfers among Variable Subaccounts in response to short-term fluctuations in markets, sometimes called “market timing,” can make it very difficult for a portfolio manager to manage a portfolio’s investments. Frequent transfers may cause the portfolio to hold more cash than otherwise necessary, disrupt management strategies, increase transaction costs, or affect performance. In light of the risks posed to Owners and other investors by frequent transfers, we reserve the right to limit the number of transfers in any Annuity Year for all existing or new Owners and to take the other actions discussed below. We also reserve the right to limit the number of transfers in any Annuity Year or to refuse any transfer request for an Owner or certain Owners if: (a) we believe that excessive transfer activity (as we define it) or a specific transfer request or group of transfer requests may have a detrimental effect on Unit Values or the share prices of the Portfolios; or (b) we are informed by a Portfolio (e.g., by the Portfolio’s Portfolio manager) that the purchase or redemption of shares in the Portfolio must be restricted because the Portfolio believes the transfer activity to which such purchase and redemption relates would have a detrimental effect on the share prices of the affected Portfolio. Without limiting the above, the most likely scenario where either of the above could occur would be if the aggregate amount of a trade or trades represented a relatively large proportion of the total assets of a particular Portfolio. In furtherance of our general authority to restrict transfers as described above, and without limiting other actions we may take in the future, we have adopted the following specific restrictions:

- With respect to each Subaccount (other than the Holding Account), we track amounts exceeding a certain dollar threshold that were transferred into the Sub-account. If you transfer such amount into a particular Subaccount, and within 30 calendar days thereafter transfer (the “Transfer
require that your Financial Professional transmit all financial transactions using the electronic trading functionality available through our Internet Subaccounts that are discussed in the section below titled “Restrictions on Financial Professional, as applicable, with respect to your Portfolio.

- We reserve the right to effect transfers on a delayed basis for all Annuities in accordance with our rules regarding frequent transfers. That is, we may price a transfer involving the Subaccounts on the Valuation Day subsequent to the Valuation Day on which the transfer request was received. Before implementing such a practice, we would issue a separate written notice to Owners that explains the practice in detail.

If we deny one or more transfer requests under the foregoing rules, we will inform you or your Financial Professional promptly of the circumstances concerning the denial.

There are owners of different annuity contracts that are funded through the same Separate Account that may not be subject to the above-referenced transfer restrictions and, therefore, might make more numerous and frequent transfers than Annuity Owners who are subject to such limitations. Finally, there are owners of other variable annuity contracts or variable life contracts that are issued by PALAC as well as other insurance companies that have the same underlying mutual fund Portfolios available to them. Since some Owners are not subject to the same transfer restrictions, unfavorable consequences associated with such frequent trading within the underlying Portfolios (e.g., greater portfolio turnover, higher transaction costs, or performance or tax issues) may affect all Owners. Similarly, while contracts managed by a Financial Professional are subject to the restrictions on transfers between Variable Investment Subaccounts that are discussed above, if the Financial Professional manages a number of contracts in the same fashion unfavorable consequences may be associated with management activity since it may involve the movement of a substantial portion of an underlying mutual fund’s assets which may affect all Owners invested in the affected options. Apart from jurisdiction-specific and contract differences in transfer restrictions, we will apply these rules uniformly (including contracts managed by a Financial Professional) and will not waive a transfer restriction for any Owner.

Although our transfer restrictions are designed to prevent excessive transfers, they are not capable of preventing every potential occurrence of excessive transfer activity. The Portfolios have adopted their own policies and procedures with respect to excessive trading of their respective shares, and we reserve the right to enforce any such current or future policies and procedures. The prospectuses for the Portfolios describe any such policies and procedures, which may be more or less restrictive than the policies and procedures we have adopted. Under SEC rules, we are required to: (1) enter into a written agreement with each Portfolio or its principal underwriter or its transfer agent that obligates us to provide to the Portfolio promptly upon request certain information about the trading activity of individual Owners (including an Owner’s TIN number), and (2) execute instructions from the Portfolio to restrict or prohibit further purchases or transfers by specific Owners who violate the excessive trading policies established by the Portfolio. In addition, you should be aware that some Portfolios may receive “omnibus” purchase and redemption orders from other insurance companies or intermediaries such as retirement plans. The omnibus orders reflect the aggregation and netting of multiple orders from individual owners of variable insurance contracts and/or individual retirement plan participants. The omnibus nature of these orders may limit the Portfolios in their ability to apply their excessive trading policies and procedures. In addition, the other insurance companies and/or retirement plans may have different policies and procedures or may not have any such policies and procedures because of contractual limitations. For these reasons, we cannot guarantee that the Portfolios (and thus Annuity Owners) will not be harmed by transfer activity relating to other insurance companies and/or retirement plans that may invest in the Portfolios.

A Portfolio also may assess a short-term trading fee (also referred to as “redemption fee”) in connection with a transfer out of the Subaccount investing in that Portfolio that occurs within a certain number of days following the date of allocation to the Subaccount. Each Portfolio determines the amount of the short-term trading fee and when the fee is imposed. The fee is retained by or paid to the Portfolio and is not retained by us. The fee will be deducted from your Account Value, to the extent allowed by law. At present, no Portfolio has adopted a short-term trading fee.

FINANCIAL PROFESSIONAL PERMISSION TO FORWARD TRANSACTION INSTRUCTIONS

If you have provided the necessary authorization on the application for your Annuity, the individual who signed the application for your Annuity may forward instructions regarding the allocation of your Account Value, and request financial transactions involving Variable Investment Subaccounts and Index Strategies. We refer to this person as your Financial Professional. We will follow all instructions received from authorized persons in the order in which we receive them. If your Financial Professional has this authority, we deem that all such transactions that are directed by your Financial Professional, as applicable, with respect to your Annuity have been authorized by you. You will receive a confirmation of any financial transaction involving your Annuity. You must contact us immediately if and when you revoke such authority. We will not be responsible for acting on instructions from your Financial Professional until we receive notification of the revocation of such person’s authority. We may also suspend, cancel or limit these authorizations at any time. In addition, we may restrict the Variable Investment Subaccounts and Index Strategies available for transfers or allocation of Purchase Payments by such Financial Professional. We will notify you and your Financial Professional if we implement any such restrictions or prohibitions.

Please Note: Contracts managed by your Financial Professional also are subject to the restrictions on transfers between Variable Investment Subaccounts that are discussed in the section below titled “Restrictions on Transfers Between Variable Investment Subaccounts.” We may also require that your Financial Professional transmit all financial transactions using the electronic trading functionality available through our Internet website (www.prudential.com). Limitations that we may impose on your Financial Professional under the terms of an administrative agreement (e.g.,
a custodial agreement) do not apply to financial transactions requested by an Owner on his or her own behalf, except as otherwise described in this prospectus.
**ACCESS TO ACCOUNT VALUE**

**TYPES OF DISTRIBUTIONS AVAILABLE TO YOU**

During the Accumulation Period you can access your Account Value through partial withdrawals, systematic withdrawals, and where required for tax purposes, Required Minimum Distributions. You can also surrender your Annuity at any time. Depending on your instructions, we may deduct a portion of the Account Value being withdrawn or surrendered as a CDSC. If you surrender your Annuity, in addition to any CDSC, we may deduct any Tax Charge that applies. **If a withdrawal is taken from an Index Strategy before the Index Strategy End Date, the withdrawal will be based on the Interim Value. See “Interim Value” for more information.** Certain amounts may be available to you each Annuity Year that are not subject to a CDSC. These are called “Free Withdrawals.” Unless you notify us differently as permitted, partial withdrawals will be deducted first from any Variable Investment Subaccounts on a pro-rata basis. Only when the Variable Investment Subaccounts have been depleted will any remaining withdrawal amount be deducted from the Index Strategies, also on a pro-rata basis. The Owner can also request self-directed withdrawals from Variable Investment Subaccounts and Index Strategies of their choosing. Each of these types of distributions is described more fully below.

**PARTIAL WITHDRAWALS AND INTERIM VALUE OF INDEX STRATEGIES**

Any time a partial withdrawal occurs between Index Strategy Start and End Dates, the Index Strategy Base will be reduced in the same proportion that the total withdrawal reduced the Interim Value. A proportional reduction in your Index Strategy Base could be larger than the dollar amount of the withdrawal when the Index Strategy Base is greater than the Interim Value. Here are examples where the Index Strategy Base is less than the Interim Value and then exceeds the Interim Value:

**Example 1:**

Index Strategy Start Date: 9/1/2019
Index Strategy Base: $50,000

Withdrawal Date: 3/1/2020
Interim Value: $70,000
Withdrawal: $50,000 gross

Withdrawal divided by Interim Value: $50,000 / $70,000 = 71.429%
Index Strategy Base Adjustment Amount: $50,000 x 71.429% = $35,714.29
Index Strategy Base after Withdrawal: $50,000 - $35,714.29 = $14,285.71

**Example 2:**

Index Strategy Base: $14,285.71

Withdrawal Date: 5/1/2020
Interim Value: $14,000
Withdrawal: $14,000 gross

Withdrawal divided by Interim Value: $14,000 / $14,000 = 100%
Index Strategy Base Adjustment Amount: $14,285.71 x 100% = $14,285.71
Index Strategy Base after Withdrawal: $0

**TAX IMPLICATIONS FOR DISTRIBUTIONS FROM NONQUALIFIED ANNUITY**

**Prior to Annuitization**

For federal income tax purposes, a distribution prior to Annuitization is deemed to come first from any “gain” in your Annuity and second as a return of your “cost basis”, if any. Distributions from your Annuity are generally subject to ordinary income taxation on the amount of any investment gain unless the distribution qualifies as a non-taxable exchange or transfer. If you take a distribution prior to the taxpayer’s age 59½, you may be subject to a 10% penalty in addition to ordinary income taxes on any gain. You may wish to consult a professional tax adviser for advice before requesting a distribution.

**During the Annuitization Period**

During the Annuitization period, a portion of each annuity payment is taxed as ordinary income at the tax rate you are subject to at the time of the payment. The Code and regulations have “exclusionary rules” that we use to determine what portion of each annuity payment should be treated as a return of any cost basis you have in your Annuity. Once the cost basis in your Annuity has been distributed, the remaining annuity payments are taxable as ordinary income. The cost basis in your Annuity may be based on the cost basis from a prior contract in the case of a Section 1035 exchange or other qualifying transfer.

There may also be tax implications on distributions from qualified Annuities. See “Tax Considerations” for information about qualified Annuities and for additional information about nonqualified Annuities.

**FREE WITHDRAWAL AMOUNTS**
The Free Withdrawal amount is the amount that can be withdrawn from your Annuity each Annuity Year without the application of any CDSC. The Free Withdrawal amount during each Annuity Year is equal to 10% of all Purchase Payments that are currently subject to a CDSC. Withdrawals made within an Annuity Year reduce the Free Withdrawal amount available for the remainder of the Annuity Year. If you do not make a Free Withdrawal during an Annuity Year, you are not allowed to carry over the Free Withdrawal amount to the next Annuity Year.

- The Free Withdrawal amount is not available if you choose to surrender your Annuity. Amounts withdrawn as a Free Withdrawal do not reduce the amount of CDSC that may apply upon a subsequent withdrawal or surrender of your Annuity.
- You can also make partial withdrawals in excess of the Free Withdrawal amount. The minimum partial withdrawal you may request is $100.

**Example.** This example assumes that no withdrawals have previously been taken.

On January 3rd, to purchase your Annuity, you make an initial Purchase Payment of $25,000.

On January 3rd of the following calendar year, you make a subsequent Purchase Payment to your Annuity of $10,000.

- Because in Annuity Year 1 your initial Purchase Payment of $25,000 is still within the CDSC schedule (see “Annuity Owner Transaction Expenses”), your Free Withdrawal amount in Annuity Year 1 equals $25,000 × 0.10, or $2,500.
- Because in Annuity Year 2 both your initial Purchase Payment of $25,000 and your subsequent Purchase Payment of $10,000 are still within the CDSC schedule (see “Annuity Owner Transaction Expenses”), your Free Withdrawal amount in Annuity Year 2 equals $25,000 × 0.10, plus $10,000 × 0.10, or $2,500 + $1,000 for a total of $3,500.

To determine if a CDSC applies to partial withdrawals, we first determine if you have previously withdrawn all Purchase Payments. If so, no CDSC applies. If you have not previously withdrawn all Purchase Payments, we:

1. First determine what, if any, amounts qualify as a Free Withdrawal. These amounts are not subject to the CDSC.
2. Next determine what, if any, remaining amounts are in excess of the Free Withdrawal amount. These amounts will be treated as withdrawals of Purchase Payments, as described in “Fees, Charges and Deductions – Contingent Deferred Sales Charge (“CDSC”)” earlier in this prospectus. These amounts may be subject to the CDSC. Purchase Payments are withdrawn on a first-in, first-out basis.
3. Withdraw any remaining amounts from other Surender Value.

Your withdrawal will include the amount of any applicable CDSC. You can request a partial withdrawal as either a “gross” or “net” withdrawal. In a “gross” withdrawal, you request a specific withdrawal amount, with the understanding that the amount you actually receive is reduced by any applicable CDSC or tax withholding. Therefore, you may receive less than the dollar amount you specify. In a “net” withdrawal, you request a withdrawal for an exact dollar amount, with the understanding that any applicable deduction for CDSC or tax withholding is taken from your remaining Account Value. Therefore, a larger amount may be deducted from your Account Value than the amount you specify. If you do not provide instruction on how you want the withdrawal processed, we will process the withdrawal as a gross withdrawal. We will deduct the partial withdrawal from your Account Value in accordance with your instructions.

**SYSTEMATIC WITHDRAWALS DURING THE ACCUMULATION PERIOD**

Our systematic withdrawal program is an administrative program designed for you to withdraw a specified amount from your Annuity on an automated basis at the frequency you select. This program is available to you at no additional charge. We may cease offering this program or change the administrative rules related to the program at any time on a non-discriminatory basis.

You may not have a systematic withdrawal program, as described in this section, if you are receiving substantially equal periodic payments under Sections 72(t) and 72(q) of the Code or Required Minimum Distributions.

You may terminate your systematic withdrawal program at any time. Ownership changes to, and assignment of, your Annuity will terminate any systematic withdrawal program on the Annuity as of the effective date of the change or assignment. Requesting partial withdrawals while you have a systematic withdrawal program may also terminate your systematic withdrawal program as described below.

Systematic withdrawals can be made from your Account Value allocated to the Variable Investment Subaccounts or Index Strategies. Please note that systematic withdrawals may be subject to any applicable CDSC. We will determine whether a CDSC applies and the amount in the same way as we would for a partial withdrawal. In addition, systematic withdrawals taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. Please see “Interim Value” for more information. Any time a systematic withdrawal occurs before the Index Strategy End Date, the Index Strategy Base will also be reduced in the same proportion that the total withdrawal reduced the Interim Value.

The minimum amount for each systematic withdrawal is $100. If any scheduled systematic withdrawal is for less than $100 (which may occur under a program that provides payment of an amount equal to the earnings in your Annuity for the period requested), we may postpone the withdrawal and add the expected amount to the amount that is to be withdrawn on the next scheduled systematic withdrawal.

In the absence of instructions, systematic withdrawals will be taken on a pro-rata basis from all Variable Investment Subaccounts until the Variable Investment Subaccounts have been depleted, and then they will be taken pro-rata from all the Index Strategies.
SYSTEMATIC WITHDRAWALS UNDER SECTIONS 72(t)/72(q) OF THE INTERNAL REVENUE CODE

If your Annuity is used as a funding vehicle for certain retirement plans that receive special tax treatment under Sections 401, 403(b), 408 or 408A of the Code, Section 72(t) of the Code may provide an exception to the 10% penalty tax on distributions made prior to age 59½ if you elect to receive distributions as a series of “substantially equal periodic payments.” For Annuities issued as nonqualified Annuities, the Code may provide a similar exemption from penalty under Section 72(q) of the Code. Systematic withdrawals under Sections 72(t)/72(q) may be subject to a CDSC. In addition, systematic withdrawals under Sections 72(t)/72(q) taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. Please see “Interim Value” for more information. Any time a systematic withdrawal occurs before the Index Strategy End Date, the Index Strategy Base will also be reduced in the same proportion that the total withdrawal reduced the Interim Value. To request a program that complies with Sections 72(t)/72(q), you must provide us with certain required information in writing on a form acceptable to us. We may require advance notice to allow us to calculate the amount of 72(t)/72(q) withdrawals. There is no minimum Surrender Value we require to allow you to begin a program for withdrawals under Sections 72(t)/72(q). The minimum amount for any such withdrawal is $100 and payments may be made monthly, quarterly, semi-annually or annually.

You may also annuitize your Annuity and begin receiving payments for the remainder of your life (or life expectancy) as a means of receiving income payments before age 59½ that are not subject to the 10% penalty.

Please note that if a withdrawal under Sections 72(t) or 72(q) is scheduled to be effected between the last Valuation Day prior to December 25th and December 31st of a given year, then we will implement the withdrawal on the last Valuation Day prior to December 25th of that year.

REQUIRED MINIMUM DISTRIBUTIONS

Required Minimum Distributions are a type of systematic withdrawal we allow to meet distribution requirements under Sections 401, 403(b) or 408 of the Code. Required Minimum Distribution rules do not apply to Roth IRAs during the Owner’s lifetime. Under the Code, you may be required to begin receiving periodic amounts from your Annuity. In such case, we will allow you to make systematic withdrawals in amounts that satisfy the minimum distribution rules under the Code. We do not assess a CDSC (if applicable) on Required Minimum Distributions from your Annuity if you are required by law to take such Required Minimum Distributions from your Annuity at the time it is taken, provided the amount withdrawn is the amount we calculate as the Required Minimum Distribution and is paid out through a program of systematic withdrawals that we make available. However, a CDSC (if applicable) may be assessed on that portion of a systematic withdrawal that is taken to satisfy the Required Minimum Distribution rules in relation to other savings or investment plans under other qualified retirement plans. In addition, Required Minimum Distribution withdrawals taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. Please see “Interim Value” for more information. Any time a Required Minimum Distribution withdrawal occurs before the Index Strategy End Date, the Index Strategy Base will also be reduced in the same proportion that the total withdrawal reduced the Interim Value.

The amount of the Required Minimum Distribution for your particular situation may depend on other Annuity, savings or investments. We will only calculate the amount of your Required Minimum Distribution based on the value of your Annuity. We require three (3) days advance written notice to calculate and process the amount of your payments. You may elect to have Required Minimum Distributions paid out monthly, quarterly, semi-annually or annually. The $100 minimum amount that applies to systematic withdrawals applies to monthly Required Minimum Distributions but does not apply to Required Minimum Distributions taken out on a quarterly, semi-annual or annual basis.

If you choose to take your Required Minimum Distribution from this Annuity, unless we receive other instructions from you, we will take each Required Minimum Distribution first pro-rata from the Variable Investment Sub-Accounts in which your Account Value is allocated. Once the Account Value in all Variable Investment Sub-Accounts has been depleted, we will deduct any remaining Required Minimum Distribution pro-rata from the Index Strategy in which you have Account Value allocated. If the amount of the Required Minimum Distribution reduces your Account Value below $2,000, we may treat the distribution as a full Surrender of the Annuity. After the Annuity Date, we will view the annuity payments as your Required Minimum Distributions with respect to the Annuity.

You may also annuitize your Annuity and begin receiving payments for the remainder of your life (or life expectancy) as a means of receiving income payments and satisfying the Required Minimum Distribution rules under the Code.

In any year in which the requirement to take Required Minimum Distributions is suspended by law, we reserve the right, in our sole discretion and regardless of any position taken on this issue in a prior year, to treat any amount that would have been considered as a Required Minimum Distribution if not for the suspension as eligible for treatment as described herein.

Please note that if a Required Minimum Distribution is scheduled to be effected between the last Valuation Day prior to December 25th and December 31st of a given year, then we will process the Required Minimum Distribution on the last Valuation Day prior to December 25th of that year.

See “Tax Considerations” for a further discussion of Required Minimum Distributions.

Medically-Related Surrenders & Death Benefits: Medically-Related Surrender requests and Death Benefit claims require our review and evaluation before processing. We price such transactions as of the date we receive at our Service Office in Good Order all supporting documentation we require for such transactions.

We generally pay any surrender request or death benefit claims from the Separate Account within 7 days of our receipt of your request in Good Order at our Service Office.
SURRENDERS

SURRENDER VALUE

During the Accumulation Period you can surrender your Annuity at any time and will receive the Surrender Value. Upon surrender of your Annuity, you will no longer have any rights under the surrendered Annuity. Your Surrender Value is equal to the Account Value less any applicable CDSC, and any applicable Tax Charges.

We apply as a threshold, in certain circumstances, a minimum Surrender Value of $2,000. We will not allow you to take any withdrawals that would cause your Annuity’s Account Value, after taking the withdrawal, to fall below the minimum Surrender Value. See “Annuity Options” later in this prospectus for information on the impact of the minimum Surrender Value at annuitization.

Your Surrender Value taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. Please see “Interim Value” for more information.

MEDICALLY-RELATED SURRENDERS

Where permitted by law, you may request to surrender all or part of your Annuity prior to the Annuity Date without application of any otherwise applicable CDSC upon occurrence of a medically-related “Contingency Event” as described below (a “Medically-Related Surrender”). The availability and requirements of such a surrender and waiver may vary by state.

If you request a full surrender under the Medically Related Surrender provision, the amount payable will be your Account Value as of the date we receive, in Good Order, your request to surrender your Annuity. For a Medically-Related Surrender taken from an Index Strategy before the Index Strategy End Date, the surrender will be based on the Interim Value. Although a CDSC will not apply to qualifying Medically-Related SURRENDERS, please be aware that a withdrawal from the Annuity before you have reached age 59½ may be subject to a 10% IRS tax penalty and other tax consequences – see “Tax Considerations” later in this prospectus.

This waiver of any applicable CDSC is subject to our rules in place at the time of your request, which currently include but are not limited to the following:

- If the Owner is an entity, the Annuitant must have been named or any change of Annuitant must have been accepted by us, prior to the “Contingency Event” described below in order to qualify for a Medically-Related Surrender;
- If the Owner is an entity, the Annuitant must be alive as of the date we pay the proceeds of such surrender request;
- If the Owner is one or more natural persons, all such Owners must also be alive at such time;
- We must receive satisfactory proof of the Owner’s (or the Annuitant’s if entity-owned) confinement in a Medical Care Facility or Fatal Illness in writing on a form satisfactory to us;
- no additional Purchase Payments can be made to the Annuity; and
- Proceeds will only be sent by check or electronic fund transfer directly to the Owner.

We reserve the right to impose a maximum amount of a Medically-Related Surrender (equal to $500,000), but we do not currently impose that maximum. That is, if the amount of a partial medically-related withdrawal request, when added to the aggregate amount of Medically-Related SURRENDERS you have taken previously under the Annuity and any other Annuity we and/or our affiliates have issued to you exceeds that maximum amount, we reserve the right to treat the amount exceeding that maximum as not an eligible Medically-Related Surrender. A “Contingency Event” occurs if the Owner (or Annuitant if entity-owned) is:

- first confined in a “Medical Care Facility” after the Issue Date and while the Annuity is in force, remains confined for at least 90 consecutive days, and remains confined on the date we receive the Medically-Related Surrender request at our Service Office; or
- first diagnosed as having a “Fatal Illness” after the Issue Date and while the Annuity is in force. We may require a second or third opinion by a licensed physician chosen by us regarding a diagnosis of Fatal Illness. We will pay for any such second or third opinion.

“Fatal Illness” means a condition (a) diagnosed by a licensed physician; and (b) that is expected to result in death within 24 months after the diagnosis in 80% of the cases diagnosed with the condition. “Medical Care Facility” means a facility operated and licensed pursuant to the laws of any United States jurisdiction providing medically necessary in-patient care, which is (a) prescribed by a licensed physician in writing; (b) recognized as a general hospital or long-term care facility by the proper authority of the United States jurisdiction in which it is located; (c) recognized as a general hospital by the Joint Commission on the Accreditation of Hospitals; and (d) certified as a hospital or long-term care facility; OR (e) a nursing home licensed by the United States jurisdiction in which it is located and offers the services of a Registered Nurse (RN) or Licensed Practical Nurse (LPN) 24 hours a day that maintains control of all prescribed medications dispensed and daily medical records. This waiver is not currently available in California and Massachusetts.
ANNUITY OPTIONS

Annuitization involves converting your Account Value to an annuity payment stream, the length of which depends on the terms of the applicable annuity option. Thus, once annuity payments begin, your death benefit, if any, is determined solely under the terms of the applicable annuity payment option. We currently make annuity options available that provide fixed annuity payments only. Fixed annuity payments provide the same amount with each payment. You must annuitize your entire Account Value; partial Annuitizations are not allowed. If you annuitize between Index Anniversary Dates, your annuity payments taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. See “Interim Value” for more information.

You have a right to choose your annuity start date, provided that it is no later than the first day of the calendar month next following the 95th birthday of the oldest of any Owner and Annuitant whichever occurs first, the Maximum Annuity Date, and no earlier than the earliest permissible Annuity Date. Your choice of Annuity Date and Annuity Option may be limited, depending on your use of the Annuity. If you do not request an earlier Annuity Date in writing, then your Annuity Date will be the Latest Annuity Date. You may choose one of the annuity options described below, and the frequency of annuity payments. Certain annuity options and/or periods certain may not be available, depending on the age of the Annuitant. If a CDSC is still remaining on your Annuity, any period certain must be at least 10 years (or the maximum period certain available, if life expectancy is less than 10 years). You may change your choices up to 30 days before the Annuity Date. We must receive your request in Good Order.

If needed, we will require proof in Good Order of the Annuitant’s age before commencing annuity payments. Likewise, we may require proof in Good Order that an Annuitant is still alive, as a condition of our making additional annuity payments while the Annuitant lives. We will seek to recover any life income annuity payments that we made after the death of the Annuitant.

On the Annuity Date we apply the Account Value, less any applicable Tax Charges, to the Annuity Option you select. If you have not selected an Annuity Option, the default Annuity Option will be Option 1 with a certain period of 120 months (but not to exceed the life expectancy of the Annuitant at the time the Annuity Option becomes effective, as computed under applicable IRS tables).

If the initial annuity payment would be less than $100, we will not allow you to annuitize (except as otherwise specified by applicable law). Instead, we will pay you your current Account Value in a lump sum and terminate your Annuity. Similarly, we reserve the right to pay your Account Value in a lump sum, rather than allow you to annuitize, if the Surrender Value of your Annuity is less than $2,000 on the Annuity Date.

Once annuity payments begin, your death benefit, if any, is determined solely under the terms of the applicable annuity payment option and you may no longer receive the Death Benefits as described below. See the “Death Benefits” section of this prospectus.

Please note that you may not annuitize under one of the Fixed Annuity Options within the first three Annuity Years (except as otherwise specified by applicable law).

For Beneficiary Annuity, no annuity payments are available and all references to Annuity Date are not applicable.

Fixed Annuity Options

We currently make annuity options available that provide fixed annuity payments only.

Option 1

Life Income Annuity Option with a Period Certain - Under this option, income is payable equally monthly, quarterly, semiannually, or annually for the Annuitant’s life or a period certain, subject to our then current rules, whichever is longer. Should the Owner or Annuitant die before the end of the period certain, the remaining period certain payments are paid to any surviving Owner, or if there is no surviving Owner, the named Beneficiary, or your estate if no Beneficiary is named, until the end of the period certain. If an annuity option is not selected by the Annuity Date, this is the option we will automatically select for you. We will use a period certain of 10 years, or a shorter duration if the Annuitant’s life expectancy at the time the annuity option becomes effective, as computed under applicable IRS tables, is less than 10 years. If in this instance the duration of the period certain is prohibited by applicable law, then we will pay you a lump sum in lieu of this option.

Option 2

Joint Life Annuity Option - Under the joint lives option, income is payable monthly, quarterly, semiannually, or annually, as you choose, during the joint lifetime of two Annuitants, ceasing with the last payment prior to the death of the second to die of the two Annuitants. No minimum number of payments is guaranteed under this option. It is possible that only one payment will be payable if the death of all the Annuitants occurs before the date the second payment was due, and no other payments or death benefits would be payable.

Other Annuity Options We May Make Available

At the Annuity Date, we may make available other annuity options not described above. However, Options 1 and 2 above will always remain available. The additional options we currently offer are:

- Life Annuity Option. We currently make available an annuity option that makes payments for the life of the Annuitant. Under that option, income is payable monthly, quarterly, semiannually, or annually, as you choose, until the death of the Annuitant. No additional annuity payments are made after the death of the Annuitant. No minimum number of payments is guaranteed. It is possible that only one payment will be payable if the death of the Annuitant occurs before the date the second payment was due, and no other payments nor death benefits would be payable.
- Joint Life Annuity Option with a Period Certain. Under this option, income is payable monthly, quarterly, semiannually, or annually for the number of years selected (the “period certain”), subject to our current rules, and thereafter during the joint lifetime of two Annuitants, ceasing with the last payment prior to the death of the second to die of the two Annuitants. If the Annuitants’ joint life expectancy is less than the period certain, we will institute a shorter period certain, determined according to applicable IRS tables. Should the two Annuitants die before the end of the period certain, the remaining period certain payments are paid to any surviving Owner, or if there is no surviving Owner, the named Beneficiary, or to your estate if no Beneficiary is named, until the end of the period certain.

- Annuity Payments for a Period Certain: Under this option, we will make equal payments for the period chosen (the “period certain”), up to 25 years (but not to exceed the life expectancy of the Annuitant at the time the annuity option becomes effective, as computed under applicable IRS tables). The annuity payments may be made equally monthly, quarterly, semiannually, or annually, as you choose, for the fixed period. If the Owner dies before the end of the period certain, payments will continue to any surviving Owner, or if there is no surviving Owner, the named Beneficiary or your estate if no Beneficiary is named for the remainder of the period certain.

We reserve the right to cease offering any of these other annuity options. If we do so, we will amend this prospectus to reflect the change. We reserve the right to make available other annuity options. If there is a misstatement of age or sex on which life annuity rates are calculated and we have to make a correction/adjustment to prior payments, we will use an interest rate of [6]% to remedy any underpayments and, for overpayments, [6]% will be deducted from future amounts payable by us under your Annuity.
DEATH BENEFITS

TRIGGERS FOR PAYMENT OF THE DEATH BENEFIT

The Annuity provides a Death Benefit prior to Annuitization. If the Annuity is owned by one or more natural persons, the Death Benefit is payable upon the death of the Owner (or the first to die, if there are multiple Owners). If a Contingent Annuitant was designated before an Annuitant’s death and the Annuitant dies, and the Contingent Annuitant is the spouse, then the spouse Contingent Annuitant may choose to become the Annuitant and continue the contract, in which case a Death Benefit will not be paid, or elect to receive the Death Benefit. If a Nonqualified Annuity is owned by an entity (for example, a non-natural person), the Death Benefit is payable upon the first Annuitant’s death. The person upon whose death the Death Benefit is paid is referred to below as the “decedent”. A Death Benefit is payable only if your Account Value at the time of the decedent’s death is greater than zero.

Death claims taken from an Index Strategy before the Index Strategy End Date will be based on the Interim Value. See “Interim Value” for more information.

Where an Annuity is issued to a trust, and such trust is characterized as a grantor trust under the Code, such Annuity shall not be considered to be held by a non-natural person and will be subject to the tax reporting and withholding requirements generally applicable to a Nonqualified Annuity held by a natural person. At this time, we will not issue an Annuity to grantor trusts with more than two grantors.

You may name as the Owner of the Annuity a grantor trust with one grantor only if the grantor is designated as the Annuitant. You may name as the Owner of the Annuity, subject to state availability, a grantor trust with two grantors only if the oldest grantor is designated as the Annuitant. We will not issue the Annuity to grantor trusts with more than two grantors. If co-grantors are named, the second grantor may be designated as Joint Annuitant. If a non-Annuitant co-grantor passes away, then the Death Benefit will not be payable.

We determine the amount of the Death Benefit as of the date we receive Due Proof of Death. Any given Beneficiary must submit the written information we require in order to be paid his/her share of the Death Benefit.

Once we have received Due Proof of Death, each eligible Beneficiary may take his/her portion of the Death Benefit in one of the forms described in this prospectus under “Payment of Death Benefits” below.

After our receipt of Due Proof of Death, we automatically transfer any remaining Death Benefit to the Holding Account. However, between the date of death and the date that we transfer any remaining Death Benefit to the Holding Account, the amount of the Death Benefit is subject to market fluctuations (net of the Insurance Charge).

COMMON DISASTER -- If an Owner and a Beneficiary die in a common disaster, it must be proved to our satisfaction that the Owner died first and the Beneficiary survived the Owner(s) (or Annuitant if entity owned) by at least 30 days. In this situation, the Death Benefit proceeds will be payable to the Beneficiary’s estate upon our receipt of Due Proof of Death of the Decedent. When there is insufficient evidence to determine the order of death, then, unless prohibited by law, we will deem the Owner to have survived the Beneficiary.

If: (a) the Owner is an entity; (b) no Contingent Annuitant or Joint Annuitant has been designated, we will deem the Annuitant to be the last survivor and pay the proceeds to any remaining Beneficiary, or if none, to any remaining contingent Beneficiary, or if none, to the Owner.

THE RETURN OF PURCHASE PAYMENTS DEATH BENEFIT

The Annuity provides a Death Benefit called the Return of Purchase Payments Death Benefit and will be attached to your Annuity contract once issued.

The amount of the death benefit under the Return of Purchase Payments Death Benefit is equal to the greater of:

- The Return of Purchase Payments Amount, defined below; AND
- The Account Value on the date we receive Due Proof of Death.

Calculation of the Return of Purchase Payments Amount

Initially, the Return of Purchase Payment amount is equal to the sum of all Purchase Payments allocated to the Annuity on its Issue Date. Thereafter, the Return of Purchase Payments Amount is:

- Increased by additional Purchase Payments allocated to the Annuity, and
- Reduced for any partial withdrawals. A withdrawal will cause a proportional reduction to the Return of Purchase Payments Amount equal to the ratio of the amount of the withdrawal to the Account Value immediately prior to the withdrawal.

The proportional reduction in the Return of Purchase Payments Amount could be less or greater than the actual withdrawal based upon the level of the Account Value. If the Account Value exceeds the Return of Purchase Payments Amount prior to the withdrawal, then the impact on the Return of Purchase Payments Amount would be less than the reduction in the Account Value. If the Return of Purchase Payments Amount exceeds the Account Value prior to the withdrawal, then the impact on the Return of Purchase Payments Amount would exceed the reduction in the Account Value. This is outlined in the below examples.

Example 1:
Return of Purchase Payments Amount: $100,000
Gross Withdrawal: $18,000
Account Value at time of Withdrawal: $118,000
Return of Purchase Payments Amount Reduction Percent for Withdrawal: 15.25% ($18,000/$118,000)
Return of Purchase Payments Amount after Withdrawal: $84,750 ($100,000 - 15.25%)

Example 2:
Return of Purchase Payments Amount: $100,000
Gross Withdrawal: $18,000
Account Value at time of Withdrawal: $90,000
Return of Purchase Payments Amount Reduction Percent for Withdrawal: 20% ($18,000/$90,000)
Return of Purchase Payments Amount after Withdrawal: $80,000 ($100,000 - 20%)

EXCEPTIONS TO THE RETURN OF PURCHASE PAYMENT AMOUNT: There are certain exceptions to the amount of the Death Benefit under the Return of Purchase Payments Death Benefit.

Submission of Due Proof of Death after One Year. If we receive Due Proof of Death more than one year after the date of death, we reserve the right to limit the Death Benefit to the Account Value on the date we receive Due Proof of Death. Although we do not currently limit the Death Benefit to the Account Value, if we decide to do so, the beneficiaries designated under your Annuity would receive an amount equal to the Account Value and not an amount equal to the greater of the Return of Purchase Payment amount and the Account Value.

- **Beneficiary Annuity.** With respect to a Beneficiary Annuity, the Death Benefit is triggered by the death of the beneficial Owner (or the Key Life, if entity-owned). However, if the Annuity is held as a Beneficiary Annuity, the Owner is an entity, and the Key Life is already deceased, then no Death Benefit is payable upon the death of the beneficial Owner.

**SPousal Continuation of Annuity**

Unless you designate a Beneficiary other than your spouse, upon the death of either spousal Owner, the surviving spouse may elect to continue ownership of the Annuity instead of taking the Death Benefit payment ("Spousal Continuation") subject to our rules and subject to our receipt of Due Proof of Death. The Account Value (which may be based on the Interim Value for amounts held in the Index Strategies) as of the date of Due Proof of Death will be equal to the Death Benefit that would have been payable. Any amount added to the Account Value will be allocated to the Variable Investment Subaccounts pro-rata or to the Holding Account if no Variable Investment Subaccounts have value. The spouse may transfer to any of the Variable Investment Sub-accounts at any time or to a new Index Strategy on the next Index Anniversary Date. No CDSC will apply to Purchase Payments made prior to the effective date of a spousal continuance. However, any additional Purchase Payments applied after the date the continuance is effective will be subject to all provisions of the Annuity, including the CDSC when applicable.

Upon Spousal Continuation, the Account Value is increased to the Return of Purchase Payment Amount, if greater.

Subsequent to Spousal Continuation, the amount of the Death Benefit will be equal to the Account Value on the date we receive Due Proof of Death.

We allow a spouse to continue the Annuity even though he/she has reached or surpassed the Latest Annuity Date. However, upon such a spousal continuance, annuity payments would begin immediately. Spousal continuation is only permitted once under the Annuity.

**PAYMENT OF DEATH BENEFITS**

**Alternative Death Benefit Payment Options – Annuity owned by Individuals (not associated with Tax-Favored Plans)**

Except in the case of a Spousal Continuation as described above, upon your death, certain distributions must be made under the Non-Qualified Annuity. The required distributions depend on whether you die before you start taking annuity payments under the Annuity or after you start taking annuity payments under the Annuity. If you die on or after the Annuity Date, the remaining portion of the interest in the Annuity must be distributed at least as rapidly as under the method of distribution being used as of the date of death. In the event of the decedent's death before the Annuity Date, the Death Benefit must be distributed:

- within five (5) years of the date of death (the “five-year deadline”); or
- as a series of payments not extending beyond the life expectancy of the Beneficiary or over the life of the Beneficiary. Payments under this option must begin within one year of the date of death. If the Beneficiary does not begin installments by such time, then no partial withdrawals will be permitted thereafter and we require that the Beneficiary take the Death Benefit as a lump sum within the five-year deadline. If we do not receive instructions on where to send the payment within five-years of the date of death, the funds will be escheated.

- If the Beneficiary is the surviving spouse of the Owner, the spouse may elect to continue the Annuity.

If the Annuity is held as a Beneficiary Annuity, the payment of the Death Benefit must be distributed as a lump sum payment.

The Owner may elect the method of payment to each Beneficiary, subject to our then current rules, prior to the date of death of the decedent. When no such election is made as to a specific Beneficiary, such Beneficiary must elect the method of payment within 60 days of the date we receive all required documentation in Good Order in order to pay the Death Benefit to that Beneficiary. If no election is made within 60 days, the default will be distribution within five years of the date of death of the decedent as noted in (a) above. If the Beneficiary is the surviving spouse of the owner, the spouse may elect to continue the Annuity under (c) above.
The Owner may elect to have any amount of the proceeds due to a Beneficiary applied under any of the Annuity Options described in the “Annuity Payment Options” section, or any other option we then make available. If you make such an election, a Beneficiary may not alter such an election. However, if you have not previously made such an election, a Beneficiary may make such an election as to the proceeds due that Beneficiary. The Beneficiary will be the “measuring life” for determining the amount of any annuity payments dependent on the continuation of life. We may require evidence satisfactory to us of the age of the measuring life prior to commencement of any annuity payments.

In the event of death on or after the Annuity Date, we distribute any payments due subsequent to an Owner’s or Annuitant’s death at least as rapidly as under the method of distribution in effect as of the date of such Owner’s or Annuitant’s death.

Alternative Death Benefit Payment Options – Annuity Held by Tax-Favored Plans

Upon your death under an IRA or Roth IRA, any remaining interest must be distributed in accordance with federal income tax requirements. The post-death distribution requirements were amended, applicable generally with respect to deaths occurring after 2019, by the Further Consolidated Appropriations Act of 2020 (which includes the “Setting Every Community Up for Retirement Enhancement” Act (SECURE Act)). The post-death distribution requirements under prior law continue to apply in certain circumstances.

- **Prior law.** Under prior law, if an IRA owner dies prior to the required beginning date, the remaining interest must be distributed (1) within 5 years after the death (the “5-year rule”), or (2) over the life of the designated beneficiary, or over a period not extending beyond the life expectancy of the designated beneficiary, provided that such distributions commence within one year after death (the “lifetime payout rule”). If the IRA owner dies on or after the required beginning date (including after the date distributions have commenced in the form of an annuity), the remaining interest must be distributed at least as rapidly as under the method of distribution being used as of the date of death (the “at-least-as-rapidly rule”).

- **The new law.** Under the new law, if you die after 2019, and you have a designated beneficiary, any remaining interest must be distributed within 10 years after your death, unless the designated beneficiary is an “eligible designated beneficiary” (“EDB”) or some other exception applies. A designated beneficiary is any individual designated as a beneficiary by the employee or IRA owner. An EDB is any designated beneficiary who is (1) your surviving spouse, (2) your minor child, (3) disabled, (4) chronically ill, or (5) an individual not more than 10 years younger than you. An individual’s status as an EDB is determined on the date of your death.

This 10-year post-death distribution period applies regardless of whether you die before your required beginning date, or you die on or after that date (including after distributions have commenced in the form of an annuity). However, if the beneficiary is an EDB and the EDB dies before the entire interest is distributed under this 10-year rule, the remaining interest must be distributed within 10 years after the EDB’s death (i.e., a new 10-year distribution period begins).

Instead of taking distributions under the new 10-year rule, an EDB can stretch distributions over life, or over a period not extending beyond life expectancy, provided that such distributions commence within one year of your death, subject to certain special rules. In particular, if the EDB dies before the remaining interest is distributed under this stretch rule, the remaining interest must be distributed within 10 years after the EDB’s death (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years). In addition, if your minor child is an EDB, the child will cease to be an EDB on the date the child reaches the age of majority, and any remaining interest must be distributed within 10 years after that date (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years).

It is important to note that under prior law, annuity payments that commenced under a method that satisfied the distribution requirements while the IRA owner was alive could continue to be made under that method after the death of the IRA owner. However, under the new law, if you commence taking distributions in the form of an annuity that can continue after your death, such as in the form of a joint and survivor annuity or an annuity with a guaranteed period of more than 10 years, any distributions after your death that are scheduled to be made beyond the applicable distribution period imposed under the new law might need to be commuted at the end of that period (or otherwise modified after your death if permitted under federal tax law and by Prudential) in order to comply with the new post-death distribution requirements.

The new post-death distribution requirements do not apply if annuity payments that comply with prior law commenced prior to December 20, 2019. Also, even if annuity payments have not commenced prior to December 20, 2019, the new requirements generally do not apply to an immediate annuity contract or a deferred income annuity contract (including a qualifying lifetime annuity contract, or “QLAC”) purchased prior to that date, if you have made an irrevocable election before that date as to the method and amount of the annuity.

If your beneficiary is not an individual, such as a charity, your estate, or a trust, any remaining interest after your death generally must be distributed under prior law in accordance with the 5-year rule or the at-least-as-rapidly rule, as applicable (but not the lifetime payout rule). However, if your beneficiary is a trust and all the beneficiaries of the trust are individuals, the new law can apply pursuant to special rules that treat the beneficiaries of the trust as designated beneficiaries, including special rules allowing a beneficiary of a trust who is disabled or chronically ill to stretch the distribution of their interest over their life or life expectancy in some cases. You may wish to consult a professional tax advisor about the federal income tax consequences of your beneficiary designations.

In addition, the new post-death distribution requirements generally do not apply if the IRA owner died prior to January 1, 2020. However, if the designated beneficiary of the deceased IRA owner dies after January 1, 2020, any remaining interest must be distributed within 10 year of the designated beneficiary’s death. Hence, this 10-year rule will apply to (1) a contract issued prior to 2020 which continues to be held by a designated beneficiary of an IRA owner who died prior to 2020, and (2) an inherited IRA issued after 2019 to the designated beneficiary of an IRA owner who died prior to 2020.
Spousal continuation. Under the new law, as under prior law, if your beneficiary is your spouse, your surviving spouse can delay the application of the post-death distribution requirements until after your surviving spouse’s death by transferring the remaining interest tax-free to your surviving spouse’s own IRA, or by treating your IRA as your surviving spouse’s own IRA. The post-death distribution requirements are complex and unclear in numerous respects. In addition, the manner in which these requirements will apply will depend on your particular facts and circumstances. You may wish to consult a professional tax adviser for tax advice as to your particular situation.
TAX CONSIDERATIONS

The tax considerations associated with an Annuity vary depending on whether the Annuity is (i) owned by an individual or non-natural person, and not associated with a tax-favored retirement plan, or (ii) held under a tax-favored retirement plan. We discuss the tax considerations for these categories of Annuity below. The discussion is general in nature and describes only federal income tax law (not state, local, foreign or other federal tax laws). It is based on current law and interpretations which may change. The information provided is not intended as tax advice. You should consult with a qualified tax adviser for complete information and advice.

Generally, the cost basis in an Annuity not associated with a tax-favored retirement plan is the amount you pay into your Annuity, or into Annuity exchanged for your Annuity, on an after-tax basis less any withdrawals of such payments. Cost basis for a tax-favored retirement plan is provided only in limited circumstances, such as for contributions to a Roth IRA or nondeductible contributions to a traditional IRA. We do not track cost basis for tax-favored retirement plans, which is the responsibility of the Owner.

The discussion below generally assumes that the Annuity is issued to the Annuity Owner. For Annuities issued under the Beneficiary Continuation Option or as a Beneficiary Annuity, refer to the Taxes Payable by Beneficiaries for a Nonqualified Annuity and Required Distributions Upon Your Death for Qualified Annuity sections below.

NONQUALIFIED ANNUITIES

In general, as used in this prospectus, a Nonqualified Annuity is owned by an individual or non-natural person and is not associated with a tax-favored retirement plan.

Taxes Payable by You

We believe the Annuity is an annuity for tax purposes. Accordingly, as a general rule, you should not pay any tax until you receive money under the Annuity. Generally, an annuity issued by the same company (and affiliates) to you during the same calendar year must be treated as one annuity for purposes of determining the amount subject to tax under the rules described below.

It is possible that the IRS could assert that some or all of the charges for the optional living or death benefits under the Annuity should be treated for federal income tax purposes as a partial withdrawal from the Annuity. If this were the case, the charge for this benefit would be treated to the extent there are earnings in the Annuity. Additionally, for Owners under age 59½, the taxable income attributable to the charge for the benefit could be subject to a tax penalty. If the IRS determines that the charges for one or more benefits under the Annuity are taxable withdrawals, then the Owner will be provided with a notice from us describing available alternatives regarding these benefits.

Taxes on Withdrawals and Surrender Before Annuity Payments Begin

If you make a withdrawal from your Annuity or surrender it before annuity payments begin, the amount you receive will be taxed as ordinary income, rather than as a return of cost basis, until all gain has been withdrawn. At any time there is no gain in your Annuity, payments will be treated as a nontaxable return of cost basis until all cost basis has been returned. After all cost basis is returned, all subsequent amounts will be taxed as ordinary income. An exception to this treatment exists for contracts purchased prior to August 14, 1982. Withdrawals are treated as a return of cost basis in an annuity first until Purchase Payments made before August 14, 1982 are withdrawn. Moreover, income allocable to Purchase Payments made before August 14, 1982, is not subject to the 10% tax penalty.

You will generally be taxed on any withdrawals from the Annuity while you are alive even if the withdrawal is paid to someone else. Withdrawals under any of the optional living benefits or as a systematic payment are taxed under these rules. If you assign or pledge all or part of your Annuity as collateral for a loan, the part assigned generally will be treated as a withdrawal and subject to income tax to the extent of gain. If you transfer your Annuity for less than full consideration, such as by gift, you will also trigger tax on any gain in the Annuity. This rule does not apply if you transfer the Annuity to your spouse or under most circumstances if you transfer the Annuity incident to divorce.

If you choose to receive payments under an interest payment option, or a Beneficiary chooses to receive a death benefit under an interest payment option, that election will be treated, for tax purposes, as surrendering your Annuity and will immediately subject any gain in the Annuity to income tax.

Taxes on Annuity Payments

If you select an annuity payment option as described in the Access to Account Value section earlier in this prospectus, a portion of each annuity payment you receive will be treated as a partial return of your cost basis and will not be taxed. The remaining portion will be taxed as ordinary income. Generally, the nontaxable portion is determined by multiplying the annuity payment you receive by a fraction, the numerator of which is your cost basis (less any amounts previously received tax-free) and the denominator of which is the total expected payments under the Annuity. After the full amount of your cost basis has been recovered tax-free, the full amount of the annuity payments will be taxable. If annuity payments stop due to the death of the Annuitant before the full amount of your cost basis has been recovered, a tax deduction may be allowed for the unrecovered amount. Under the Tax Cuts and Jobs Act of 2017, this deduction is suspended until after 2025.

If your Account Value is reduced to zero but the Annuity remains in force due to a benefit provision, further distributions from the Annuity will be reported as annuity payments, using an exclusion ratio based upon the undistributed cost basis in the Annuity and the total value of the anticipated future payments until such time as all cost basis has been recovered.
Maximun Annuity Date

You must commence annuity payments no later than the first day of the calendar month following the Maximum Annuity Date for your Annuity. Upon reaching the Maximum Annuity Date you can no longer surrender, exchange, or transfer your contract. The Maximum Annuity Date may be the same as the Latest Annuity Date as described elsewhere in this prospectus. For some of our annuities, you can choose to defer the Annuity Date beyond the default or Latest Annuity Date, as applicable, described in your Annuity. However, the IRS may not then consider your Annuity to be an Annuity under the tax law.

Please refer to your Annuity contract for the Maximum Annuity Date.

Partial Annuitzation

We do not currently permit partial annuitizations.

Medicare Tax on Net Investment Income

The Patient Protection and Affordable Care Act, enacted in 2010, included a Medicare tax on investment income. This tax assesses a 3.8% surtax on the lesser of (1) net investment income or (2) the excess of “modified adjusted gross income” over a threshold amount. The “threshold amount” is $250,000 for married taxpayers filing jointly, $125,000 for married taxpayers filing separately, $200,000 for single taxpayers, and approximately $12,500 for trusts. The taxable portion of payments received as a withdrawal, surrender, annuity payment, death benefit payment or any other actual or deemed distribution under a Non-Qualified Annuity will be considered investment income for purposes of this surtax.

Tax Penalty for Early Withdrawal from a Nonqualified Annuity

You may owe a 10% tax penalty on the taxable part of distributions received from your Nonqualified Annuity before you attain age 59½. Amounts are not subject to this tax penalty if:

- the amount is paid on or after you reach age 59½ or die;
- the amount received is attributable to your becoming disabled;
- generally, the amount paid or received is in the form of substantially equal payments (as defined in the Code) not less frequently than annually (please note that substantially equal payments must continue until the later of reaching age 59½ or 5 years and modification of payments during that time period will result in retroactive application of the 10% tax penalty); or
- the amount received is paid under an immediate Annuity and the annuity start date is no more than one year from the date of purchase (the first annuity payment must commence within 13 months of the date of purchase).

Other exceptions to this tax may apply. You should consult your tax adviser for further details.

Special Rules in Relation to Tax-free Exchanges Under Section 1035

Section 1035 of the Code permits certain tax-free exchanges of a life insurance contract, annuity or endowment contract for an annuity, including tax-free exchanges of annuity death benefits for a Beneficiary Annuity. Partial exchanges may be treated in the same way as tax-free 1035 exchanges of entire contracts, therefore avoiding current taxation of the partially exchanged amount as well as the 10% tax penalty on pre-age 59½ withdrawals. In Revenue Procedure 2011-38, the IRS indicated that, for exchanges on or after October 24, 2011, where there is a surrender or distribution from either the initial Annuity or receiving Annuity within 180 days of the date on which the partial exchange was completed will not be treated as a tax-free Section 1035 exchange. The IRS will apply general tax rules to determine the substance and treatment of the original transfer for exchanges that otherwise would qualify under the Revenue Procedure. We strongly urge you to discuss any partial exchange transaction of this type with your tax adviser before proceeding with the transaction.

If an Annuity is purchased through a tax-free exchange of a life insurance contract, annuity or endowment contract that was purchased prior to August 14, 1982, then any Purchase Payments made to the original contract prior to August 14, 1982 will be treated as made to the new annuity prior to that date. Generally, such pre-August 14, 1982 withdrawals are treated as a return of cost basis first until Purchase Payments made before August 14, 1982 are withdrawn. Moreover, income allocable to Purchase Payments made before August 14, 1982, is not subject to the 10% tax penalty.

After you elect an Annuity Payout Option, you are not eligible for a tax-free exchange under Section 1035.

Taxes Payable by Beneficiaries for a Nonqualified Annuity

The Death Benefit distributions are subject to ordinary income tax to the extent the distribution exceeds the cost basis in the Annuity. The value of the Death Benefit, as determined under federal law, is also included in the Owner’s estate for federal estate tax purposes. Generally, the same income tax rules described above would also apply to amounts received by your Beneficiary. Choosing an option other than a lump sum Death Benefit may defer taxes. Certain minimum distribution requirements apply upon your death, as discussed further below in the Annuity Qualification section. Tax consequences to the Beneficiary vary depending upon the Death Benefit payment option selected. Generally, for payment of the Death Benefit:

- As a lump sum payment, the Beneficiary is taxed in the year of payment on gain in the Annuity.
- Within 5 years of death of Owner, the Beneficiary is taxed on the lump sum payment. The Death Benefit must be taken as one lump sum payment within 5 years of the date of the death of the Owner. Partial withdrawals are not permitted.

- Under an Annuity or Annuity settlement option where distributions begin within one year of the date of death of the Owner, the Beneficiary is taxed on each payment with part as gain and part as return of cost basis. After the full amount of cost basis has been recovered tax-free, the full amount of the annuity payments will be taxable.

**Reporting and Withholding on Distributions**

Amounts distributed from an Annuity are subject to federal and state income tax reporting and withholding. In general, we will withhold federal income tax from the taxable portion of such distribution based on the type of distribution. In the case of an annuity payment, we will withhold as if you are a married individual with three (3) exemptions unless you designate a different withholding status. If no U.S. taxpayer identification number is provided, we will automatically withhold using the back-up withholding rules. In the case of all other distributions, we will withhold at a 10% rate. You may generally elect not to have tax withheld from your payments. An election out of withholding must be made on forms that we provide. If you are a U.S. person (which includes a resident alien), and you request a payment be made outside the United States, we may be required to withhold income tax.

State income tax withholding rules vary and we will withhold based on the rules of your state of residence. Special tax rules apply to withholding for nonresident aliens, and we generally will withhold income tax for nonresident aliens at a 30% rate. A different withholding rate may be applicable to a nonresident alien based on the terms of an existing income tax treaty between the United States and the nonresident alien’s country. Please refer to the discussion below regarding withholding rules for a Qualified Annuity.

Regardless of the amount withheld by us, you are liable for payment of federal and state income tax on the taxable portion of annuity distributions. You should consult with your tax adviser regarding the payment of the correct amount of these income taxes and potential liability if you fail to pay such taxes.

**Entity Owners**

Where an Annuity is held by a non-natural person (e.g., a corporation), other than as an agent or nominee for a natural person (or in other limited circumstances), increases in the value of the Annuity over its cost basis will be subject to tax annually.

Where an Annuity is issued to a Charitable Remainder Trust (CRT), increases in the value of the Annuity over its cost basis will be subject to tax reporting annually. As there are charges for the optional living and death benefits described elsewhere in this prospectus, and such charges reduce the contract value of the Annuity, trustees of the CRT should discuss with their legal advisers whether election of such optional living or death benefits violates their fiduciary duty to the remainder beneficiary.

Where an Annuity is issued to a trust, and such trust is characterized as a grantor trust under the Code, such Annuity shall not be considered to be held by a non-natural person and will be subject to the tax reporting and withholding requirements generally applicable to a Nonqualified Annuity held by a natural person. At this time, we will not issue an Annuity to grantor trusts with more than two grantors.

Where the Annuity is owned by a grantor trust, the Annuity must be distributed within five years after the date of the first grantor’s death under Section 72(s) of the Code. See the “Death Benefits” section for scenarios where a Death Benefit or Surrender Value is payable depending upon the underlying facts.

Trusts are required to complete and submit a Certificate of Entity form, and we will tax report based on the information provided on this form.

**Annuity Qualification**

**Diversification And Investor Control.** In order to qualify for the tax rules applicable to annuities described above, the investment assets in the Subaccounts of an annuity must be diversified according to certain rules under the Code. Each Portfolio is required to diversify its investments each quarter so that no more than 55% of the value of its assets is represented by any one investment, no more than 70% is represented by any two investments, no more than 80% is represented by any three investments, and no more than 90% is represented by any four investments. Generally, securities of a single issuer are treated as one investment, and obligations of each U.S. Government agency and instrumentality (such as the Government National Mortgage Association) are treated as issued by separate issuers. In addition, any security issued, guaranteed or insured (to the extent so guaranteed or insured) by the U.S. or an instrumentality of the U.S. will be treated as a security issued by the U.S. Government or its instrumentality, where applicable. We believe the Portfolios underlying the Variable Investment Subaccounts of the Annuity meet these diversification requirements. We assume no responsibility that the Portfolios will remain adequately diversified.

An additional requirement for qualification for the tax treatment described above is that we, and not you as the Annuity Owner, must have sufficient control over the underlying assets to be treated as the Owner of the underlying assets for tax purposes. While we also believe these current investor control rules will be met, the Treasury Department may promulgate additional guidelines under which a variable annuity will not be treated as an Annuity for tax purposes if persons with ownership rights have excessive control over the investments underlying such variable Annuity. It is unclear whether such guidelines, if in fact promulgated, would have retroactive effect. It is also unclear what effect, if any, such guidelines might have on transfers between the Investment Options offered pursuant to this prospectus. We reserve the right to take any action, including modifications to your Annuity or the Investment Options, required to comply with such guidelines if promulgated. Any such changes will apply uniformly to affected Owners and will be made with such notice to affected Owners as is feasible under the circumstances. We assume no responsibility that the investor control rules remain satisfied.
Required Distributions Upon Your Death for a Nonqualified Annuity. Upon your death, certain distributions must be made under the Annuity. The required distributions depend on whether you die before or after you start taking annuity payments under the Annuity. If you die on or after the Annuity Date, the remaining portion of the interest in the Annuity must be distributed at least as rapidly as under the method of distribution being used as of the date of death. If you die before the Annuity Date, the entire interest in the Annuity must be distributed within five years after the date of death, or as periodic payments over a period not extending beyond the life or life expectancy of the designated Beneficiary (provided such payments begin within one year of your death). If the Beneficiary does not begin installments within one year of the date of death, no partial withdrawals will be permitted thereafter, and we require that the Beneficiary take the Death Benefit as a lump sum within the five-year deadline. Your designated Beneficiary is the person to whom benefit rights under the Annuity pass by reason of death and must be a natural person in order to elect a periodic payment option based on life expectancy or a period exceeding five years. Additionally, if the Annuity is payable to (or for the benefit of) your surviving spouse, that portion of the Annuity may be continued with your spouse as the Owner. For Nonqualified Annuities owned by a non-natural person, the required distribution rules apply upon the death of the Annuitant. This means that for an Annuity held by a non-natural person (such as a trust) for which there is named a co-annuitant, then such required distributions will be triggered by the death of the first co-annuitant to die.

Changes To Your Annuity. We reserve the right to make any changes we deem necessary to assure that your Annuity qualifies as an Annuity for tax purposes. Any such changes will apply to all Annuity Owners and you will be given notice to the extent feasible under the circumstances.

QUALIFIED ANNUITIES

In general, as used in this prospectus, a Qualified Annuity is an Annuity with applicable endorsements for a tax-favored plan or a Nonqualified Annuity held by a tax-favored retirement plan.

The following is a general discussion of the tax considerations for Qualified Annuities. The Annuity may or may not be available for all types of tax-favored retirement plans discussed below. This discussion assumes that you have satisfied the eligibility requirements for any tax-favored retirement plan. Please consult your Financial Professional prior to purchase to confirm if the Annuity is available for a particular type of tax-favored retirement plan or whether we will accept the type of contribution you intend for the Annuity.

A Qualified Annuity may typically be purchased for use in connection with:

- Individual retirement accounts and annuities (IRAs), including inherited IRAs (which we refer to as a Beneficiary IRA), which are subject to Sections 408(a) and 408(b) of the Code;
- Roth IRAs, including inherited Roth IRAs (which we refer to as a Beneficiary Roth IRA) under Section 408A of the Code;
- A corporate Pension or Profit-sharing plan (subject to Section 401(a) of the Code);
- H.R. 10 plans (also known as Keogh Plans, subject to Section 401(a) of the Code);
- Tax Sheltered Annuities (subject to Section 403(b) of the Code, also known as Tax Deferred Annuities or TDAs);
- Section 457 plans (subject to Section 457 of the Code).

A Nonqualified Annuity may be purchased by a 401(a) trust, a custodial IRA or a custodial Roth IRA account, or a Section 457 plan, which can hold other permissible assets. The terms and administration of the trust or custodial account or plan in accordance with the laws and regulations for 401(a) plans, IRAs or Roth IRAs, or a Section 457 plan, as applicable, are the responsibility of the applicable trustee or custodian.

You should be aware that tax favored plans such as IRAs generally provide income tax deferral regardless of whether they invest in an annuity. This means that when a tax favored plan invests in an annuity, it generally does not result in any additional tax benefits (such as income tax deferral and income tax free transfers).

Types of Tax-favored Plans

IRAs. The "IRA Disclosure Statement" and "Roth IRA Disclosure Statement" which accompany the prospectus contain information about eligibility, contribution limits, tax particulars, and other IRA information. In addition to this information (the material terms are summarized in this prospectus and in those Disclosure Statements), the IRS requires that you have a "Free Look" after making an initial contribution to the Annuity. During this time, you can cancel the Annuity by notifying us in writing, and we will refund the greater of all Purchase Payments under the Annuity or the Account Value, less any applicable federal and state income tax withholding.

Contribution Limits/Rollovers. Subject to the minimum Purchase Payment requirements of an Annuity, you may purchase an Annuity for an IRA in connection with a "rollover" of amounts from a qualified retirement plan, as a transfer from another IRA, by making a contribution consisting of your IRA contributions and catch-up contributions, if applicable, attributable to the prior year during the period from January 1 to April 15 (or the later applicable due date of your federal income tax return, without extension), or as a current year contribution. In 2020 the contribution limit is $6,000. The contribution amount is indexed for inflation. The tax law also provides for a catch-up provision for individuals who are age 50 and above, allowing these individuals an additional $1,000 contribution each year. The catch-up amount is not indexed for inflation. The "rollover" rules under the Code are fairly technical; however, an individual (or his or her surviving spouse) may generally "roll over" certain distributions from tax favored retirement plans (either directly or within 60 days from the date of these distributions) if he or she meets the requirements for distribution. Once you buy an Annuity, you can make regular IRA contributions under the Annuity (to the extent permitted by law). For IRA rollovers, an individual can only make an IRA to IRA rollover if the individual has not made a rollover involving any IRAs owned by the individual in the prior 12 months. An IRA transfer is a tax-free trustee-to-trustee "transfer" from one IRA account to another. IRA transfers are not subject to this 12-month rule.
In some circumstances, non-spouse Beneficiaries may roll over to an IRA amounts due from qualified plans, 403(b) plans, and governmental 457(b) plans. However, the rollover rules applicable to non-spouse Beneficiaries under the Code are more restrictive than the rollover rules applicable to Owner/participants and spouse Beneficiaries. Generally, non-spouse Beneficiaries may roll over distributions from tax favored retirement plans only as a direct rollover, and if permitted by the plan. For plan years beginning after December 31, 2009, employer retirement plans are required to permit non-spouse Beneficiaries to roll over funds to an inherited IRA. An inherited IRA must be directly rolled over from the employer plan or transferred from an IRA and must be titled in the name of the deceased (i.e., John Doe deceased for the benefit of Jane Doe). No additional contributions can be made to an inherited IRA. In this prospectus, an inherited IRA is also referred to as a Beneficiary Annuity.

**Required Provisions.** Annuity that are IRAs (or endorsements that are part of the contract) must contain certain provisions:

- You, as Owner of the Annuity, must be the “Annuitant” under the contract (except in certain cases involving the division of property under a decree of divorce);
- Your rights as Owner are non-forfeitable;
- You cannot sell, assign or pledge the Annuity;
- The annual contribution you pay cannot be greater than the maximum amount allowed by law, including catch-up contributions if applicable (which does not include any rollover amounts);
- The date on which required minimum distributions must begin cannot be later than April 1st of the calendar year after the calendar year you turn age 70½ (or age 72, for distributions required to be made after December 31, 2019, with respect to individuals who attain age 701/2 after such date); and
- Death and annuity payments must meet Required Minimum Distribution rules described below.

Usually, the full amount of any distribution from an IRA (including a distribution from the Annuity) which is not a transfer or rollover is taxable. As taxable income, these distributions are subject to the general tax withholding rules described earlier regarding an Annuity in the Nonqualified Annuity section. In addition to this normal tax liability, you may also be liable for the following, depending on your actions:

- A 10% early withdrawal penalty described below;
- Liability for “prohibited transactions” if you, for example, borrow against the value of an IRA; or
- Failure to take a Required Minimum Distribution, also described below.

**SEPs.** SEPs are a variation on a standard IRA, an Annuity issued to a SEP must satisfy the same general requirements described under IRAs (above). There are, however, some differences:

- If you participate in a SEP, you generally do not include in income any employer contributions made to the SEP on your behalf up to the lesser of (a) $57,000 in 2020, or (b) 25% of your taxable compensation paid by the contributing employer (not including the employer’s SEP contribution as compensation for these purposes). However, for these purposes, compensation in excess of certain limits established by the IRS will not be considered. In 2020, this limit is $285,000;
- SEPs must satisfy certain participation and nondiscrimination requirements not generally applicable to IRAs; and
- SEPs that contain a salary reduction or “SARSEP” provision prior to 1997 may permit salary deferrals up to $19,500 in 2020 with the employer making these contributions to the SEP. However, no new “salary reduction” or “SARSEPs” can be established after 1996. Individuals participating in a SARSEP who are age 50 or above by the end of the year will be permitted to contribute an additional $6,500 in 2020. These amounts are indexed for inflation. Not all Annuity issued by us are available for SARSEPs. You will also be provided the same information, and have the same “Free Look” period, as you would have if you purchased the Annuity for a standard IRA.

**ROTH IRAs.** The “Roth IRA Disclosure Statement” contains information about eligibility, contribution limits, tax particulars and other Roth IRA information. Like standard IRAs, income within a Roth IRA accumulates tax-free, and contributions are subject to specific limits. Roth IRAs have, however, the following differences:

- Contributions to a Roth IRA cannot be deducted from your gross income;
- “Qualified distributions” from a Roth IRA are excludable from gross income. A “qualified distribution” is a distribution that satisfies two requirements: (1) the distribution must be made (a) after the Owner of the IRA attains age 59½; (b) after the Owner’s death; (c) due to the Owner’s disability; or (d) for a qualified first time homebuyer distribution within the meaning of Section 72(t)(2)(F) of the Code; and (2) the distribution must be made in the year that is at least five tax years after the first year for which a contribution was made to any Roth IRA established for the Owner or five years after a rollover, transfer, or conversion was made from a traditional IRA to a Roth IRA. Distributions from a Roth IRA that are not qualified distributions will be treated as made first from contributions and then from earnings and earnings will be taxed generally in the same manner as distributions from a traditional IRA.

Subject to the minimum Purchase Payment requirements of an Annuity, you may purchase an Annuity for a Roth IRA in connection with a “rollover” of amounts of another traditional IRA, SEP, SIMPLE-IRA, employer sponsored retirement plan (under Sections 401(a) or 403(b) of the Code) or
Roth IRA; or, if you meet certain income limitations, by making a contribution consisting of your Roth IRA contributions and catch-up contributions, if applicable, attributable to the prior year during the period from January 1 to April 15 (or the applicable due date of your federal income tax return, without extension), or as a current year contribution. The Code permits persons who receive certain qualifying distributions from such non-Roth IRAs, to directly rollover or make, within 60 days, a “rollover” of all or any part of the amount of such distribution to a Roth IRA which they establish (a “conversion”). The conversion of non-Roth accounts triggers current taxation (but is not subject to a 10% early distribution penalty).

The Code also permits the recharacterization of amounts from a traditional IRA, SEP, or SIMPLE IRA into a Roth IRA, or from a Roth IRA to a traditional IRA. Recharacterization is accomplished through a trustee-to-trustee transfer of a contribution (or a portion of a contribution) plus earnings, between different types of IRAs. A properly recharacterized contribution is treated as a contribution made to the second IRA instead of the first IRA. Under the Tax Cuts and Jobs Act of 2017, you may no longer recharacterize a conversion to a Roth IRA. It is still permissible to recharacterize a contribution made to a Roth IRA as a traditional IRA contribution, or a contribution to a traditional IRA as a Roth IRA contribution. Such recharacterization must be completed by the applicable tax return due date (with extensions).

Once an Annuity has been purchased, regular Roth IRA contributions will be accepted to the extent permitted by law. In addition, an individual receiving an eligible rollover distribution from a designated Roth account under an employer plan may roll over the distribution to a Roth IRA even if the individual is not eligible to make regular contributions to a Roth IRA. Non-spouse Beneficiaries receiving a distribution from an employer sponsored retirement plan under Sections 401(a) or 403(b) of the Code can also directly roll over contributions to a Roth IRA. However, it is our understanding of the Code that non-spouse Beneficiaries cannot “rollover” benefits from a traditional IRA to a Roth IRA.

**TDAs.** In general, you may own a Tax Deferred Annuity (also known as a TDA, Tax Sheltered Annuity (TSA), 403(b) plan or 403(b) Annuity) if you are an employee of a tax-exempt organization (as defined under Code Section 501(c)(3)) or a public educational organization, and you may make contributions to a TDA so long as your employer maintains such a plan and your rights to the Annuity are non-forfeitable. Contributions to a TDA, and any earnings, are not taxable until distribution. You may also make contributions to a TDA under a salary reduction agreement, generally up to a maximum of $19,500 in 2020. Individuals participating in a TDA who are age 50 or above by the end of the year will be permitted to contribute an additional $6,500 in 2020. This amount is indexed for inflation. Further, you may roll over TDA amounts to another TDA or an IRA. You may also roll over TDA amounts to a qualified retirement plan, a SEP and a governmental 457(b) plan. An Annuity may generally only qualify as a TDA if distributions of salary deferrals (other than “grandfathered” amounts held as of December 31, 1988) may be made only on account of:

- Your attainment of age 59½;
- Your severance of employment;
- Your death;
- Your total and permanent disability; or
- Hardship (under limited circumstances, and only related to salary deferrals, not including earnings attributable to these amounts).

In any event, you must begin receiving distributions from your TDA by April 1st of the calendar year after the calendar year you turn age 70½ (or age 72, for distributions required to be made after December 31, 2019, with respect to individuals who attain age 701/2 after such date) or retire, whichever is later. These distribution limits do not apply either to transfers or exchanges of investments under the Annuity, or to any “direct transfer” of your interest in the Annuity to another employer’s TDA plan or mutual fund “custodial account” described under Code Section 403(b)(7). Employer contributions to TDAs are subject to the same general contribution, nondiscrimination, and minimum participation rules applicable to “qualified” retirement plans.

**Caution:** Under IRS regulations we can accept contributions, transfers and rollovers only if we have entered into an information-sharing agreement, or its functional equivalent, with the applicable employer or its agent. In addition, in order to comply with the regulations, we will only process certain transactions (e.g., transfers, withdrawals, hardship distributions and, if applicable, loans) with employer approval. This means that if you request one of these transactions we will not consider your request to be in Good Order, and will not therefore process the transaction, until we receive the employer’s approval in written or electronic form.

**Late Rollover Self-Certification**

You may be able to apply a rollover contribution to your IRA or qualified retirement plan after the 60-day deadline through a self-certification procedure established by the IRS. Please consult your tax or legal adviser regarding your eligibility to use this self-certification procedure. As indicated in this IRS guidance, we, as a financial institution, are not required to accept your self-certification for waiver of the 60-day deadline.

**Required Minimum Distributions and Payment Options**

If you hold the Annuity under an IRA (or other tax-favored plan), Required Minimum Distribution rules must be satisfied. This means that generally payments must start by April 1 of the year after the year you reach age 70½ (or age 72, for distributions required to be made after December 31, 2019, with respect to individuals who attain age 701/2 after such date) and must be made for each year thereafter. For a TDA or a 401(a) plan for which the participant is not a greater than 5% Owner of the employer, this required beginning date can generally be deferred to retirement, if later. Roth IRAs are not subject to these rules during the Owner’s lifetime. The amount of the payment must at least equal the minimum required under the IRS rules. Several choices are available for calculating the minimum amount. More information on the mechanics of this calculation is available on request. Please contact us at a reasonable time before the IRS deadline so that a timely distribution is made. Please note that there is a 50%
tax penalty on the amount of any required minimum distribution not made in a timely manner. Required Minimum Distributions are calculated based on the sum of the Account Value and the actuarial value of any additional living and death benefits from optional riders that you have purchased under the Annuity. As a result, the Required Minimum Distributions may be larger than if the calculation were based on the Account Value only, which may in turn result in an earlier (but not before the required beginning date) distribution of amounts under the Annuity and an increased amount of taxable income distributed to the Annuity Owner, and a reduction of payments under the living and death benefit optional riders.

You can use the Minimum Distribution option to satisfy the Required Minimum Distribution rules for an Annuity without either beginning annuity payments or surrendering the Annuity. We will distribute to you the Required Minimum Distribution amount, less any other partial withdrawals that you made during the year. Such amount will be based on the value of the Annuity as of December 31 of the prior year, but is determined without regard to other annuities you may own. If a trustee to trustee transfer or direct rollover of the full contract value is requested when there is an active Required Minimum Distribution program running, the Required Minimum Distribution will be removed and sent to the Owner prior to the remaining funds being sent to the transfer institution.

Although the IRS rules determine the required amount to be distributed from your IRA each year, certain payment alternatives are still available to you. If you own more than one IRA, you can choose to satisfy your minimum distribution requirement for each of your IRAs by withdrawing that amount from any of your IRAs. If you inherit more than one IRA or more than one Roth IRA from the same Owner, similar rules apply.

Charitable IRA Distributions.

Certain qualified IRA distributions used for charitable purposes are eligible for an exclusion from gross income, up to $100,000, for otherwise taxable IRA distributions from a traditional or Roth IRA. A qualified charitable distribution is a distribution that is made (1) directly by the IRA trustee to certain qualified charitable organizations and (2) on or after the date the IRA owner attains age 70½ (or age 72, for distributions required to be made after December 31, 2019, with respect to individuals who attain age 701/2 after such date). Distributions that are excluded from income under this provision are not taken into account in determining the individual’s deductions, if any, for charitable contributions. For tax years after December 31, 2019, the exclusion for qualified charitable distributions may be reduced (but not below zero) by an amount equal to the excess of: (1) your IRA deductions for all tax years on or after the date you attain age 701/2; over (2) all reductions to the exclusion based on post-701/2 IRA deductions for all tax years before the current tax year.

The IRS has indicated that an IRA trustee is not responsible for determining whether a distribution to a charity is one that satisfies the requirements of the charitable giving incentive. Consistent with the applicable IRS instructions, we report these distributions as normal IRA distributions on Form 1099-R. Individuals are responsible for reflecting the distributions as charitable IRA distributions on their personal tax returns.

Required Distributions Upon Your Death for a Qualified Annuity

Upon your death under an IRA, Roth IRA, 403(b) or other employer sponsored plan, any remaining interest must be distributed in accordance with federal income tax requirements. The post-death distribution requirements were amended, applicable generally with respect to deaths occurring after 2019, by the Further Consolidated Appropriations Act of 2020 (which includes the “Setting Every Community Up for Retirement Enhancement” Act (SECURE Act)). The post-death distribution requirements under prior law continue to apply in certain circumstances.

- Prior law. Under prior law, if an employee under an employer sponsored plan or IRA owner dies prior to the required beginning date, the remaining interest must be distributed (1) within 5 years after the death (the “5-year rule”), or (2) over the life of the designated beneficiary, or over a period not extending beyond the life expectancy of the designated beneficiary, provided that such distributions commence within one year after death (the “lifetime payout rule”). If the employee or IRA owner dies on or after the required beginning date (including after the date distributions have commenced in the form of an annuity), the remaining interest must be distributed at least as rapidly as under the method of distribution being used as of the date of death (the “at-least-as-rapidly rule”).

- The new law. Under the new law, if you die after 2019, and you have a designated beneficiary, any remaining interest must be distributed within 10 years after your death, unless the designated beneficiary is an “eligible designated beneficiary” (“EDB”) or some other exception applies. A designated beneficiary is any individual designated as a beneficiary by the employee or IRA owner. An EDB is any designated beneficiary who is (1) your surviving spouse, (2) your minor child, (3) disabled, (4) chronically ill, or (5) an individual not more than 10 years younger than you. An individual’s status as an EDB is determined on the date of your death.

This 10-year post-death distribution period applies regardless of whether you die before your required beginning date, or you die on or after that date (including after distributions have commenced in the form of an annuity). However, if the beneficiary is an EDB and the EDB dies before the entire interest is distributed under this 10-year rule, the remaining interest must be distributed within 10 years after the EDB’s death (i.e., a new 10-year distribution period begins).

Instead of taking distributions under the new 10-year rule, an EDB can stretch distributions over life, or over a period not extending beyond life expectancy, provided that such distributions commence within one year of your death, subject to certain special rules. In particular, if the EDB dies before the remaining interest is distributed under this stretch rule, the remaining interest must be distributed within 10 years after the EDB’s death (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years). In addition, if your minor child is an EDB, the child will cease to be an EDB on the date the child reaches the age of majority, and any remaining interest must be distributed within 10 years after that date (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years).
The new law applies if you die after 2019, subject to several exceptions. In particular, if you are an employee under a governmental plan, such as a section 403(b) plan of a public school or a governmental 457(b) plan, the new law applies if you die after 2021. In addition, if your plan is maintained pursuant to one or more collective bargaining agreements, the new law generally applies if you die after 2021 (unless the collective bargaining agreements terminate earlier).

It is important to note that under prior law, annuity payments that commenced under a method that satisfied the distribution requirements while the employee or IRA owner was alive could continue to be made under that method after the death of the employee or IRA owner. However, under the new law, if you commence taking distributions in the form of an annuity that can continue after your death, such as in the form of a joint and survivor annuity or an annuity with a guaranteed period of more than 10 years, any distributions after your death that are scheduled to be made beyond the applicable distribution period imposed under the new law might need to be commuted at the end of that period (or otherwise modified after your death if permitted under federal tax law and by Prudential) in order to comply with the new post-death distribution requirements.

The new post-death distribution requirements do not apply if annuity payments that comply with prior law commenced prior to December 20, 2019. Also, even if annuity payments have not commenced prior to December 20, 2019, the new requirements generally do not apply to an immediate annuity contract or a deferred income annuity contract (including a qualifying lifetime annuity contract, or “QLAC”) purchased prior to that date, if you have made an irrevocable election before that date as to the method and amount of the annuity.

If your beneficiary is not an individual, such as a charity, your estate, or a trust, any remaining interest after your death generally must be distributed under prior law in accordance with the 5-year rule or the at-least-as-rapidly rule, as applicable (but not the lifetime payout rule). However, if your beneficiary is a trust and all the beneficiaries of the trust are individuals, the new law can apply pursuant to special rules that treat the beneficiaries of the trust as designated beneficiaries, including special rules allowing a beneficiary of a trust who is disabled or chronically ill to stretch the distribution of their interest over their life or life expectancy in some cases. You may wish to consult a professional tax advisor about the federal income tax consequences of your beneficiary designations.

In addition, the new post-death distribution requirements generally do not apply if the employee or IRA owner died prior to January 1, 2020. However, if the designated beneficiary of the deceased employee or IRA owner dies after January 1, 2020, any remaining interest must be distributed within 10 years of the designated beneficiary’s death. Hence, this 10-year rule will apply to (1) a contract issued prior to 2020 which continues to be held by a designated beneficiary of an employee or IRA owner who died prior to 2020, and (2) an inherited IRA issued after 2019 to the designated beneficiary of an employee or IRA owner who died prior to 2020.

- **Spousal continuation.** Under the new law, as under prior law, if your beneficiary is your spouse, your surviving spouse can delay the application of the post-death distribution requirements until after your surviving spouse’s death by transferring the remaining interest tax-free to your surviving spouse’s own IRA, or by treating your IRA as your surviving spouse’s own IRA.

The post-death distribution requirements are complex and unclear in numerous respects. In addition, the manner in which these requirements will apply will depend on your particular facts and circumstances. You may wish to consult a professional tax adviser for tax advice as to your particular situation.

**Tax Penalty for Early Withdrawals from a Qualified Annuity** You may owe a 10% tax penalty on the taxable part of distributions received from an IRA, SEP, Roth IRA, TDA or qualified retirement plan before you attain age 59½. Amounts are not subject to this tax penalty if:

- the amount is paid on or after you reach age 59½ or die;
- the amount received is attributable to your becoming disabled; or
- generally, the amount paid or received is in the form of substantially equal payments (as defined in the Code) not less frequently than annually. (Please note that substantially equal payments must continue until the later of reaching age 59½ or 5 years. Modification of payments or additional contributions to the Annuity during that time period will result in retroactive application of the 10% tax penalty.)

Other exceptions to this tax may apply. You should consult your tax adviser for further details.

**Withholding**

We will withhold federal income tax at the rate of 20% for any eligible rollover distribution paid by us to or for a plan participant, unless such distribution is “directly” rolled over (trustee to trustee transfer) into another qualified plan, IRA (including the IRA variations described above), SEP, governmental 457(b) plan or TDA. An eligible rollover distribution is defined under the tax law as a distribution from an employer plan under 401(a), a TDA, an IRA or a governmental 457(b) plan, excluding any distribution that is part of a series of substantially equal payments (at least annually) made over the life expectancy of the employee or the joint life expectancies of the employee and his designated Beneficiary, any distribution made for a specified period of 10 years or more, any distribution that is a required minimum distribution and any hardship distribution. Regulations also specify certain other items which are not considered eligible rollover distributions. We will not withhold for payments made from trustee owned Annuities or for payments under a 457 plan. For all other distributions, unless you elect otherwise, we will withhold federal income tax from the taxable portion of such distribution at an appropriate percentage. The rate of withholding on annuity payments where no mandatory withholding is required is determined on the basis of the withholding certificate that you file with us. If you do not file a certificate, we will automatically withhold federal taxes on the following basis:
• For any annuity payments not subject to mandatory withholding, you will have taxes withheld by us as if you are a married individual, with 3 exemptions

• If no U.S. taxpayer identification number is provided, we will automatically withhold using the back-up withholding rules; and

• For all other distributions, we will withhold at a 10% rate.

We will provide you with forms and instructions concerning the right to elect that no amount be withheld from payments in the ordinary course. However, you should know that, in any event, you are liable for payment of federal income taxes on the taxable portion of the distributions, and you should consult with your tax adviser to find out more information on your potential liability if you fail to pay such taxes. If you are a U.S. person (which includes a resident alien), and you request a payment be made to a non-U.S. address, we are required to withhold income tax. There may be additional state income tax withholding requirements.

ERISA Requirements

If you are married at the time your payments commence, you may be required by federal law to choose an income option that provides survivor annuity income to your spouse, unless your spouse waives that right. Similarly, if you are married at the time of your death, federal law may require all or a portion of the Death Benefit to be paid to your spouse, even if you designated someone else as your Beneficiary. A brief explanation of the applicable rules follows. For more information, consult the terms of your retirement arrangement.

Defined Benefit Plans and Money Purchase Pension Plans. If you are married at the time your payments commence, federal law requires that benefits be paid to you in the form of a “qualified joint and survivor annuity” (QJSA), unless you and your spouse waive that right, in writing. Generally, this means that you will receive a reduced payment during your life and, upon your death, your spouse will receive at least one-half of what you were receiving for life. You may elect to receive another income option if your spouse consents to the election and waives his or her right to receive the QJSA. If your spouse consents to the alternative form of payment, your spouse may not receive any benefits from the plan upon your death. Federal law also requires that the plan pay a Death Benefit to your spouse if you are married and die before you begin receiving your benefit. This benefit must be available in the form of an Annuity for your spouse’s lifetime and is called a “qualified pre-retirement survivor annuity” (QPSA). If the plan pays Death Benefits to other Beneficiaries, you may elect to have a Beneficiary other than your spouse receive the Death Benefit, but only if your spouse consents to the election and waives his or her right to receive the QPSA. If your spouse consents to the alternate Beneficiary, your spouse will receive no benefits from the plan upon your death. Any QPSA waiver prior to your attaining age 35 will become null and void on the first day of the calendar year in which you attain age 35, if still employed.

Defined Contribution Plans (including 401(k) Plans and ERISA 403(b) Annuity). Spousal consent to a distribution is generally not required. Upon your death, your spouse will receive the entire Death Benefit, even if you designated someone else as your Beneficiary, unless your spouse consents in writing to waive this right. Also, if you are married and elect an Annuity as a periodic income option, federal law requires that you receive a QJSA (as described above), unless you and your spouse consent to waive this right.

IRAs, non-ERISA 403(b) Annuity, and 457 Plans. Spousal consent to a distribution usually is not required. Upon your death, any Death Benefit will be paid to your designated Beneficiary.

ADDITIONAL CONSIDERATIONS

Reporting and Withholding for Escheated Amounts

In 2018, the Internal Revenue Service issued Revenue Ruling 2018-17, which provides that an amount transferred from an IRA to a state’s unclaimed property fund is subject to federal withholding at the time of transfer. The amount transferred is also subject to federal reporting. Consistent with this Ruling and Notice 2018-90, beginning in 2020, we will withhold federal and state income taxes and report to the applicable Owner or Beneficiary as required by law when amounts are transferred to a state’s unclaimed property fund.

Gifts and Generation-skipping Transfers

If you transfer your Annuity to another person for less than adequate consideration, there may be gift tax consequences in addition to income tax consequences. Also, if you transfer your Annuity to a person two or more generations younger than you (such as a grandchild or grandniece) or to a person that is more than 37½ years younger than you, there may be generation-skipping transfer tax consequences.

Same Sex Marriages, Civil Unions and Domestic Partnerships

Prior to a 2013 Supreme Court decision, and consistent with Section 3 of the federal Defense of Marriage Act (“DOMA”), same sex marriages under state law were not recognized as same sex marriages for purposes of federal law. However, in United States v. Windsor, the U.S. Supreme Court struck down Section 3 of DOMA as unconstitutional, thereby recognizing a valid same sex marriage for federal law purposes. On June 26, 2015, the Supreme Court ruled in Obergefell v. Hodges that same-sex couples have a constitutional right to marry, thus requiring all states to allow same-sex marriage. The Windsor and Obergefell decisions mean that the federal and state tax law provisions applicable to an opposite sex spouse will also apply to a same sex spouse if legally married. Please note that a civil union or registered domestic partnership is generally not recognized as a marriage.

Please consult with your tax or legal adviser before electing the Spousal Benefit for a civil union partner or domestic partner.
Reserved Rights

In addition to rights specifically reserved elsewhere in this Annuity, we reserve the right to perform any or all of the following: (a) combine Variable Subaccount with other Variable Subaccounts; (b) combine the Variable Separate Account(s) shown in the Annuity Schedule with other "unitized" separate accounts; (c) combine the Index Strategies Separate Account with other "non-unitized," "non-insulated" separate accounts; (d) deregister the Variable Separate Account(s) shown in the Annuity Schedule under the Investment Company Act; (e) operate the Variable Separate Account(s) shown in the Annuity Schedule as a management investment company under the Investment Company Act or in any other form permitted by law; (f) make changes required by any change in the federal securities laws, including, but not limited to, the Securities Act, the Exchange Act, the Investment Company Act, or any changes to the Securities and Exchange Commission’s interpretation thereof; (g) make changes that are necessary to maintain the tax status of your Annuity, any rider, amendment or endorsement attached hereto or any charge or distribution from your Annuity under the Code; (h) to establish a provision for federal income taxes if we determine, in our sole discretion, that we will incur a tax as a result of the operation of the Separate Account; (i) make any changes required by Federal or state laws with respect to annuity contracts; and (j) to the extent dictated by any underlying mutual fund, impose a redemption fee or restrict transactions within any Variable Subaccount. We reserve the right to modify this Annuity without receiving your prior consent, except as may be required by any applicable law, if we are required to make changes necessary to comply with state regulatory requirements, Internal Revenue Service ("IRS") requirements or other federal requirements.

We may eliminate Variable Subaccounts, restrict or prohibit additional allocations to certain Variable Subaccounts, or substitute one or more new underlying mutual funds or Portfolios for the one in which a Variable Subaccount is invested in which case any reference to pro-rata allocations would include only those Variable Subaccounts that do not restrict or prohibit additional allocations. Substitutions may be necessary if we believe an underlying mutual fund or portfolio no longer suits the purpose of the Annuity. This may happen due to a change in laws or regulations, or a change in the investment objectives or restrictions of an underlying mutual fund or portfolio, or because the underlying mutual fund or portfolio is no longer available for investment, or for any other reason. We would obtain any regulatory prior approval. If an Index is no longer available to us, or if the manner by which the Index is determined substantially changes, we will substitute a comparable Index. We would obtain any required regulatory prior approval.

We will notify you and any assignee of the substitution.

Claims of Creditors

To the extent permitted by law, no payment or value under this Annuity is subject to the claims of your creditors or those of any other Owner, any Annuitant, or any Beneficiary.

Deferral of Transactions

We may defer any annuity payment for a period not to exceed the lesser of 6 months or the period permitted by law. If we defer a distribution or transfer from any annuity payout for more than thirty days, we will pay interest as required by state law. We may defer any distribution from any Allocation Option or any transfer from Allocation Options for a period not to exceed seven calendar days from the date the transaction is effected.

Facility of Payment

Subject to applicable law, we reserve the right, in settlement of full liability, to make payments to a guardian, conservator or other legal representative if a payee is legally incompetent.

Tax Reporting and Withholding

Events giving rise to such tax reporting and withholding include, but are not limited to: (a) annuity payments; (b) payment of Death Benefits; (c) other distributions from the Annuity; and (d) transfers and assignments.

Service Providers

Prudential Annuities conducts the bulk of its operations through staff employed by it or by affiliated companies within the Prudential Financial family. Certain discrete functions have been delegated to non-affiliates that could be deemed “service providers” under the Investment Company Act of 1940. The entities engaged by Prudential Annuities may change over time. As of December 31, 2019, non-affiliated entities that could be deemed service providers to Prudential Annuities and/or an affiliated insurer within the Prudential Annuities business unit consisted of those set forth in the table below.

**Cyber Security Risks.** We provide information about cyber security risks associated with the Annuity in the Statement of Additional Information.

**WHAT IS THE LEGAL STRUCTURE OF THE PORTFOLIOS?**

Each underlying Portfolio is registered as an open-end management investment company, or series thereof, under the Investment Company Act. Shares of the underlying Portfolios are sold to separate accounts of life insurance companies offering variable annuity and variable life insurance products. The shares may also be sold directly to qualified pension and retirement plans.

**Voting Rights**

We are the legal owner of the shares of the underlying Portfolios in which the Subaccounts invest. However, under current SEC rules, you have voting rights in relation to Account Value allocated to the Subaccounts. If an underlying Portfolio requests a vote of shareholders, we will vote our shares based on instructions received from Owners with Account Value allocated to that Subaccount. Owners have the right to vote an amount equal to the number of shares attributable to their contracts. If we do not receive voting instructions in relation to certain shares, we will vote those shares in the same manner and proportion as the shares for which we have received instructions. This voting procedure is sometimes referred to as “mirror voting” because, as indicated in the immediately preceding sentence, we mirror the votes that are actually cast, rather than decide on our own how to vote. We will also “mirror vote” shares that are owned directly by us or an affiliate (excluding shares held in the separate account of an affiliated insurer). In addition, because all the shares of a given Portfolio held within our Separate Account are legally owned by us, we intend to vote all of such shares when that underlying Portfolio seeks a vote of its shareholders. As such, all such shares will be counted towards whether there is a quorum at the underlying Portfolio’s shareholder meeting and toward the ultimate outcome of the vote. Thus, under “mirror voting”, it is possible that the votes of a small percentage of Owners who actually vote will determine the ultimate outcome.

We may, if required by state insurance regulations, disregard voting instructions if they would require shares to be voted so as to cause a change in the sub-classification or investment objectives of one or more of the available Variable Investment Subaccounts or to approve or disapprove an investment advisory contract for a Portfolio. In addition, we may disregard voting instructions that would require changes in the investment policy or investment adviser of one or more of the Portfolios associated with the available Variable Investment Subaccounts, provided that we reasonably disapprove such changes in accordance with applicable federal or state regulations. If we disregard Owner voting instructions, we will advise Owners of our action and the reasons for such action in the next available annual or semi-annual report.

We will furnish those Owners who have Account Value allocated to a Subaccount whose underlying Portfolio has requested a “proxy” vote with proxy materials and the necessary forms to provide us with their voting instructions. Generally, you will be asked to provide instructions for us to vote on matters such as changes in a fundamental investment strategy, adoption of a new investment advisory agreement, or matters relating to the structure of the underlying Portfolio that require a vote of shareholders. We reserve the right to change the voting procedures described above if applicable SEC rules change.

**Material Conflicts**

In the future, it may become disadvantageous for separate accounts of variable life insurance and variable annuity contracts to invest in the same underlying Portfolios. Neither the companies that invest in the Portfolios nor the Portfolios currently foresee any such disadvantage. The Board of Directors for each Portfolio intends to monitor events in order to identify any material conflict between variable life insurance policy owners and variable annuity contract owners and to determine what action, if any, should be taken. Material conflicts could result from such things as:

1. changes in state insurance law;
2. changes in federal income tax law;
3. changes in the investment management of any Variable Investment Subaccount; or
4. differences between voting instructions given by variable life insurance policy owners and variable annuity contract owners.
Fees and Payments Received by Prudential Annuities

As detailed below, Prudential Annuities and our affiliates receive substantial payments from the underlying Portfolios and/or related entities, such as the Portfolios’ advisers and subadvisers. Because these fees and payments are made to Prudential Annuities and our affiliates, allocations you make to the underlying Portfolios benefit us financially. In selecting Portfolios available under the Annuity, we consider the payments that will be made to us. For more information on factors we consider when selecting the Portfolios under the Annuity, see “Variable Investment Subaccounts” under “Investment Options” earlier in this prospectus.

We receive Rule 12b-1 fees which compensate our affiliate, Prudential Annuities Distributors, Inc., for distribution and administrative services (including recordkeeping services and the mailing of prospectuses and reports to Owners invested in the Portfolios). These fees are paid by the underlying Portfolio out of each Portfolio’s assets and are therefore borne by Owners.

We also receive administrative services payments from the Portfolios or the advisers of the underlying Portfolios or their affiliates. The maximum combined 12b-1 fees and administrative services payments we receive with respect to a Portfolio are generally equal to an annual rate of 0.55% of the average assets allocated to the Portfolio under the Annuity (in certain cases, however, this amount may be equal to an annual rate of 0.60% of the average assets allocated to the Portfolio). We expect to make a profit on these fees and payments and consider them when selecting the Portfolios available under the Annuity.

In addition, an adviser or subadviser of a Portfolio or a distributor of the Annuity (not the Portfolios) may also compensate us by providing reimbursement, defraying the costs of, or paying directly for, among other things, marketing and/or administrative services and/or other services they provide in connection with the Annuity. These services may include, but are not limited to: sponsoring or co-sponsoring various promotional, educational or marketing meetings and seminars attended by distributors, wholesalers, and/or broker dealer firms’ registered representatives, and creating marketing material discussing the Annuity, available options, and underlying Portfolios. The amounts paid depend on the nature of the meetings, the number of meetings attended by the adviser, subadviser, or distributor, the number of participants and attendees at the meetings, the costs expected to be incurred, and the level of the adviser’s, subadviser’s or distributor’s participation. These payments or reimbursements may not be offered by all advisers, subadvisers, or distributors and the amounts of such payments may vary between and among each adviser, subadviser, and distributor depending on their respective participation.

We may also consider these payments and reimbursements when selecting the Portfolios available under the Annuity. For the annual period ended December 31, 2019, with regard to the total annual amounts that were paid (or as to which a payment amount was accrued) under the kinds of arrangements described in this paragraph, the amounts for any particular adviser, subadviser or distributor ranged from $25,000 to $836,969.00. These amounts relate to all individual variable annuity contracts issued by Prudential Annuities or its affiliates, not only the Annuity covered by this prospectus.

In addition to the payments that we receive from underlying Portfolios and/or their affiliates, those same Portfolios and/or their affiliates may make payments to us and/or other insurers within the Prudential Financial group related to the offering of investment options within variable annuity contracts or life insurance policies offered by different Prudential business units.

WHO DISTRIBUTES ANNUITY OFFERED BY PRUDENTIAL ANNUITIES?

Prudential Annuities Distributors, Inc. (PAD), a wholly-owned subsidiary of Prudential Annuities, Inc., is the distributor and principal underwriter of the Annuity offered through this prospectus. PAD acts as the distributor of a number of annuity and life insurance products and the AST Portfolios. PAD’s principal business address is One Corporate Drive, Shelton, Connecticut 06484. PAD is registered as a broker-dealer under the Exchange Act and is a member of the Financial Industry Regulatory Authority (FINRA).

The Annuity is offered on a continuous basis. PAD enters into distribution agreements with both affiliated and unaffiliated broker-dealers who are registered under the Exchange Act (“Firms”). Applications for the Annuity are solicited by registered representatives of those firms. PAD utilizes a network of its own registered representatives to wholesale the Annuity to Firms. Because the Annuity offered through this prospectus is an insurance product as well as a security, all registered representatives who sell the Annuity are also appointed as insurance agents of PALAC.

Prudential Annuities sells its annuity products through multiple distribution channels, including (1) independent broker-dealer firms and financial planners; (2) broker-dealers that are members of the New York Stock Exchange, including “wirehouse” and regional broker-dealer firms; and (3) broker-dealers affiliated with banks or that specialize in marketing to customers of banks. Although we are active in each of those distribution channels, the majority of our sales have come from the independent broker-dealer firms and financial planners.

Under the selling agreements, cash compensation in the form of commissions is paid to firms on sales of the Annuity according to one or more schedules. The registered representative will receive a portion of the compensation, depending on the practice of his or her firm. Commissions are generally based on a percentage of Purchase Payments made. Alternative compensation schedules are available that generally provide a lower initial commission plus ongoing quarterly compensation based on all or a portion of the Account Value. We may also provide cash compensation to the distributing firm for providing ongoing service to you in relation to your Annuity. These payments may be made in the form of percentage payments based upon “Assets under Management” or “AUM,” (total assets), subject to certain criteria in certain Prudential Annuities products. These payments may also be made in the form of percentage payments based upon the total amount of money received as Purchase Payments under Prudential Annuities annuity products sold through the firm. Commissions and other cash compensation paid in relation to your Annuity do not result in any additional charge to you or to the Separate Account.

In connection with the sale and servicing of the Annuity, Firms may receive cash compensation and/or non-cash compensation. Cash compensation includes discounts, concessions, fees, service fees, commissions, asset based sales charges, loans, overrides, or any cash employee benefit received in connection with the sale and distribution of variable contracts. Non-cash compensation includes any form of compensation received in connection...
with the sale and distribution of variable contracts that is not cash compensation, including but not limited to merchandise, gifts, travel expenses, meals and lodging.

We may also provide cash compensation to the distributing Firm for providing ongoing service to you in relation to the Annuity. These payments may be made in the form of percentage payments based upon “Assets under Management” or “AUM,” (total assets), subject to certain criteria in certain PALAC products. These payments may also be made in the form of percentage payments based upon the total amount of money received as Purchase Payments under PALAC annuity products sold through the Firm.

In addition, in an effort to promote the sale of our products (which may include the placement of PALAC and/or the Annuity on a preferred or recommended company or product list and/or access to the Firm's registered representatives), we, or PAD, may enter into non-cash compensation arrangements with certain Firms with respect to certain or all registered representatives of such Firms under which such Firms may receive fixed payments or reimbursement. These types of fixed payments are made directly to or in sponsorship of the Firm and may include, but are not limited to payment for: training of sales personnel; marketing and/or administrative services and/or other services they provide to us or our affiliates; educating customers of the firm on the Annuity’s features; conducting due diligence and analysis; providing office access, operations, systems and other support; holding seminars intended to educate registered representatives and make them more knowledgeable about the Annuities; conferences (national, regional and top producer); sponsorships; speaker fees; promotional items; a dedicated marketing coordinator; priority sales desk support; expedited marketing compliance approval and preferred programs to PAD; and reimbursements to Firms for marketing activities or other services provided by third-party vendors to the Firms and/or their registered representatives. To the extent permitted by FINRA rules and other applicable laws and regulations, we or PAD may also pay or allow other promotional incentives or payments in other forms of non-cash compensation (e.g., gifts, occasional meals and entertainment, sponsorship of due diligence events). Under certain circumstances, Portfolio advisers/subadvisers or other organizations with which we do business (“Entities”) may also receive incidental non-cash compensation, such as occasional meals and nominal gifts. The amount of this non-cash compensation varies widely because some may encompass only a single event, such as a conference, and others have a much broader scope.

Cash and/or non-cash compensation may not be offered to all Firms and Entities and the terms of such compensation may differ between Firms and Entities. In addition, we or our affiliates may provide such compensation, payments and/or incentives to Firms or Entities arising out of the marketing, sale and/or servicing of variable annuities or life insurance offered by different Prudential business units.

A list of the firms to whom Prudential Annuities pays an amount under these arrangements is provided below. You should note that firms and individual registered representatives and branch managers within some firms participating in one of these compensation arrangements might receive greater compensation for selling the Annuity than for selling a different annuity that is not eligible for these compensation arrangements. While compensation is generally taken into account as an expense in considering the charges applicable to an annuity product, any such compensation will be paid by us or PAD and will not result in any additional charge to you. Your registered representative can provide you with more information about the compensation arrangements that apply upon the sale of the Annuity. Further information about the firms that are part of these compensation arrangements appears in the Statement of Additional Information, which is available without charge upon request.

The list below includes the names of the firms that we are aware as of December 31, 2019 received cash compensation with respect to our annuity business during 2019 (or as to which a payment amount was accrued during 2019. The firms listed below include those receiving payments in connection with marketing of products issued by Prudential Annuities Life Assurance Corporation. During 2019, the least amount paid, and greatest amount paid, were $1.10 and $18,272,777.70, respectively.

Name of Firm:
HOW WILL I RECEIVE STATEMENTS AND REPORTS?

We send any statements and reports required by applicable law or regulation to you at your last known address of record. You should therefore give us prompt notice of any address change. We reserve the right, to the extent permitted by law and subject to your prior consent, to provide any prospectus, prospectus supplements, confirmations, statements and reports required by applicable law or regulation to you through our Internet Website at www.prudential.com or any other electronic means. We generally send a confirmation statement to you each time a financial transaction is made affecting Account Value, such as making additional Purchase Payments, transfers, exchanges or withdrawals. We may also send quarterly statements detailing the activity affecting your Annuity during the calendar quarter. We may confirm regularly scheduled transactions, including, but not limited to Systematic Withdrawals (including 72(t) and 72(q) payments and required minimum distributions) and electronic funds transfer in quarterly statements instead of confirming them immediately. You should review the information in these statements carefully. You may request additional reports or copies of reports previously sent. We reserve the right to charge up to $50 for each such additional or previously sent report. We will also send an annual report and a semi-annual report containing applicable financial statements for the Portfolios to Owners or, with your prior consent, make such documents available electronically through our Internet Website or other electronic means. Beginning on January 1, 2021, paper copies of the annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from us. Instead, the reports will be made available on our website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

HOW TO CONTACT US

Please communicate with us using the telephone number and addresses below for the purposes described. Failure to send mail to the proper address may result in a delay in our receiving and processing your request.

Prudential's Customer Service Team

Call our Customer Service Team at 1-888-PRU-2888 during normal business hours.

Internet

Access information about your Annuity through our website: www.prudential.com

Correspondence Sent by Regular Mail

Prudential Annuities Service Center

P.O. Box 7960

Philadelphia, PA 19176
Correspondence Sent by Overnight*, Certified or Registered Mail

Prudential Annuities Service Center
2101 Welsh Road
Dresher, PA 19025

*Please note that overnight correspondence sent through the United States Postal Service may be delivered to the P.O. Box listed above, which could delay receipt of your correspondence at our Service Center. Overnight mail sent through other methods (e.g. Federal Express, United Parcel Service) will be delivered to the address listed below.

Correspondence sent by regular mail to our Service Center should be sent to the address shown above. Your correspondence will be picked up at this address and then delivered to our Service Center. Your correspondence is not considered received by us until it is received at our Service Center. Where this Prospectus refers to the day when we receive a Purchase Payment, request, election, notice, transfer or any other transaction request from you, we mean the day on which that item (or the last requirement needed for us to process that item) arrives in complete and proper form at our Service Center or via the appropriate telephone or fax number if the item is a type we accept by those means. There are two main exceptions: if the item arrives at our Service Center (1) on a day that is not a business day, or (2) after the close of a business day, then, in each case, we are deemed to have received that item on the next business day.

You can obtain account information by calling our automated response system, and at www.prudential.com, our Internet Website. Our Customer Service representatives are also available during business hours to provide you with information about your account. You can request certain transactions through our telephone voice response system, our Internet Website or through a customer service representative. You can provide authorization for a third party, including your attorney-in-fact acting pursuant to a power of attorney or your Financial Professional, to access your account information and perform certain transactions on your account. You will need to complete a form provided by us which identifies those transactions that you wish to authorize via telephonic and electronic means and whether you wish to authorize a third party to perform any such transactions. Please note that unless you tell us otherwise, we deem that all transactions that are directed by your Financial Professional with respect to your Annuity have been authorized by you. We require that you or your representative provide proper identification before performing transactions over the telephone or through our Internet Website. This may include a Personal Identification Number (PIN) that will be provided to you upon issue of your Annuity or you may establish or change your PIN by calling our automated response system, www.prudential.com, our Internet Website. Any third party that you authorize to perform financial transactions on your account will be assigned a PIN for your account.

Transactions requested via telephone are recorded. To the extent permitted by law, we will not be responsible for any claims, loss, liability or expense in connection with a transaction requested by telephone or other electronic means if we acted on such transaction instructions after following reasonable procedures to identify those persons authorized to perform transactions on your Annuity using verification methods which may include a request for your Social Security number, PIN or other form of electronic identification. We may be liable for losses due to unauthorized or fraudulent instructions if we did not follow such procedures.

Prudential Annuities does not guarantee access to telephonic, facsimile, Internet or any other electronic information or that we will be able to accept transaction instructions via such means at all times. Regular and/or express mail will be the only means by which we will accept transaction instructions when telephonic, facsimile, Internet or any other electronic means are unavailable or delayed. Prudential Annuities reserves the right to limit, restrict or terminate telephonic, facsimile, Internet or any other electronic transaction privileges at any time.

INDEMNIFICATION

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, the registrant has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

LEGAL PROCEEDINGS

Litigation and Regulatory Matters

Prudential Annuities is subject to legal and regulatory actions in the ordinary course of our business. Pending legal and regulatory actions include proceedings specific to Prudential Annuities and proceedings generally applicable to business practices in the industry in which we operate. Prudential Annuities is subject to class action lawsuits and other litigation involving a variety of issues and allegations involving sales practices, claims payments and procedures, premium charges, policy servicing and breach of fiduciary duty to customers. Prudential Annuities is also subject to litigation arising out of its general business activities, such as its investments, contracts, leases and labor and employment relationships, including claims of discrimination and harassment, and could be exposed to claims or litigation concerning certain business or process patents. In addition, Prudential Annuities, along with other participants in the businesses in which it engages, may be subject from time to time to investigations, examinations and inquiries, in some cases industry-wide, concerning issues or matters upon which such regulators have determined to focus.

Prudential Annuities’ litigation and regulatory matters are subject to many uncertainties, and given their complexity and scope, their outcome cannot be predicted. In some of Prudential Annuities’ pending legal and regulatory actions, parties are seeking large and/or indeterminate amounts, including punitive or exemplary damages. It is possible that Prudential Annuities’ results of operations or cash flow in a particular quarterly or annual period could be materially affected by an ultimate unfavorable resolution of pending litigation and regulatory matters depending, in part, upon the results of operations or cash flow for such period. In light of the unpredictability of Prudential Annuities’ litigation and regulatory matters, it is also possible that
in certain cases an ultimate unfavorable resolution of one or more pending litigation or regulatory matters could have a material adverse effect on Prudential Annuities' financial position. Management believes, however, that, based on information currently known to it, the ultimate outcome of all pending litigation and regulatory matters, after consideration of applicable reserves and rights to indemnification, is not likely to have a material adverse effect on: the Separate Account; the ability of PAD to perform its contract with the Separate Account; or Prudential Annuities' ability to meet its obligations under the Contracts.

CONTENTS OF THE STATEMENT OF ADDITIONAL INFORMATION

The following are the contents of the Statement of Additional Information:

• Experts
• Principal Underwriter
• Payments Made to Promote Sale of Our Products
• Cyber Security Risks
• Determination of Accumulation Unit Values
• Financial Statements
APPENDIX A – INTERIM VALUE OF INDEX STRATEGIES

Below is additional information regarding the Interim Value calculation.

The Interim Value for an Index Strategy is equal to the sum of (1) and (2), not to exceed (3), where:

(1)  
Is the fair value of the Index Strategy Base on the Valuation Day the Interim Value is calculated. It is determined as (A - B) multiplied by \([(1 + C) \text{ divided by } (1 + D)]\), where:

A.  The Index Strategy Base on the Valuation Day the Interim Value is calculated;
B.  The fair value of the replicating portfolio of options under initial market conditions, with updated time to expiry;
C.  The Market Value Index Rate on the Index Strategy Start Date;
D.  The Market Value Index Rate on the Valuation Day the Interim Value is calculated; and
E.  The total days remaining in the Index Strategy Term divided by 365.

(2)  
Is the fair value of the replicating portfolio of options

(3)  
Is the pro-rata portion of the potential Index Credit as determined by F plus (F multiplied by G multiplied by H), where:

F.  The Index Strategy Base on the Valuation Day the Interim Value is calculated;
G.  The Index Strategy rate for the Index Strategy;

a.  If the Index Return is less than zero:

b.  The Index Strategy rate for an Index Strategy with a 100% Buffer is 0.

c.  The Index Strategy rate for all other strategies is equal to the minimum of [(Buffer multiplied by H) plus the Index Return] divided by H and zero.

d.  If the Index Return is greater than or equal to zero:

e.  The Index Strategy rate for a Point-to-Point with Cap Index Strategy is equal to the minimum of the Cap Rate and the Index Return.

f.  The Index Strategy rate for a Tiered Participation Rate Index Strategy is equal to the (Tier 1 Participation Rate multiplied by the minimum of the Index Return and the Tier Level) plus (Tier 2 Participation Rate multiplied by the maximum of the Index Return minus the Tier Level) and zero.

g.  The Index Strategy rate for a Step Rate Plus Index Strategy is equal to the maximum of the Step Rate and the Index Return multiplied by the Participation Rate.

H.  Total days elapsed in the Index Strategy Term divided by total days in the Index Strategy Term.

When we calculate the Interim Value, we obtain market data for derivative pricing each business day from outside vendors. If these values are available and we are delayed in receiving these values, and cannot calculate a new Interim Value, we will use the prior business day’s Interim Value.
APPENDIX B – IMPORTANT INFORMATION ABOUT THE INDICES

S&P 500®:

"The S&P 500 Index is a product of S&P Dow Jones Indices LLC ("SPDJI"), and has been licensed for use by Prudential Annuities Life Assurance Corporation. Standard & Poor’s®, S&P® and S&P 500® are registered trademarks of Standard & Poor’s Financial Services LLC ("S&P"); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"); and these trademarks have been licensed for use by SPDJI and sublicensed for certain purposes by Prudential Annuities Life Assurance Corporation. Prudential FlexGuard are not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices makes no representation or warranty, express or implied, to the owners of the Prudential FlexGuard or any member of the public regarding the advisability of investing in securities generally or in Prudential FlexGuard particularly or the ability of the S&P 500 Index to track general market performance. S&P Dow Jones Indices’ only relationship to Prudential Annuities Life Assurance Corporation with respect to the S&P 500 Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices or its licensors. The S&P 500 Index is determined, composed and calculated by S&P Dow Jones Indices without regard to Prudential Annuities Life Assurance Corporation or the Prudential FlexGuard. S&P Dow Jones Indices have no obligation to take the needs of Prudential Annuities Life Assurance Corporation or the owners of Prudential FlexGuard into consideration in determining, composing or calculating the S&P 500 Index. S&P Dow Jones Indices is not responsible for and has not participated in the determination of the prices, and amount of Prudential FlexGuard or in the determination or calculation of the equation by which Prudential FlexGuard is to be converted into cash, surrendered or redeemed, as the case may be. S&P Dow Jones Indices has no obligation or liability in connection with the administration, marketing or trading of Prudential FlexGuard. There is no assurance that investment products based on the S&P 500 Index will accurately track index performance or provide positive investment returns. S&P or Dow Jones Indices makes no representation or warranty, express or implied, to the owners of the Prudential FlexGuard or any member of the public regarding the advisability of investing in securities generally or in Prudential FlexGuard particularly or the ability of the S&P 500 Index to track general market performance. S&P Dow Jones Indices does not guarantee the adequacy, accuracy, timeliness and/or the completeness of the S&P 500 Index or any data related thereto or any communication, including but not limited to, oral or written communication (including electronic communications) with respect thereto. S&P Dow Jones Indices shall not be subject to any damages or liability for any errors, omissions, or delays therein. S&P Dow Jones Indices makes no express or implied warranties, and expressly disclaims all warranties, of merchantability or fitness for a particular purpose or use or as to results to be obtained by Prudential Annuities Life Assurance Corporation, owners of the Prudential FlexGuard, or any other person or entity from the use of the S&P 500 Index or with respect to any data related thereto. Without limiting any of the foregoing, in no event whatsoever shall S&P Dow Jones Indices be liable for any indirect, special, incidental, punitive, or consequential damages including but not limited to, loss of profits, trading losses, lost time or goodwill, even if they have been advised of the possibility of such damages, whether in contract, tort, strict liability, or otherwise. There are no third party beneficiaries of any agreements or arrangements between S&P Dow Jones Indices and Prudential Annuities Life Assurance Corporation, other than the licensors of S&P Dow Jones Indices."

MSCI EAFE:

"The Prudential FlexGuard is not sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"). APPENDIX C – NET INVESTMENT FACTOR

The net investment factor for a Valuation Period is (a) divided by (b), less (c), where:

(a) is the net result of:

1. the net asset value per share of the underlying mutual fund shares held by that Variable Subaccount at the end of the current Valuation Period plus the per share amount of any dividend or capital gain distribution declared and unpaid (accrued) by the underlying mutual fund, plus or minus
2. any per share charge or credit during the current Valuation Period as a provision for taxes attributable to the operation or maintenance of that Variable Subaccount.

(b) is the net result of:

1. the net asset value per share of the underlying mutual fund shares held by that Variable Subaccount at the end of the preceding Valuation Period plus the per share amount of any dividend or capital gain distribution declared and unpaid (accrued) by the underlying mutual fund, plus or minus
2. any per share charge or credit during the preceding Valuation Period as a provision for taxes attributable to the operation or maintenance of the Variable Subaccount.

(c) is the Insurance Charge and any applicable charge assessed against a Variable Subaccount for any Rider attached to this Annuity corresponding to the portion of the 365 day year (366 for a leap year) that is in the current Valuation Period.

We value the assets in the Variable Subaccount(s) at their fair market value in accordance with accepted accounting practices and applicable laws and regulations. The net investment factor may be greater than, equal to, or less than one.
APPENDIX D – SPECIAL CONTRACT PROVISIONS FOR ANNUITIES ISSUED IN CERTAIN STATES

Certain features of your Annuity may be different than the features described earlier in this prospectus, if your Annuity is issued in certain states described below. Further variations may arise in connection with additional state reviews.

This Disclosure Statement, the accompanying Financial Disclosure, and your IRA Endorsement contain important information about your IRA. Please read these documents carefully. For additional information please consult Internal Revenue Service Publications 590-A and 590-B, your Annuity, Prospectus, or any district office of the Internal Revenue Service.

Except where otherwise indicated or required by law, references to “you” or “your” in this Disclosure Statement shall be understood to mean the IRA owner or a surviving Spouse that elects to treat the Annuity as his or her own IRA.

Revocation
You (the IRA owner or a Designated Beneficiary under an inherited IRA that has transferred the IRA from another annuity provider or employer plan) may revoke your PALAC IRA for a refund within ten (10) days (or such other period as may be required by applicable law, after you receive it by mailing or delivering a written notice of cancellation to:

Prudential Annuities Life Assurance Corporation
Annuity Service Center
P.O. Box 7960
Philadelphia, PA 19125

For Overnight delivery:

Prudential Annuities Life Assurance Corporation
2101 Welsh Road
Dresher, PA 19025

The notice of cancellation shall be deemed mailed on the date of the postmark (or if sent by certified or registered mail, the date of certification or registration) if it is deposited in the mail in the United States in an envelope, or other appropriate wrapper, first class postage prepaid, properly addressed.

The amount of the refund will equal the greater of (1) a full refund of the Purchase Payment (without regard to sales commiss ions (if any), administrative expenses or fluctuations in market value) and (2) the current Account Value of the Annuity as of the Valuation Day the refund request is received at our Office (without regard to sales commissions (if any) or administrative expenses).

After ten (10) days (or such other period as may be required by applicable law), the terms of your right to cancel will revert to the terms of the Right to Cancel provision of your Annuity. Please refer to the Right to Cancel provision of your Annuity for additional information.

IRA Requirements
An IRA is a personal savings plan that lets you save for retirement on a tax-advantaged basis. All IRAs must meet certain requirements as set forth in the Internal Revenue Code (the “Code”). This IRA is an Individual Retirement Annuity established pursuant to Code Section 408(b). An individual retirement annuity must be issued in your name as the owner, and either you or your beneficiaries who survive you are the only ones who can receive the benefits or payments. An IRA must meet all the following requirements:

1. Your interest in the contract, and that of any Beneficiary following your death, must be nonforfeitable.
2. The contract must provide that you cannot transfer any portion of it to any person other than the issuer.
3. There must be flexible premiums so that if your compensation changes, your payment can also change.
4. The contract must provide that annual contributions cannot exceed the maximum provided by law.
5. If you attained age 70½ in 2019, distributions must begin by April 1 of 2020. For IRA owners who attain age 70 ½ after 2019, distributions must begin by April 1 of the following the year in which you reach age 72.

Eligibility
You are eligible to establish a traditional IRA if:

1. You (or, if you file a joint return, your spouse) received taxable compensation during the year, and
2. You were not age 70½ by the end of the year.
Beginning in 2020, there is no longer an age limitation regarding contributions to a traditional IRA as long as the earned income requirements are met. You can have a traditional IRA whether you are covered by any other retirement plan. However, you may not be able to deduct all of your contributions if you or your spouse is covered by an employer retirement plan. If both you and your spouse have compensation and are under the age of 72, each of you can set up an IRA. You cannot both participate in the same IRA.

Compensation includes wages, salaries, tips, professional fees, bonuses and other amounts received for professional services, and taxable alimony and separate maintenance payments. This includes any military differential pay you receive from your employer while you are serving on active duty for a period of more than 30 days. Compensation does not include earnings or profits from property (such as rental income, interest income, and dividend income), pension or annuity income, deferred compensation received, income from a partnership for which you do not provide services that are a material income producing factor, and any amounts you exclude from income, such as foreign earned income and housing costs.

**Contribution Limits**
The most that can be contributed to your traditional IRA is the smaller of 100% of your compensation (defined earlier) that you must include in income for the year, or the limits described in the following table:

<table>
<thead>
<tr>
<th>Year</th>
<th>Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020</td>
<td>$6,000*</td>
</tr>
</tbody>
</table>

* For tax years 2020 and thereafter the $6,000 contribution limit may be increased by cost of living adjustments (in $500 increments).

**Catch-up Contributions**
Individuals age 50 and older may make additional “catch-up” contributions to their traditional IRA. These “catch-up” contributions are in addition to the contribution limits listed above. The maximum “catch-up” contribution amounts are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

The $1,000 catch-up contribution for IRA owners age 50 or older is not indexed for inflation.

**Spousal IRA Contribution Limits**
If you file a joint return and your taxable compensation is less than that of your spouse, the most that can be contributed for the year to your IRA is the smaller of the IRA contribution amount described in the “IRA Contribution Limit” chart above, or the total compensation includable in the gross income of both you and your spouse for that year, reduced by your spouse’s IRA contribution for the year to a traditional IRA and any contributions for the year to a Roth IRA on behalf of your spouse.

**Simplified Employee Pension (SEP) Contributions**
A separate IRA may be established for use by your employer as part of a SEP arrangement. The SEP rules permit an employer to contribute to each participating employee’s SEP-IRA up to 25% of the employee’s compensation or $57,000 (for 2020, indexed annually for cost of living), whichever is less. The compensation taken in account is limited ($285,000 for 2020 indexed annually). These contributions are funded by the employer. Your employer may contribute to your SEP-IRA on your behalf even if you are age 72 or over, and even if you are covered under a qualified plan for the year. You can make contributions to your SEP-IRA independent of employer SEP contributions. You can deduct them the same way as contributions to a traditional IRA. However, your deduction may be reduced or eliminated because, as a participant in a SEP, you are covered by an employer retirement plan. It is up to you and your employer to ensure that contributions in excess of normal IRA limits are made under a valid SEP-IRA.

**Timing of Contributions**
Contributions can be made to your traditional IRA for a year at any time during the year or by the due date for filing your return for that year, not including extensions. You do not have to contribute to your traditional IRA every tax year, even if you can. You may use IRS forms to have part or
all of a tax refund directly deposited in your IRA assuming you are otherwise eligible to make a contribution at the time of the refund. In order for the refund to be attributed to the prior year, it must be received by the due date of your return, not including extensions.

**Deducting Contributions**
Generally, you can deduct the lesser of the contributions to your traditional IRA for the year, or the general limit (or the spousal IRA limit, if applicable). However, if you or your spouse were covered by an employer sponsored retirement plan, you may not be able to deduct your traditional IRA contributions.

If you or your spouse is an active participant in an employer plan during the year, the contribution to your traditional IRA (or your spouse’s traditional IRA) may not be deductible in whole or in part. If you are covered by a retirement plan at work, consult the table below to determine if your IRA contribution is deductible. If your modified adjusted gross income (AGI) is below the lower limit, your contribution is fully deductible. If your modified AGI falls between the lower and upper limits, your contribution will be only partially deductible. Your Modified AGI is your AGI as shown on your income tax return, plus traditional IRA deductions, student loan interest deductions, deductions for qualified tuition and related expenses, foreign earned income exclusions (if you file Form 1040), foreign housing exclusions or deductions (if you file Form 1040), exclusions of qualified bond interest shown on IRS Form 8815 and exclusions of employer-paid adoption expenses shown on IRS Form 8839.

<table>
<thead>
<tr>
<th>Year</th>
<th>Single</th>
<th>Married Filing Jointly (or Qualifying Widow(er)s)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lower Limit</td>
<td>Upper Limit</td>
</tr>
<tr>
<td>2020 and thereafter</td>
<td>$65,000</td>
<td>$75,000</td>
</tr>
</tbody>
</table>

If you are married and file a joint return and one spouse is an active participant in an employer sponsored retirement plan and the other spouse is not, a contribution to an IRA for the spouse that is not an active participant in an employer sponsored retirement plan will be fully deductible at modified AGI levels below $196,000. This deduction will be phased out at modified AGI levels between $196,000 and $206,000. If you are married filing separately, your deductible IRA contribution will be phased out between zero dollars and $10,000 of modified AGI.

**IRA Contribution Credit**
If you make eligible contributions to an employer-sponsored qualified retirement plan, an eligible deferred compensation plan, or an IRA, you may be able to take a tax credit. The amount of the credit you can get is based on the contributions you make and your credit rate. Your credit rate can be between 10% and 50%, depending on your adjusted gross income. The maximum contribution taken into account is $2,000 per taxpayer. On a joint return, up to $2,000 is taken into account for each spouse. You cannot claim the credit if you are under age 18, are a full-time student, someone else claims an exemption for you on their tax return or if your AGI is above the following limits:

- $65,000 if your filing status is married filing jointly,
- $48,750 if your filing status is head of household, or
- $32,500 if your filing status is either single, married filing separately, or qualifying widow(er) with a dependent child.

**Indexing**
The income limits for traditional IRAs and the savers credit for low-income contributions to retirement plans are indexed for inflation.

**Rollover Contributions**
Generally, a rollover is a tax-free distribution to you of cash or other assets from one retirement plan that you contribute to another retirement plan.

1. Rollovers from one IRA to the same or another IRA: You can withdraw, tax-free, all or part of the assets from one traditional IRA if you reinvest them in the same or another traditional IRA. The rollover must be completed within 60 days after the date you receive the distribution from the first IRA. For distributions made after December 31, 2001, the IRS may waive the 60-day requirement where the failure to do so would be against equity or good conscience, such as in the event of a casualty, disaster, or other event beyond your reasonable control. Generally, if you make a tax-free rollover of any part of a distribution from a traditional IRA, you cannot, within a 1-year period, make a tax-free rollover of any later distribution from the same IRA. You also cannot make a tax-free rollover of any amount distributed, within the same 1-year period, from the IRA into which you made the tax-free rollover. The 1-year period begins on the date you receive the IRA

This disclosure is not part of the Prospectus
distribution, not on the date you roll it over into an IRA. The Tax Court recently held that the 1-year period applies to all IRAs of the owner and not just the IRA from which the rollover was made. The IRS, in Ann. 2014-32, has indicated that all your IRAs, Roth IRAs, SEPs and SIMPLE IRAs will be counted for purposes of the one-year limit. The new rule is generally effective for distributions in 2015 but see Ann. 2014-32 for applicability to rollover distributions in 2014. The IRS, in Rev. Proc. 2016-47, allows for a self-certification procedure (which is subject to verification on audit) in order for you to claim eligibility for a waiver of the 60-day requirement with respect to a rollover into an IRA. Plan administrators and IRA trustees, custodians, or issuers may rely on such certification in accepting and reporting receipt of a rollover contribution. As indicated in this IRS guidance, we, as a financial institution, are not required to accept your self-certification for waiver of the 60-day deadline. Furthermore, the IRS may grant you a waiver of the 60-day requirement, with respect to a rollover into an IRA, upon examination of your income tax return.

Amounts that cannot be rolled over: Amounts that must be distributed each year under the required minimum distribution rules are not eligible for rollover. In addition, if you inherit a traditional IRA from someone other than your spouse, you cannot roll it over or allow it to receive a rollover contribution.

2. Rollovers from an employer retirement plan into an IRA: If you receive an eligible rollover distribution from your (or your deceased spouse's) employer's qualified pension, profit-sharing or stock bonus plan, annuity plan, tax sheltered annuity plan (403(b) plan), or governmental deferred compensation plan (governmental 457(b) plan), you can roll over all or part of it into a traditional IRA or a SIMPLE IRA that is at least two years old (the 60-day rule discussed above applies). In addition, you can roll over after-tax or nondeductible contributions from your qualified employer plan or 403(b) arrangement into a traditional IRA (such rollovers of after-tax contributions may only be done by a direct rollover from the distributing plan to the traditional IRA). Amounts that cannot be rolled over: Required minimum distributions; hardship distributions; a series of substantially equal periodic payments paid over your life or life expectancy, the life or life expectancy of you and your beneficiary or for a period of 10 years or more; corrective distributions of excess contributions or excess deferrals; loans treated as distributions (unless your benefit is reduced (offset) to repay the loan); dividends on employer securities; or, generally, distributions you receive as a Beneficiary, are not eligible to be rolled over.

Withholding: If an eligible rollover distribution is paid directly to you, the payor must withhold 20% of it. The amount withheld is part of the distribution. If you roll over less than the full amount of the distribution, you may have to include in your income the amount you do not roll over. However, you can make up the withheld amount with funds from other sources. To avoid withholding you can request a direct rollover from the payor.

3. Rollover from an IRA to an employer retirement plan: You can rollover tax-free a distribution from your traditional IRA made after 2001 into an employer’s qualified plan, 403(b) plan, or governmental 457(b) plan. The part of the distribution that you can roll over is the part that would otherwise be taxable (includeable in your income). Qualified plans may, but are not required to, accept such rollovers. Rules applicable to other rollovers, such as the 60-day rule apply.

4. Direct Rollovers to Non-Spouse Beneficiaries: Beginning in 2007 non-spouse beneficiaries may be permitted to roll death benefits to an IRA from a qualified retirement plan, a governmental 457(b) plan, a Section 403(b) TDA or an IRA. Such plans were not required to offer non-spouse rollovers but if they did the rollover had to be a direct trustee to IRA rollover. For plan years beginning after December 31, 2009, employer plans are required to be amended to permit such direct rollovers. The IRA receiving the death benefit must be titled and treated as an “inherited IRA”. The distributed amount must satisfy all of the requirements to be an eligible rollover distribution other than the requirement that the distribution be made to the participant or the participant’s spouse. Thus, annuity distributions, required minimum distributions, and installment payments over a specified period of ten or more years may not be rolled over. Required minimum distribution rules applicable non-spouse beneficiaries apply to the IRA.

Trustee to Trustee Transfers
A transfer of funds in your traditional IRA from one trustee directly to another is not a rollover. Because there is no distribution to you, the transfer is tax-free and not reportable. Because the transfer is not a rollover, it is not affected by the 1-year waiting period requirement discussed above in the section entitled, Rollover Contributions.

Distributions
You may request a distribution from your IRA at any time. However, distributions received prior to your attaining age 59½ may be subject to a 10% additional tax. Distributions subject to the 10% additional tax must be reported on IRS Form 5329.

This disclosure is not part of the Prospectus
Exceptions to Age 59½ Rule

If you receive a distribution prior to attaining age 59½, you may not have to pay the 10% additional tax if you meet one or more of the following:

• You have unreimbursed medical expenses that are more than 10% of your adjusted gross income.
• The distributions are not more than the cost of your medical insurance if you are unemployed and certain requirements are met.
• You are disabled within the meaning of Code Section 72(m)(7).
• You are the Beneficiary of a deceased IRA owner.
• You are receiving distributions that are part of a series of substantially equal periodic payments.
• The distributions are not more than your qualified higher education expenses for yourself or other qualified individual.
• You use the distributions to buy, build, or rebuild a first home (subject to a $10,000 lifetime limit).
• The distribution is due to an IRS levy of the qualified plan.
• The distribution is a qualified reservist distribution.
• You receive a qualified birth or adoption distribution that is no greater than $5,000 (on an individual basis) and such distribution is made during the 1-year period beginning on the date on which your child is born or legally adopted.

In addition, you generally can take a tax-free withdrawal of contributions if you do it before the due date for filing your tax return for the year in which you made them. You can do this if: (1) you did not take a deduction for the contribution; and (2) you withdraw any interest or other income earned on the contribution (you can take into account any loss on the contribution while it was in your IRA when calculating the amount that must be withdrawn). In this case, even if you are under 59½, the 10% additional tax may not apply.

Required Minimum Distributions

If you are the owner of a traditional IRA, and you attained age 70½ in 2019, distributions must begin by April 1 of 2020. For owners of a traditional IRA who attain age 70 ½ after 2019, you must start receiving distributions from your IRA by April 1 of the year following the year you reach age 72 (the “required beginning date”). After the year you reach age 70½ (or age 72 for distributions required to be made after December 31, 2019, with respect to individuals who attain age 70½ after such date), these Required Minimum Distributions are required by December 31 of each subsequent year. Required Minimum Distributions during your lifetime are generally calculated by dividing the value of your IRA as of the end of the year preceding the year for which the Required Minimum Distribution is being figured by a life expectancy factor found in Table III of IRS Publication 590-B. This table is often referred to as the Uniform Lifetime Table.

You may elect to have us calculate and distribute Required Minimum Distributions annually. We calculate such amounts assuming the Minimum Distribution amount is based solely on the value of your Annuity. The Required Minimum Distribution amounts applicable to you may depend on other annuities, savings or investments of which we are unaware. You may elect to have the Required Minimum Distribution paid out monthly, quarterly, semi-annually or annually. Required Minimum Distributions must be made in intervals of no longer than one year.

Upon your death, any remaining interest in your IRA must be distributed in accordance with federal income tax requirements. The post-death distribution requirements were amended, applicable generally with respect to deaths occurring after 2019, by the Further Consolidated Appropriations Act of 2020 (which includes the “Setting Every Community Up for Retirement Enhancement” Act (SECURE Act). The post-death distribution requirements under prior law continue to apply in certain circumstances.

• Prior law. Under prior law, if an IRA owner dies prior to the required beginning date, the remaining interest must be distributed (1) within 5 years after the death (the “5-year rule”), or (2) over the life of the designated beneficiary, or over a period not extending beyond the life expectancy of the designated beneficiary, provided that such distributions commence within one year after death (the “lifetime payout rule”). If the IRA owner dies on or after the required beginning date (including after the date distributions have commenced in the form of an annuity), the remaining interest must be distributed at least as rapidly as under the method of distribution being used as of the date of death (the “at-least-as-rapidly rule”).

• The new law. Under the new law, if you die after 2019, and you have a designated beneficiary, any remaining interest must be distributed within 10 years after your death, unless the designated beneficiary is an “eligible designated beneficiary” (“EDB”) or some other exception applies. A designated beneficiary is any individual designated as a beneficiary by the employee or IRA owner. An EDB is any designated beneficiary who is (1) your surviving spouse, (2) your minor child, (3) disabled, (4) chronically ill, or (5) an individual not more than 10 years younger than you. An individual’s status as an EDB is determined on the date of your death.
This 10-year post-death distribution period applies regardless of whether you die before your required beginning date, or you die on or after that date (including after distributions have commenced in the form of an annuity). However, if the beneficiary is an EDB and the EDB dies before the entire interest is distributed under this 10-year rule, the remaining interest must be distributed within 10 years after the EDB’s death (i.e., a new 10-year distribution period begins).

Instead of taking distributions under the new 10-year rule, an EDB can stretch distributions over life, or over a period not extending beyond life expectancy, provided that such distributions commence within one year of your death, subject to certain special rules. In particular, if the EDB dies before the remaining interest is distributed under this stretch rule, the remaining interest must be distributed within 10 years after the EDB’s death (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years). In addition, if your minor child is an EDB, the child will cease to be an EDB on the date the child reaches the age of majority, and any remaining interest must be distributed with 10 years after that date (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years).

The new law applies if you die after 2019. It is important to note that under prior law, annuity payments that commenced under a method that satisfied the distribution requirements while the IRA owner was alive could continue to be made under that method after the death of the IRA owner. However, under the new law, if you commence taking distributions in the form of an annuity that can continue after your death, such as in the form of a joint and survivor annuity or an annuity with a guaranteed period of more than 10 years, any distributions after your death that are scheduled to be made beyond the applicable distribution period imposed under the new law might need to be commuted at the end of that period (or otherwise modified after your death if permitted under federal tax law and by Prudential) in order to comply with the new post-death distribution requirements.

The new post-death distribution requirements do not apply if annuity payments that comply with prior law commenced prior to December 20, 2019. Also, even if annuity payments have not commenced prior to December 20, 2019, the new requirements generally do not apply to an immediate annuity contract or a deferred income annuity contract (including a qualifying lifetime annuity contract, or “QLAC”) purchased prior to that date, if you have made an irrevocable election before that date as to the method and amount of the annuity.

If your beneficiary is not an individual, such as a charity, your estate, or a trust, any remaining interest after your death generally must be distributed under prior law in accordance with the 5-year rule or the at-least-as-rapidly rule, as applicable (but not the lifetime payout rule). However, if your beneficiary is a trust and all the beneficiaries of the trust are individuals, the new law can apply pursuant to special rules that treat the beneficiaries of the trust as designated beneficiaries, including special rules allowing a beneficiary of a trust who is disabled or chronically ill to stretch the distribution of their interest over their life or life expectancy in some cases. You may wish to consult a professional tax advisor about the federal income tax consequences of your beneficiary designations.

In addition, the new post-death distribution requirements generally do not apply if the employee or IRA owner died prior to January 1, 2020. However, if the designated beneficiary of the deceased employee or IRA owner dies after January 1, 2020, any remaining interest must be distributed within 10 years of the designated beneficiary’s death. Hence, this 10-year rule will apply to (1) a contract issued prior to 2020 which continues to be held by a designated beneficiary of an employee or IRA owner who died prior to 2020, and (2) an inherited IRA issued after 2019 to the designated beneficiary of an employee or IRA owner who died prior to 2020.

- **Spousal continuation.** Under the new law, as under prior law, if your beneficiary is your spouse, your surviving spouse can delay the application of the post-death distribution requirements until after your surviving spouse’s death by transferring the remaining interest tax-free to your surviving spouse’s own IRA, or by treating your IRA as your surviving spouse’s own IRA.

The post-death distribution requirements are complex and unclear in numerous respects. In addition, the manner in which these requirements will apply will depend on your particular facts and circumstances. You may wish to consult a professional tax adviser for tax advice as to your particular situation.

Each Required Minimum Distribution will be taken from the allocation options you select. Your selection may be subject to any investment and/or withdrawal limitations applicable to any benefit or program in which you participate under the Annuity.

No contingent deferred sales charge (if applicable under your Annuity) is assessed against amounts withdrawn as part of a program designed to distribute Required Minimum Distributions over your life or life expectancy, but only to the extent of the Required Minimum Distribution required from your Annuity at the time it is taken. The contingent deferred sales charge (if applicable under your Annuity) may apply to additional amounts withdrawn to meet Required Minimum Distribution requirements in relation to other retirement programs you may maintain.

This disclosure is not part of the Prospectus.
Amounts withdrawn as Required Minimum Distributions are considered to come first from the amounts available as a free withdrawal as of the date of the yearly calculation of the Required Minimum Distribution amount. Required Minimum Distributions over that amount to meet the requirements based on your Annuity are not deemed to be a liquidation of Purchase Payments.

Except as may be required by law, all provisions of the Annuity that do not specifically terminate upon your death will then be applied to the Spouse. Your surviving Spouse is deemed to have made this election if he or she makes a regular IRA contribution to the Annuity, makes a rollover to or from the Annuity, or fails to commence Minimum Distributions following your death.

If distributions are less than the required Minimum Distribution for a year, you may have to pay a 50% excise tax on the amount not distributed as required. This requires that you file a Form 5329 with the IRS.

**Taxation of Distributions**

In general, distributions from a traditional IRA are taxable in the year you receive them. Exceptions to the general rule are rollovers, tax-free withdrawals of contributions, and the return of nondeductible contributions.

Distributions from traditional IRAs that you include in income are taxed as ordinary income. Distributions from your traditional IRA may be fully or partly taxable, depending on whether your IRA includes any nondeductible contributions. If only deductible contributions were made to your traditional IRA (or IRAs, if you have more than one), distributions are fully taxable. If you made nondeductible contributions to any of your traditional IRAs, you have a cost basis (investment in the contract) equal to the amount of those contributions. These nondeductible contributions are not taxed when they are distributed to you. Only the part of the distribution that represents nondeductible contributions (your cost basis) is tax-free. If your traditional IRA includes nondeductible contributions and you receive a distribution, each distribution is partly nontaxable and partly taxable until all of your basis has been distributed. You must use IRS Form 8606 to figure how much of your distribution is tax-free.

**IRA Distributions for Charitable Purposes:** The law permits IRA owners who are age 70½ or older and who make distributions from the IRA directly to certain charities to exclude the distribution from income. The income exclusion is available by an amount equal to the excess of: (1) all IRA deductions allowed to an IRA owner for all taxable years ending on or after the date the IRA owner attains age 70½; over (2) all reductions to the exclusion based on post-70½ IRA deductions for all taxable years preceding the current taxable year. The distribution can be made from a traditional or Roth IRA or a “deemed” IRA in a qualified plan but not from an ongoing SEP or SIMPLE IRA. Charitable distributions can be made from an inherited IRA if the beneficiary has attained age 70½. Under this provision of the law, we are required to report such distribution in the same manner as all other distributions to the IRA owner. The tax treatment afforded IRA distributions for Charitable Purposes would be reflected on the owner’s income tax return.

**Qualified Reservist Distributions:** Withdrawals from an IRA or attributable to elective deferrals to a 401(k), 403(b) or similar arrangement that meet certain requirements are exempt from the 10% tax penalty as “qualified reservist distributions.” The withdrawal must be from an IRA or from elective deferrals under a 401(k) plan, 403(b) plan, SEP or SIMPLE; the withdrawal must be made to a reservist or national guardsman who was ordered or called to duty after September 11, 2001. The period for which the reservist is ordered or called to duty must be greater than 179 days, or for an indefinite period; The withdrawal must be made during the period beginning on the date of the order or call to duty, and ending at the close of the active duty period. Instead of the 60-day period generally provided to roll over distributions from an IRA or qualified plan, a qualified reservist distribution can be repaid to an IRA until the end of the two-year period that begins on the day after the active duty period ends.

**Inherited IRAs**

The beneficiaries of a traditional IRA generally must include in their gross income any distributions they receive. If you inherit a traditional IRA from someone other than your spouse, you cannot treat it as your own IRA.

**Prohibited Transactions**

Generally, a prohibited transaction is any improper use of your traditional IRA by you, your Beneficiary, or any disqualified person. Disqualified persons include any fiduciary with respect to your traditional IRA and members of your family (spouse, ancestor, lineal descendant, and any spouse of a lineal descendant). The following are examples of prohibited transactions with a traditional IRA.

1. Borrowing money from it.
2. Selling property to it.
3. Receiving unreasonable compensation for managing it.
4. Using it as security for a loan.
5. Buying property for personal use with IRA funds.

This disclosure is not part of the Prospectus
Generally, if you or your Beneficiary engages in a prohibited transaction in connection with your traditional IRA at any time during the year, the Annuity stops being an IRA as of the first day of that year. If this occurs, the IRA is treated as distributing all of its assets to you at their fair market values on the first day of the year. You or your Beneficiary may be required to include the fair market value of all of the IRA assets in your gross income for that year if you engage in a prohibited transaction.

If you borrow money against your traditional IRA Annuity, you must include in your gross income the fair market value of the Annuity as of the first day of your tax year. If you use part of your traditional IRA as security for a loan, that part is treated as a distribution and is included in your gross income. In both cases you may have to pay the 10% additional tax on early distributions, discussed above.

**Excess Contributions**

Generally, an excess contribution is the amount contributed to your traditional IRAs that is more than the smaller of:

1. Your taxable compensation for the year, or
2. The maximum contribution limit (including any catch-up contributions, if eligible).

The taxable compensation limit applies whether your contributions are deductible or nondeductible. Contributions for the year you reach age 72 and any later year are also excess contributions.

In general, if the excess contribution for a year and any earnings on it are not withdrawn by the date your return for the year is due (including extensions), you are subject to a 6% tax. You must pay the 6% tax each year on excess amounts that remain in your traditional IRA at the end of your tax year. You will not have to pay the 6% tax if you withdraw an excess contribution made during a tax year and you also withdraw any interest or other income earned on the excess contribution. You can take into account any loss on the contribution while it was in the IRA when calculating the amount that must be withdrawn. You must complete your withdrawal by the date your tax return for that year is due, including extensions. Once the 6% tax has been imposed for a year, you can avoid an additional 6% tax for the following tax year if the excess contribution is (1) withdrawn before the end of the following tax year, or (2) treated as a current IRA contribution for the following year. Distributions of excess contributions must be reported on IRS Form 5329.

**Restriction on Investments**

No portion of your IRA may be invested in life insurance contracts. In addition, you may not invest the assets of your IRA in collectibles within the meaning of Code Section 409(m). If you invest in collectibles, the amount invested is considered distributed to you in the year invested and may be subject to the 10% additional tax discussed above.

**Estate and Gift Taxes**

Any amount held in your IRA upon your death may be subject to estate taxes. Transfers of your IRA assets to a Beneficiary during your life may be subject to gift taxes.

**Internal Revenue Service Approval**

Your Annuity contract or one substantially the same in form and certain riders, endorsements, amendments or schedules made a part of it have been submitted to the Internal Revenue Service for approval as to form for use as an individual retirement annuity. The Internal Revenue Service approval is a determination as to form only and does not represent a determination of the merits of this Annuity. Approval of the Annuity by the IRS has either been received or is pending. Please contact the Company with any questions regarding IRS approval.
PRUDENTIAL ANNUITIES LIFE INSURANCE CORPORATION (PALAC)

ROTH INDIVIDUAL RETIREMENT ANNUITY (ROTH IRA) DISCLOSURE STATEMENT

This Disclosure Statement, the accompanying Financial Disclosure, and your Roth IRA Endorsement contain important information about your Roth IRA. Please read these documents carefully. For additional information please consult Internal Revenue Service (IRS) Publication 590, your Annuity Contract, Prospectus, the Roth IRA Endorsement attached to your Annuity Contract or any district office of the IRS.

Except where otherwise indicated or required by law, references to “you” or “your” in this Disclosure Statement shall be understood to mean the Roth IRA owner or a surviving Spouse that elects to treat the Annuity as his or her own Roth IRA.

Right to Cancel

You (the Roth IRA owner or a Designated Beneficiary under an inherited Roth IRA that has transferred the Roth IRA from another annuity provider) may revoke your PALAC Roth IRA for a refund within ten (10) days (or such other period as may be required by applicable law) after you receive it by mailing or delivering a written notice of cancellation to:

Prudential Annuities Life Assurance Corporation
Annuity Service Center
P.O. Box 7960
Philadelphia, PA 19176

For Overnight delivery:

Prudential Annuities Life Assurance Corporation
2101 Welsh Road
Dresher, PA 19025

The notice of cancellation shall be deemed mailed on the date of the postmark (or if sent be certified or registered mail, the date of certification or registration) if it is deposited in the mail in the United States in an envelope, or other appropriate wrapper, first class postage prepaid, properly addressed.

The amount of the refund will equal the greater of (1) a full refund of the Purchase Payment (without regard to sales commissions (if any), administrative expenses or fluctuations in market value) and (2) the current Account Value of the Annuity as of the Valuation Day the refund request is received at our Office (without regard to sales commissions (if any) or administrative expenses).

After ten (10) days (or such other period as may be required by applicable law), the terms of your right to cancel will revert to the terms of the Right to Cancel provision of your Annuity. Please refer to the Right to Cancel provision of your Annuity for additional information.

What is a Roth IRA?

A Roth IRA is an individual retirement plan that provides certain tax advantages. For instance, earnings within a Roth IRA are not subject to tax and Qualified Distributions (as defined below) from Roth IRAs are tax-free. Unlike a traditional IRA, you cannot deduct contributions to a Roth IRA. Also, you can make contributions to a Roth IRA after you reach age 2 and can leave amounts in your Roth IRA for as long as you live. Like a traditional IRA, however, your interest in your Roth IRA (and that of any Beneficiary following your death) is nonforfeitable and nontransferable to any person other than the issuer.

Eligibility

Generally, you can contribute to a Roth IRA for 2020 if you have taxable Compensation (as defined below) and your Modified AGI (as defined below) is less than:

• $206,000 for married filing jointly or qualifying widow(er),
• $10,000 for married filing separately and you lived with your spouse at any time during the year, and
• $139,000 for single, head of household, or married filing separately and you did not live with your spouse at any time during the year.

Qualified employees of certain bankrupt airline carriers may contribute certain funds received to a Roth IRA within 180 days of receipt.

Compensation – Compensation includes wages, salaries, tips, professional fees, bonuses and other amounts received for professional services. It also includes commissions, self-employment income, and taxable alimony and separate maintenance payments. This includes

This disclosure is not part of the Prospectus
any military differential pay you receive from your employer while you are serving on active duty for a period of more than 30 days. Compensation does not include earnings or profits from property (such as rental income, interest income, and dividend income), pension or annuity income, deferred compensation received, income from a partnership for which you do not provide services that are a material income producing factor, and any amounts you exclude from income, such as foreign earned income and housing costs.

**Modified AGI** – Your Modified AGI for Roth IRA purposes is your adjusted gross income (AGI) as shown on your income tax return, less any income resulting from the conversion of an IRA (other than a Roth IRA) to a Roth IRA plus traditional IRA deductions, student loan interest deductions, deductions for qualified tuition and related expenses, foreign earned income exclusions, foreign housing exclusions or deductions, exclusions of qualified bond interest shown on IRS Form 8815 and exclusions of employer-paid adoption expenses shown on IRS Form 8839.

**Contribution limit reduced** – If your modified AGI is above a certain limit, your contribution limit is gradually reduced. If you are married filing jointly, this limit is $196,000. If you are single, head of household, qualifying widow(er) or married filing separately and you did not live with your spouse at any time during the year this limit is $124,000. These income limits are for 2019 and are indexed for inflation. If you are married filing separately, your allowable Roth IRA contribution will be phased out between zero dollars and $10,000 of modified AGI.

If contributions are made to both Roth IRAs and traditional IRAs, your contribution limit for Roth IRAs generally is the same as your limit would be if contributions were made only to Roth IRAs, but then reduced by all contributions (other than employer contributions under a SEP or SIMPLE IRA plan) for the year to all IRAs other than Roth IRAs.

**Roth IRA for your Spouse** – You can contribute to a Roth IRA for your spouse provided the contributions to a Roth IRA for your spouse satisfy the Spousal IRA limit (discussed in the section titled “Contribution Limits”) and your modified AGI is less than the limits discussed above.

**Age limit for contributions** – There is no age limit for contributions.

**Contribution Limits**
The maximum amount that may generally be contributed to your Roth IRA is as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020</td>
<td>$6,000*</td>
</tr>
</tbody>
</table>

* For tax years 2020 and thereafter the $6,000 contribution limit may be increased by cost of living adjustments (in $500 increments).

Individuals age 50 and older may make additional “catch-up” contributions to their Roth IRA. These “catch-up” contributions are in addition to the contribution limits listed above. The maximum “catch-up” contribution amounts are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>2019 - 2020</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

The $1,000 catch-up contribution for Roth IRA owners age 50 or older is not indexed for inflation.

**Types of contributions accepted** – Contributions to your Roth IRA will only be accepted if made in cash (i.e., a check).

**Due date of contributions** – You can make contributions to your Roth IRA for a year at any time during the year or by the due date of your income tax return for that year (not including extensions).

**Refund of contributions** – Any refund of contributions must be applied before the close of the calendar year following the year of the refund toward the payment of future contributions, paid-up annuity additions, or the purchase of additional benefits.

**State income tax issues** – Some states have not conformed their laws to the new federal tax laws. These states may have laws that conflict with the limits discussed above. You should consult a tax advisor in your state to ensure that your state has approved these contribution limit increases.

**Conversions**

This disclosure is not part of the Prospectus.
You can convert a traditional IRA to a Roth IRA. The conversion is treated as a rollover, regardless of the conversion method used. You will owe taxes on the portion of the conversion which represents earnings and other amounts that were not previously taxed. You can convert amounts from a traditional IRA to a Roth IRA in any of the following three ways:

1. **Rollover** – You can receive a distribution from a traditional IRA and roll it over (contribute it) to a Roth IRA within 60 days after the distribution.

2. **Trustee to trustee transfer** – You can direct the trustee of the traditional IRA to transfer an amount from the traditional IRA to the trustee of the Roth IRA.

3. **Same trustee transfer** – If the trustee of the traditional IRA also maintains the Roth IRA, you can direct the trustee to transfer an amount from the traditional IRA to the Roth IRA.

The 10 percent early distribution penalty shall not apply to rollovers or conversions from a traditional IRA to a Roth IRA, regardless of whether you qualify for any exceptions to the 10 percent penalty. A traditional IRA to Roth IRA Rollover does not count towards the one rollover per 12 months rule described under Internal Revenue Code (Code) Section 408(d)(3).

**Recharacterizations**

As of January 1, 2018, recharacterizations are no longer allowed for Roth conversions. You may be able to treat a contribution made to one type of IRA as having been made to a different type of IRA. This is called recharacterizing the contribution and is still permitted under the tax law. To recharacterize a contribution, you generally must have the contribution transferred from the first IRA (the one to which it was made) to the second IRA in a trustee-to-trustee transfer. If the transfer is made by the due date (including extensions) for your tax return for the year during which the contribution was made, you can elect to treat the contribution as having been originally made to the second IRA instead of the first IRA. The contribution will not be treated as having been made to the second IRA unless the transfer includes any net income allocable to the contribution, you report the recharacterization on your tax return for the year during which the contribution was made, and you treat the contribution as having been made to the second IRA on the date that it was actually made to the first IRA. No deduction is allowed for the contribution to the first IRA and any net income transferred with the recharacterized contribution is treated as earned in the second IRA.

**Rollovers/Transfers**

Funds distributed from your Roth IRA may be rolled over to another Roth IRA of yours if the requirements of Code Section 408(d)(3) are met. A proper Roth IRA to Roth IRA rollover is completed if all or part of the distribution is rolled over not later than 60 days after you receive the distribution. Generally, if you make a rollover of any part of a distribution from a Roth IRA, you cannot, within a 1-year period, make a rollover of any later distribution from that same Roth IRA. You also cannot make a rollover of any amount distributed, within the same 1-year period, from the Roth IRA into which you made the rollover. Roth IRA assets may not be rolled over to other types of IRAs (e.g., traditional, SEP and SIMPLE IRAs, etc.). The Tax Court recently held that the 1-year period applies to all IRAs of the owner and not just the IRA from which the rollover was made. The IRS, in Ann. 2014-32, has indicated that all your IRAs, Roth IRAs, SEPs and SIMPLE IRAs will be counted for purposes of the one-year limit. The new rule is generally effective for distributions in 2015 but see Ann. 2014-32 for applicability to rollover distributions in 2014. The IRS, in Rev. Proc. 2016-47, allows for a self-certification procedure (which is subject to verification on audit) in order for you to claim eligibility for a waiver of the 60-day requirement with respect to a rollover into an IRA. Plan administrators and IRA trustees, custodians, or issuers may rely on such certification in accepting and reporting receipt of a rollover contribution. As indicated in this IRS guidance, we, as a financial institution, are not required to accept your self-certification for waiver of the 60-day deadline. Furthermore, the IRS may grant you a waiver of the 60-day requirement, with respect to a rollover into an IRA, upon examination of your income tax return.

**Rollovers from Employer Plans** – Distributions from qualified retirement plans, governmental 457(b) plans, and Section 403(b) TDAs may be rolled over directly from the plan to a Roth IRA. The amount rolled over is includible in income as if it had been withdrawn from the plan but the 10% penalty tax does not apply.

**Distributions**

You do not include in your gross income Qualified Distributions (defined below) or distributions that are a return of your regular contributions from your Roth IRA. You also do not include distributions from your Roth IRA that you roll over tax-free to another Roth IRA. You may have to include part of other distributions in your income.

**Qualified Distributions** – A Qualified Distribution is any payment or other distribution from your Roth IRA that meets the following requirements:

1. It is made after the 5-taxable-year period beginning with the first taxable year for which a contribution was made to a Roth IRA set up for your benefit, and

This disclosure is not part of the Prospectus
2. The payment or distribution is:
   a. Made on or after the date you reach age 59½,
   b. Made because you are disabled,
   c. Made to a Beneficiary or to your estate after your death, or
   d. Used to buy, build, or rebuild a first home (subject to a $10,000 lifetime limit).

Nonqualified Distributions – If you do not meet the requirements for a Qualified Distribution, any earnings you withdraw from your Roth IRA will be included in your gross income and you are under 59½, your distribution will be subject to a 10% additional tax unless you meet one of several exceptions discussed below in the section entitled “Additional tax for early distribution.” However, when you take a nonqualified distribution, your basis (the contributions you deposited to the account) will generally be removed first. Therefore, your nonqualified distributions will not be taxable to you until your withdrawals exceed the amount of your contributions. Special rules may apply to the distribution of conversion amounts.

Beneficiary Payments

Upon your death, any remaining interest in your Roth IRA must be distributed in accordance with federal income tax requirements. The post-death distribution requirements were amended, applicable generally with respect to deaths occurring after 2019, by the Further Consolidated Appropriations Act of 2020 (which includes the “Setting Every Community Up for Retirement Enhancement” Act (SECURE Act)). The post-death distribution requirements under prior law continue to apply in certain circumstances.

• Prior law. Under prior law, if an Roth IRA owner dies prior to the required beginning date, the remaining interest must be distributed (1) within 5 years after the death (the “5-year rule”), or (2) over the life of the designated beneficiary, or over a period not extending beyond the life expectancy of the designated beneficiary, provided that such distributions commence within one year after death (the “lifetime payout rule”). If the Roth IRA owner dies on or after the required beginning date (including after the date distributions have commenced in the form of an annuity), the remaining interest must be distributed at least as rapidly as under the method of distribution being used as of the date of death (the “at-least-as-rapidly rule”).

• The new law. Under the new law, if you die after 2019, and you have a designated beneficiary, any remaining interest must be distributed within 10 years after your death, unless the designated beneficiary is an “eligible designated beneficiary” (“EDB”) or some other exception applies. A designated beneficiary is any individual designated as a beneficiary by the employee or Roth IRA owner. An EDB is any designated beneficiary who is (1) your surviving spouse, (2) your minor child, (3) disabled, (4) chronically ill, or (5) an individual not more than 10 years younger than you. An individual's status as an EDB is determined on the date of your death.

This 10-year post-death distribution period applies regardless of whether you die before your required beginning date, or you die on or after that date (including after distributions have commenced in the form of an annuity). However, if the beneficiary is an EDB and the EDB dies before the entire interest is distributed under this 10-year rule, the remaining interest must be distributed within 10 years after the EDB’s death (i.e., a new 10-year distribution period begins).

Instead of taking distributions under the new 10-year rule, an EDB can stretch distributions over life, or over a period not extending beyond life expectancy, provided that such distributions commence within one year of your death, subject to certain special rules. In particular, if the EDB dies before the remaining interest is distributed under this stretch rule, the remaining interest must be distributed within 10 years after the EDB’s death (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years). In addition, if your minor child is an EDB, the child will cease to be an EDB on the date the child reaches the age of majority, and any remaining interest must be distributed with 10 years after that date (regardless of whether the remaining distribution period under the stretch rule was more or less than 10 years).

The new law applies if you die after 2019. It is important to note that under prior law, annuity payments that commenced under a method that satisfied the distribution requirements while the Roth IRA owner was alive could continue to be made under that method after the death of the Roth IRA owner. However, under the new law, if you commence taking distributions in the form of an annuity that can continue after your death, such as in the form of a joint and survivor annuity or an annuity with a guaranteed period of more than 10 years, any distributions after your death that are scheduled to be made beyond the applicable distribution period imposed under the new law might need to be commuted at the end of that period (or otherwise modified after your death if permitted under federal tax law and by Prudential) in order to comply with the new post-death distribution requirements.

This disclosure is not part of the Prospectus
The new post-death distribution requirements do not apply if annuity payments that comply with prior law commenced prior to December 20, 2019. Also, even if annuity payments have not commenced prior to December 20, 2019, the new requirements generally do not apply to an immediate annuity contract or a deferred income annuity contract (including a qualifying lifetime annuity contract, or “QLAC”) purchased prior to that date, if you have made an irrevocable election before that date as to the method and amount of the annuity.

If your beneficiary is not an individual, such as a charity, your estate, or a trust, any remaining interest after your death generally must be distributed under prior law in accordance with the 5-year rule or the at-least-as-rapidly rule, as applicable (but not the lifetime payout rule). However, if your beneficiary is a trust and all the beneficiaries of the trust are individuals, the new law can apply pursuant to special rules that treat the beneficiaries of the trust as designated beneficiaries, including special rules allowing a beneficiary of a trust who is disabled or chronically ill to stretch the distribution of their interest over their life or life expectancy in some cases. You may wish to consult a professional tax advisor about the federal income tax consequences of your beneficiary designations.

In addition, the new post-death distribution requirements generally do not apply if the employee or Roth IRA owner died prior to January 1, 2020. However, if the designated beneficiary of the deceased employee or Roth IRA owner dies after January 1, 2020, any remaining interest must be distributed within 10 year of the designated beneficiary’s death. Hence, this 10-year rule will apply to (1) a contract issued prior to 2020 which continues to be held by a designated beneficiary of an employee or Roth IRA owner who died prior to 2020, and (2) an inherited Roth IRA issued after 2019 to the designated beneficiary of an employee or Roth IRA owner who died prior to 2020.

• Spousal continuation. Under the new law, as under prior law, if your beneficiary is your spouse, your surviving spouse can delay the application of the post-death distribution requirements until after your surviving spouse’s death by transferring the remaining interest tax-free to your surviving spouse’s own Roth IRA, or by treating your Roth IRA as your surviving spouse’s own Roth IRA.

The post-death distribution requirements are complex and unclear in numerous respects. In addition, the manner in which these requirements will apply will depend on your particular facts and circumstances. You may wish to consult a professional tax adviser for tax advice as to your particular situation.

No contingent deferred sales charge (if applicable under your Annuity) is assessed against amounts withdrawn as part of a program designed to distribute Minimum Distributions over your life or life expectancy, but only to the extent of the Minimum Distribution required from your Annuity at the time it is taken. The contingent deferred sales charge (if applicable under your Annuity) may apply to additional amounts withdrawn to meet Minimum Distribution requirements in relation to other retirement programs you may maintain.

Amounts withdrawn as Minimum Distributions are considered to come first from the amounts available as a free withdrawal as of the date of the yearly calculation of the Minimum Distribution amount. Minimum Distributions over that amount to meet the requirements based on your Annuity are not deemed to be a liquidation of Purchase Payments.

Federal Excise and Additional Taxes

Additional tax for early distribution – If you are under age 59½ and receive a nonqualified Roth IRA distribution, an additional tax of 10 percent will apply to the amount includible in income, unless one of the exception situations discussed later in this section applies.

The 10% additional tax also applies (subject to the same exceptions) if you take a distribution from your Roth IRA within the 5-year period starting with the first day of your tax year in which you convert an amount from a traditional IRA to a Roth IRA. In this case, the 10% additional tax is paid on any amount attributable to the amount converted that you had to include in income at the time of the conversion. A separate 5-year period applies to each conversion and is not necessarily the same as the 5-year period used to determine whether a distribution is Qualified Distribution. (Qualified Distributions are discussed above, in the section entitled “Qualified Distributions”).

You may not have to pay the 10% additional tax discussed in this section in the following situations:

1. You have reached age 59½.
2. You have unreimbursed medical expenses that are more than 10% of your adjusted gross income.
3. The distributions are not more than the cost of your medical insurance if you are unemployed and certain requirements are met.
4. You are disabled within the meaning of Code Section 72(m)(7).
5. You are receiving distributions that are part of a series of substantially equal periodic payments.
6. The distributions are not more than your qualified higher education expenses for yourself or other qualified individual.
7. You use the distributions to buy, build, or rebuild a first home (subject to a $10,000 lifetime limit).

This disclosure is not part of the Prospectus
8. The distribution is due to an IRS levy of the qualified plan.
9. The owner of the Roth IRA is deceased, and you are the Beneficiary.
10. The distribution is a qualified reservist distribution.
11. You receive a qualified birth or adoption distribution that is no greater than $5,000 (on an individual basis) and such distribution is made during the 1-year period beginning on the date on which your child is born or legally adopted.

Excess contribution excise tax – An excise tax of 6 percent is imposed upon any excess contribution you make to your Roth IRA. This tax will apply each year in which an excess remains in your Roth IRA. An excess contribution is any contribution amount which exceeds your contribution limit, excluding amounts properly and timely rolled over from a Roth IRA or properly converted from a traditional IRA. Contribution limits are discussed above, in the section entitled “Contribution Limits.”

Excess accumulation excise tax – One of the requirements listed above is your designated Beneficiary(ies) must take certain required minimum distributions after your death. An excise tax of 50 percent is imposed on the amount of any required minimum distribution which should have been taken but was not.

Penalty reporting – You must file Form 5329 with the Internal Revenue Service to report and remit any additional or excise taxes.

Miscellaneous

Commingling Assets – The assets of your Roth IRA cannot be commingled with other property except in a common trust fund or common investment fund.

Life Insurance – No portion of your Roth IRA may be invested in life insurance contracts.

Collectibles – You may not invest the assets of your Roth IRA in collectibles (within the meaning of Code Section 409(m)). A collectible is defined as any work of art, rug or antique, metal or gem, stamp or coin, alcoholic beverage, or other tangible personal property specified by the Internal Revenue Service. However, specially minted United States gold and silver bullion coins and certain gold, silver, platinum or palladium bullion (as described in Code Section 408(m)(3)) are also permitted as Roth IRA investments.

No required minimum distributions – As the owner of your Roth IRA, you are not required to take required minimum distributions from the Roth IRA commencing at age 72 during your lifetime (as is required for traditional, SEP and SIMPLE IRAs).

Estate and gift taxes – Any amount held in your Roth IRA upon your death may be subject to estate taxes. Transfers of your Roth IRA assets to a Beneficiary during your life may be subject to gift taxes.

Special tax treatment – Capital gains treatment and the favorable ten year forward averaging tax authorized in certain circumstances by IRC Section 402 do not apply to Roth IRA distributions.

Prohibited Transactions – If you or your Beneficiary engage in a prohibited transaction with your Roth IRA, as described in IRC Section 4975, your Roth IRA will lose its tax-exempt status and you or your Beneficiary must generally include the value of the earnings in your account in your gross income for that taxable year. If you borrow money against your Roth IRA Annuity, you must include in your gross income the fair market value of the earnings in the Annuity as of the first day of your tax year. If you use part of your Roth IRA as security for a loan, that part is treated as a distribution and may be includible in your gross income. In both cases you may have to pay the 10% additional tax on early distributions, discussed above.

IRS Approval

Your Annuity contract or one substantially the same in form and certain riders, endorsements, amendments or schedules made a part of it have been submitted to the Internal Revenue Service for approval as to form for use as a Roth IRA. The Internal Revenue Service approval is a determination as to form only and does not represent a determination of the merits of this Annuity. Approval of the Annuity by the IRS has either been received or is pending. Please contact the Company with any questions regarding IRS approval. This Disclosure Statement and the Roth IRA Endorsement do not constitute a prototype, master plan or other document approved as to form or otherwise by the IRS.

PRUDENTIAL ANNUITIES LIFE ASSURANCE CORPORATION
(A PRUDENTIAL FINANCIAL COMPANY)

FINANCIAL DISCLOSURE

Prudential FlexGuard™ indexed variable annuity

Flexible Premium Deferred Index-Linked and Variable Annuities (“B” Series)
Used to Fund an Individual Retirement Annuity or Roth
Individual Retirement Annuity Program

1. The Annuity or one substantially the same in form and certain riders, endorsements or schedules attached to it have been submitted to the Internal Revenue Service (“IRS”) for approval as to form for use as an Individual Retirement Annuity as described in Section 408(b) of the Internal Revenue Code (“Code”) and as a Roth Individual Retirement Annuity as described in Section 408A of the Code. The IRS approval is a determination as to form only and does not represent a determination of the merits of the Annuity. Approval of the Annuity by the IRS has either been received or is pending.

2. Within ten (10) days after you receive your Annuity (or such other period as may be required by applicable law) you may cancel it for a refund by delivering or mailing it to the representative through whom you bought it or to the Prudential Annuity Service Center at the address indicated on your IRA Disclosure Statement or Roth IRA Disclosure Statement, as applicable. The notice of cancellation shall be deemed mailed on the date of the postmark (or if sent by certified or registered mail, the date of certification or registration) if it is deposited in the mail in the United States in an envelope, or other appropriate wrapper, first class postage prepaid, properly addressed. The amount of the refund will equal the greater of (1) the Purchase Payment, less withdrawals (without regard to sales commissions (if any), administrative expenses or fluctuation in market value) or (2) the current Account Value of the Annuity as of the Valuation Day the refund request is received at our Office (without regard to sales commissions (if any) or administrative expenses). After ten (10) days (or such other period as may be required by applicable law), the terms of your right to cancel will revert to the terms of the Right to Cancel provision of your Annuity. Please refer to the Right to Cancel provision in the prospectus for your Annuity for additional information.

3. Key financial information is fully disclosed in the Prudential FlexGuard indexed variable annuity prospectus. This includes all charges, which may be applied to your Annuity in determining the net amount available to you under the Annuity, how those charges are computed, and how annual earnings are computed and allocated. This includes, but is not limited to, information on Annuity and variable investment option expenses - such as insurance charges and Portfolio management fees, which affect your Account Value. The following is a summary of some of the charges and expenses related to the Prudential FlexGuard indexed variable annuity.

No charges are deducted from your Purchase Payments when payments are made. Please note, in certain jurisdictions premium taxes may be required to be deducted from your Purchase Payments. Please consult the prospectus for more details.

Each Purchase Payment may be subject to a contingent deferred sales charge (“CDSC”). The amount of the CDSC will depend on the Purchase Payments withdrawn and the number of years that have passed since the Purchase Payment was made. CDSCs apply to each Purchase Payment and are determined using the following percentages, which are multiplied by the amount of the Purchase Payment being liquidated:

**CONTINGENT DEFERRED SALES CHARGE**

This disclosure is not part of the Prospectus
The years referenced in the CDSC table above refer to the length of time since a Purchase Payment was made (i.e. the age of the Purchase Payment). CDSCs are applied against the Purchase Payment(s) being withdrawn. The appropriate percentage is multiplied by the Purchase Payment(s) being withdrawn. Purchase Payments are withdrawn on a "first-in, first-out" basis.

The chart above represents the maximum CDSC percentages; withdrawals taken to satisfy RMDs from this Annuity, will not be subject to a CDSC.

An example of a CDSC is illustrated below:

Because the CDSC is assessed separately for each Purchase Payment, different withdrawal percentages may apply to each Purchase Payment withdrawn. For instance, if on May 18, 2020, you purchased a FlexGuard Annuity with $25,000 and then made an additional Purchase Payment of $1,000 on June 1, 2021, on the sixth Annuity anniversary, the CDSC percentages associated with the initial $25,000 payment would be 0% and the percentage associated with the subsequent $1,000 would be 4%.

The longer the period of time between your initial Purchase Payment and any additional Purchase Payment, the likelier different withdrawal percentages will apply to your Purchase Payments.

An additional tax of 10% may be imposed on distributions taken from the contract prior to the Owner reaching 59½ years of age.

4. In the Accumulation Period values under the Annuity are dependent upon the investment results of the variable investment option (referred to as the "Sub-account" in the Annuity) and cannot be guaranteed or projected. An investment in a variable annuity involves investment risks, including possible loss of value. The Index Strategies provide an Index Credit based on the Index Return of the underlying Index associated with the Index Strategy. The Index Strategies provide a level of protection against negative Index Returns; however, negative Index Returns in excess of the Buffer will result in a loss of principal and any prior earnings, which could also result in a significant amount of loss.

5. The amount paid to a broker dealer firm to cover both the individual representative’s commission and other distribution expenses are described in your prospectus. We may also provide compensation to the distributing firm for providing ongoing service to you in relation to the Annuity. Commissions and other compensation paid in relation to the Annuity do not result in any additional charge to you or to the investment options.

6. From time to time we may offer various optional benefits and features that may be made part of your Annuity at a cost to you. Before you elect to purchase any such benefit, please refer to the section of the prospectus pertaining to the applicable benefit for a detailed description of any fees, charges, or financial impact of the applicable benefit on your Annuity.
